› Bezuny 5-Tier Heavy-Duty Metal Garage Shelving Unit (Model: 35.5"W x 15.8"D x 72"H) Instruction Manual

## Bezuny 35.5"W x 15.8"D x 72"H

# Bezuny 5-Tier Heavy-Duty Metal Garage Shelving Unit (Model: 35.5"W x 15.8"D x 72"H) Instruction Manual

**Brand:** Bezuny

**Model:** 35.5"W x 15.8"D x 72"H

## 1. INTRODUCTION

---

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your Bezuny 5-Tier Heavy-Duty Metal Garage Shelving Unit. This robust storage solution is constructed entirely of steel, designed for durability and stability in various environments such as garages, basements, and workshops. The unit features adjustable shelves to accommodate diverse storage needs.

## 2. SAFETY INFORMATION

- **Weight Limit:** Do not exceed the total weight capacity of 3000 lbs for the entire unit, or 600 lbs per individual shelf.
- **Assembly:** Always assemble the shelving unit according to the provided instructions. Ensure all connections are secure before loading items.
- **Mounting:** For enhanced stability and safety, especially in areas with potential movement or if children are present, utilize the included anti-tipping device to secure the unit to a wall.
- **Cleaning:** Be cautious when cleaning the shelves to avoid accidents. Refer to the maintenance section for proper care instructions.
- **Placement:** Ensure the unit is placed on a flat, stable surface.

### 3. PACKAGE CONTENTS

---

Before beginning assembly, verify that all components are present and undamaged. The package should contain the following items:

- Upright Posts (Vertical Supports)
- Horizontal Crossbars (for shelf support)
- Shelf Boards (5 pieces)
- Connectors (for joining upright posts)
- Protective Covers (for top and bottom of posts)
- Anti-Dumping Device (wall anchor kit)
- Rubber Mallet (for assembly)
- Gloves (for assembly)
- Instruction Manual

## 4. ASSEMBLY INSTRUCTIONS

The Bezuny shelving unit features a unique interlocking design for quick and easy assembly. A rubber mallet and gloves are included to assist with the process. It is recommended to have a second person for certain steps to ensure stability during construction.

### Step-by-Step Guide:

- 1. Prepare Components:** Unpack all parts and lay them out. Ensure you have all items listed in the Package Contents section.
- 2. Assemble Upright Frames:** Connect the shorter horizontal crossbars to the vertical upright posts to form the side frames. Use the rubber mallet to gently tap connections into place. Ensure the lip on the crossbars faces outwards to support the shelves.
- 3. Connect Frames:** Use the longer horizontal crossbars to connect the assembled side frames, forming the full rectangular structure.
- 4. Install Shelf Boards:** Place the five shelf boards onto the horizontal crossbars. Ensure they sit securely within the frame.
- 5. Secure to Wall (Optional but Recommended):** Attach the anti-dumping device to the top of the shelving

unit and secure it to a wall stud using appropriate hardware. This significantly enhances stability.

## Assembly Videos:

Video: Overview of the garage shelving unit, highlighting its features and assembly.

## 5. OPERATING INSTRUCTIONS

---

The Bezuny shelving unit offers exceptional flexibility with its adjustable shelves. Each shelf height can be freely adjusted to accommodate items of various sizes, enhancing storage efficiency.

- **Adjusting Shelf Height:** To adjust a shelf, carefully remove any items from the shelf. Disengage the shelf board and its supporting crossbars from the upright posts. Re-position the crossbars into the desired keyhole slots on the upright posts and secure them firmly. Place the shelf board back onto the adjusted crossbars.
- **Loading Items:** Distribute weight evenly across each shelf. Avoid concentrating heavy items in one spot.

# SHELF LAYER BOARD

## ADJUSTABLE

The layer board can be adjusted according to the height of the item  
There are fences on both sides to ensure that items will not fall off

Image: Detail of the adjustable shelf mechanism, allowing customization of shelf height.

## 6. MAINTENANCE

To ensure the longevity and appearance of your Bezuny shelving unit, follow these simple maintenance guidelines:

- **Cleaning:** Wipe the shelves and frame with a damp cloth to remove dust and dirt. For more thorough cleaning, use a dry cloth immediately after to prevent moisture buildup.
- **Inspection:** Periodically check all connections and fasteners to ensure they remain tight and secure. Retighten if necessary.
- **Environment:** The specially treated powder-coated finish helps protect against rust, making it suitable for various environments. However, prolonged exposure to extreme moisture or harsh chemicals should be avoided.

## 7. TROUBLESHOOTING

If you encounter any issues during assembly or use, consider the following:

- **Unit Instability:** Ensure all horizontal crossbars are fully seated and tapped into the keyhole slots on the

upright posts. The unit gains significant stability once all components are properly interlocked. Verify that the unit is placed on a level surface.

- **Missing Instructions/Parts:** If your package arrived without instructions or with missing components, please contact customer service immediately.
- **Difficulty Assembling:** While designed for easy assembly, some connections may require firm tapping with the rubber mallet. Having a second person can greatly assist in holding components steady during initial assembly.
- **Shelf Sagging:** Ensure the weight on the shelf does not exceed the individual shelf capacity of 600 lbs and is distributed evenly.

## 8. SPECIFICATIONS

Feature	Detail
Product Dimensions	35.5"W x 15.8"D x 72"H
Number of Shelves	5
Weight Limit (Total)	3000 Pounds
Weight Limit (Per Shelf)	600 Pounds
Material	Steel
