SETUP GUIDE

1. Charging the Device

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch and plug the USB end into a power adapter (not included) or a computer USB port. A full charge takes approximately 2 hours.

2. App Installation and Pairing

1. Scan the QR code on the connection card or in the manual to download the companion app (compatible with iOS and Android).
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the app and follow the on-screen instructions to search for and pair with your Lefitus Smart Watch.
4. Grant necessary permissions for notifications, health data, etc., when prompted by the app.

3. Initial Configuration

Once paired, you can set up your personal profile within the app, including age, height, weight, and fitness goals. This information helps the watch provide more accurate health and activity data.

OPERATING INSTRUCTIONS

Bluetooth Calls and Message Notifications

The smartwatch features a built-in microphone and HD speakers, allowing you to make and receive calls directly from your wrist. It also displays notifications from various apps like Facebook, WhatsApp, Instagram, and Twitter, ensuring you don't miss important updates.

Battery Life and Versatility

The smartwatch features a fast magnetic charging system, fully charging in just 2 hours. It offers 7-14 days of typical use and up to 30 days of standby time. Additional functions include a timer, stopwatch, alarm clock, cell phone finder, sedentary reminder, music control, weather forecast, brightness adjustment, and camera control.

Music and Camera Control

Control music playback on your smartphone directly from your smartwatch, including adjusting volume and switching songs. You can also remotely control your phone's camera to take photos, making it easy to capture moments from a distance.

MAINTENANCE

Cleaning

- Regularly clean your smartwatch and strap with a soft, damp cloth.
- Avoid using harsh chemicals or abrasive materials, as they may damage the device.
- Ensure the charging contacts are clean and dry before charging to prevent corrosion.

Battery Care

- Do not expose the watch to extreme temperatures (hot or cold) as this can affect battery life.
- If storing the watch for an extended period, charge it to about 50% to preserve battery health.

Storage

- Store the smartwatch in a cool, dry place away from direct sunlight.
- Keep it away from strong magnetic fields.

TROUBLESHOOTING

Common Issues and Solutions

Problem	Solution
Watch not turning on	Ensure the watch is fully charged. If it still doesn't turn on, contact customer support.
Cannot pair with phone	Ensure Bluetooth is on, the app is open, and the watch is within range. Restart both the watch and phone. Check app permissions.

Problem	Solution
Notifications not appearing	Check app notification settings on your phone and within the smartwatch app. Ensure the app is running in the background.
Inaccurate health data	Ensure the watch is worn snugly on your wrist. Keep your personal information (height, weight) updated in the app.
Short battery life	Reduce screen brightness, turn off unnecessary features, and limit continuous heart rate monitoring if not needed.

TECHNICAL SPECIFICATIONS

Feature	Specification
