Outre PURPLE PACK YAKI 10-inch

Outre HH PURPLE PACK YAKI 10-inch Human Hair Weave (Color 613) Instruction Manual

Model: PURPLE PACK YAKI 10-inch

1. ABOUT YOUR OUTRE PURPLE PACK YAKI HUMAN HAIR WEAVE

The Outre Purple Pack Yaki Human Hair Weave is crafted from 100% human hair, designed to blend seamlessly with your natural hair texture. This 10-inch straight style weave, in color 613, offers excellent styling versatility.

Note: The color shown on models or in images may vary slightly from the actual product due to screen resolution and lighting. This product is color 613.

2. PREPARATION AND INSTALLATION

Proper preparation and installation are key to achieving a natural look and maximizing the lifespan of your human hair weave.

2.1 Hair Preparation

1. **Cleanse Your Natural Hair:** Ensure your natural hair is thoroughly washed, conditioned, and completely dry before installation.
2. **Braid or Cornrow:** Braid your natural hair into cornrows or a flat foundation that lies close to your scalp. This provides a secure base for the weave.
3. **Scalp Care:** Apply a light oil or scalp protector to your scalp to maintain moisture and prevent irritation.

2.2 Weave Installation (General Guidelines)

While specific installation methods vary (sew-in, quick weave, etc.), here are general steps:

- **Track Placement:** Begin sewing or bonding tracks from the nape of your neck, working your way up to the crown. Ensure tracks are laid flat and securely.
- **Blending:** If leaving out some natural hair for blending, ensure it matches the texture and color of the weave as closely as possible.
- **Cutting Wefts:** Minimize cutting wefts to prevent shedding. If cutting is necessary, apply a weft sealant to the cut ends.

3. OPERATING AND STYLING

Your Outre Purple Pack Yaki human hair weave can be styled just like your natural hair. Use heat tools with caution and appropriate heat protectants.

3.1 Daily Styling

- **Detangling:** Gently detangle hair using your fingers or a wide-tooth comb, starting from the ends and working your way up to the roots.
- **Brushing:** For straight styles, brush gently from up to down. Avoid harsh brushing, especially when wet.
- **Product Application:** Use lightweight, non-greasy products designed for human hair extensions. Avoid heavy oils or products that can cause buildup.

3.2 Heat Styling

As this is 100% human hair, it can be heat styled. However, excessive heat can cause damage.

- **Heat Protectant:** Always apply a heat protectant spray before using curling irons, flat irons, or blow dryers.
- **Temperature Control:** Use the lowest effective heat setting.
- **Frequency:** Limit the frequency of heat styling to preserve hair quality.

4. MAINTENANCE AND CARE

Proper maintenance is crucial for extending the life and maintaining the beauty of your Outre human hair weave.

4.1 Washing Instructions

1. **Detangle First:** Gently detangle hair with fingers or a wide-tooth comb before washing.
2. **Mild Shampoo:** Use a mild, sulfate-free shampoo. Mix a small amount with cool water.
3. **Wash Gently:** Immerse the hair in the water and gently swing it to cleanse. Do not rub or scrub vigorously.
4. **Rinse Thoroughly:** Rinse with cool water until all shampoo is removed.
5. **Condition:** Apply a moisturizing conditioner. For deep conditioning, leave it on for 10-15 minutes.
6. **Final Rinse:** Rinse thoroughly with cool water.

4.2 Drying Instructions

- **Blot Excess Water:** Gently blot out excess water with a clean towel. Do not rub or twist.
- **Air Dry:** Allow the hair to air dry naturally. Avoid direct sunlight.
- **Avoid Hair Dryer:** Do not use a hair dryer, as it can cause dryness and tangling. If absolutely necessary, use a cool setting with a diffuser.

4.3 General Care Tips

- **Regular Washing:** Wash and care for the hair regularly, typically twice per week, or as needed based on product usage and activity.
- **Deep Conditioning:** Deep condition the hair extensions once a week to maintain moisture and softness.
- **Sleeping:** Before sleeping, gently detangle the hair. Braid it loosely or wrap it to prevent tangling. Use a silk or satin bonnet or pillowcase.
- **Avoid Fine-Tooth Combs:** Do not use fine-tooth brushes or combs, as they can cause shedding. Use a wide-tooth comb or your fingers.

5. TROUBLESHOOTING COMMON ISSUES

Here are solutions to common issues you might encounter with your human hair weave.

5.1 Tangling

- **Cause:** Lack of moisture, improper detangling, product buildup, friction during sleep.
- **Solution:** Increase deep conditioning frequency. Detangle gently from ends to roots. Use a silk bonnet/pillowcase. Ensure thorough rinsing after washing.

5.2 Shedding

- **Cause:** Excessive brushing, cutting wefts, dry hair, poor quality products.
- **Solution:** Use a wide-tooth comb or fingers for detangling. Apply weft sealant if wefts are cut. Keep hair moisturized. Avoid harsh chemicals.

5.3 Dryness/Frizz

- **Cause:** Over-washing, lack of conditioning, heat damage, harsh products.
- **Solution:** Use moisturizing shampoos and conditioners. Deep condition weekly. Limit heat styling and always use heat protectant.
