Silonn SLIM09

Silonn Countertop Ice Maker User Manual

Model: SLIM09
Brand: Silonn

Introduction

Thank you for choosing the Silonn Countertop Ice Maker. This appliance is designed to provide you with fresh ice quickly and conveniently, perfect for home, kitchen, office, bar, or party use. With its efficient ice production and user-friendly features, you'll enjoy bullet-shaped ice cubes in minutes.

Key features include:

- Fast Ice Production: Makes 9 bullet-shaped ice cubes in as little as 6 minutes.
- High Capacity: Produces up to 26 pounds of ice in 24 hours.
- Two Ice Cube Sizes: Choose between small and large ice cubes for various needs.
- Portable Design: Compact size (11 x 9 x 11 inches) with a sturdy handle for easy transport.
- Quiet Operation: Operates at less than 35dB, similar to a working refrigerator.
- Self-Cleaning Function: Simplifies maintenance and ensures hygiene.
- User-Friendly Controls: Simple one-button operation with indicator lights for water level and ice fullness.

Product Overview

Figure 1: Silonn Countertop Ice Maker (Green model shown).

Figure 2: The ice maker produces 9 cubes in 6-8 minutes and up to 26 lbs of ice in 24 hours.

Figure 3: Choose between two sizes of bullet ice cubes: large (25x26mm) and small (22x24mm).

Figure 4: Ultra effective ice making with 9 pieces in 6-8 minutes, 26.5 lbs per day, 1.2L water tank, less than 35dB low noise, and 2 ice sizes.

Setup

Unpacking and Initial Placement

1. Carefully remove the ice maker from its packaging.
2. Place the ice maker upright on a flat, stable surface.
3. Allow the unit to stand upright for at least 24 hours before plugging it in. This is crucial to allow the refrigerant to settle, ensuring optimal performance and preventing damage to the compressor.
4. Ensure there is adequate ventilation around the unit, leaving at least 5 inches of space from walls or other appliances.

Water Filling

1. Open the top lid of the ice maker.
2. Locate the water reservoir.
3. Fill the water reservoir with clean, potable water up to the MAX fill line. Do not overfill.

Figure 5: Pouring water into the ice maker.

Operating Instructions

Making Ice

1. After filling the water reservoir, close the top lid.
2. Plug the ice maker into a grounded electrical outlet.
3. Press the **ON/OFF CLEAN** button to turn on the machine. The Power indicator light will illuminate.
4. To select the ice cube size, press the **SELECT** button. The indicator lights for SMALL or LARGE will illuminate accordingly.
5. The machine will begin the ice-making cycle automatically. The first batch of ice is typically ready in 6-8 minutes.
6. Once ice is produced, it will drop into the ice basket. The sensor automatically detects when the ice basket is full and stops production to prevent overflowing.

Figure 6: One-button ice ready. Simply press the ON/OFF button to start.

Figure 7: The ice maker operates at an ultra-low noise level of 35dB, making it barely noticeable.

Indicator Lights

- **POWER:** Green light indicates the machine is on and operating.
- **ADD WATER:** Red light indicates the water reservoir is low and needs refilling. The machine will pause operation until water is added.
- **ICE FULL:** Green light indicates the ice basket is full. The machine will stop producing ice until some ice is removed.
- **SMALL/LARGE:** Indicates the selected ice cube size.

Figure 8: The ice full sensor automatically detects when the basket is full.

Using the Ice

Use the provided ice scoop to retrieve ice from the basket. The ice is perfect for chilling beverages, making smoothies, or keeping food fresh.

Figure 9: The compact size of the Silonn ice maker (8.7in x 11.4in x 11.5in) makes it ideal for various spaces.

Figure 10: Easily scoop out fresh bullet ice.

Figure 11: Small ice cubes are suitable for chilling seafood and other items.

Video 1: Demonstrates the rapid ice production, showing how quickly a new batch is ready after the previous one is used. This ensures a continuous supply of ice for your needs.

Maintenance

Self-Cleaning Function

The ice maker features a convenient self-cleaning function:

1. Ensure the water reservoir is filled with clean water.
2. Press and hold the **ON/OFF CLEAN** button for 5 seconds. The machine will enter self-cleaning mode.
3. The cleaning cycle typically takes about 30 minutes.
4. Once the cleaning cycle is complete, drain the water from the unit.

Figure 12: The self-cleaning function can be activated with a single press and takes approximately 30 minutes.

Draining Water

To drain the water from the ice maker:

1. Unplug the unit from the power outlet.
2. Locate the drain plug at the bottom of the unit.
3. Place a container under the drain plug.
4. Remove the drain plug to allow water to flow out.
5. Once all water has drained, replace the drain plug securely.

General Cleaning

- Regularly wipe the exterior of the ice maker with a soft, damp cloth.
- Clean the interior, including the ice basket and water reservoir, periodically with a mild detergent and warm water. Rinse thoroughly.
- Ensure all parts are completely dry before reassembling and using the machine.

Troubleshooting

Problem	Possible Cause	Solution
Ice maker not producing ice.	No water in reservoir; Ice full sensor activated; Machine not plugged in; Ambient temperature too high.	Fill water reservoir; Remove ice from basket; Ensure unit is plugged in; Operate in a cooler environment.
ADD WATER indicator is on.	Water level is low.	Add water to the reservoir up to the MAX fill line.
ICE FULL indicator is on.	Ice basket is full.	Remove ice from the basket.
Ice cubes are clumping together.	Ice is too wet when dropped; Ice has melted and refrozen.	Remove ice from the basket more frequently; Store ice in a freezer if not used immediately.
Unusual noise during operation.	Normal operation sounds (compressor, water pump, ice dropping); Unit not level.	Ensure the unit is on a flat, stable, and level surface. If noise persists or is excessive, contact support.

Specifications

- **Model Name:** SLIM09
- **Product Dimensions:** 11"D x 9"W x 11"H
- **Item Weight:** 14.77 Pounds
- **Capacity:** 26 Pounds (ice production in 24 hours)
- **Wattage:** 160 watts
- **Manufacturer:** Silonn
- **Country of Origin:** China
