

## FINGERS Lil'Clicks

# FINGERS Lil'Clicks Bluetooth Wireless Mini Keyboard User Manual

Model: Lil'Clicks

## 1. INTRODUCTION

---

The FINGERS Lil'Clicks is a versatile mini keyboard designed for seamless connectivity across multiple devices and operating systems. It offers dual connectivity options: Bluetooth and 2.4 GHz Wireless, allowing you to switch between your laptop, tablet, or smartphone effortlessly. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to ensure optimal use of your keyboard.

## 3. SETUP AND CONNECTIVITY

The Lil'Clicks keyboard offers two primary connection methods: Bluetooth and 2.4 GHz Wireless.

### 3.1. Charging the Keyboard

Before initial use, ensure the keyboard is fully charged. Connect the provided Micro USB charging cable to the keyboard's charging port and the other end to a USB power source (e.g., computer USB port, USB wall adapter). The charging indicator light will show the charging status.

### 3.2. 2.4 GHz Wireless Connection

1. Locate the USB Wireless Receiver in the keyboard package.
2. Plug the USB receiver into an available USB port on your computer or device.
3. Turn on the keyboard using the power switch, usually located on the side or back.
4. The keyboard should automatically connect to your device. No additional drivers are typically required.

### 3.3. Bluetooth Connection (Up to 3 Devices)

The Lil'Clicks keyboard can connect to up to three Bluetooth devices simultaneously.

1. Turn on the keyboard using the power switch.
2. Press and hold the **Fn** key and one of the Bluetooth keys (**BT1**, **BT2**, or **BT3**) for 3-5 seconds until the corresponding Bluetooth indicator light starts blinking. This indicates the keyboard is in pairing mode.
3. On your device (laptop, tablet, smartphone), go to Bluetooth settings and enable Bluetooth.
4. Search for available devices. You should see "FINGERS Lil'Clicks" or a similar name appear in the list.
5. Select the keyboard to pair. If prompted, enter the displayed code on the keyboard and press **Enter**.
6. Once paired, the indicator light will stop blinking and remain solid for a few seconds before turning off.
7. To connect another device, repeat steps 2-5 using a different Bluetooth key (BT2 or BT3).

### 3.4. Switching Between Connected Devices

To switch between paired Bluetooth devices or the 2.4 GHz wireless connection:

- For Bluetooth devices: Briefly press the **Fn** key along with the desired Bluetooth key (**BT1**, **BT2**, or **BT3**).
- For 2.4 GHz Wireless: Briefly press the **Fn** key along with the **2.4G** key (if available, otherwise ensure the USB receiver is plugged in and no Bluetooth connection is active).

## 4. OPERATING THE KEYBOARD

### 4.1. Basic Typing

The keyboard features a standard QWERTY layout. Simply type as you would on any other keyboard.

### 4.2. Media Controls

The Lil'Clicks keyboard includes 12 soft-touch media control keys. These functions are typically accessed by pressing the **Fn** key simultaneously with the corresponding function key (F1-F12 or dedicated media keys).

- **Fn + F1-F12:** Access various media functions such as play/pause, volume control, track skipping, and more. Refer to the quick usage guide for specific key mappings.

## Instant Media Access

With 12 soft-touch media controls

## Efficiency at its peak

Gives you 45 days worth of battery life on a single charge

## Sealed, with Love

Fabricated with a membrane-coated sheet beneath the keys

Image 4.1: Close-up view of the keyboard layout, highlighting the media control keys and function row.

### 4.3. Using the Built-in Cradle

The keyboard features a built-in cradle designed to hold most phones and tablets up to 10 mm thick and 265 mm wide. This allows you to position your device at an optimal viewing angle for comfortable typing.

## Comfortable Typing. **Perfect Fit.**

The built-in phone and tablet cradle fits most phones and tablets up to 10 mm thick and 265 mm wide

Image 4.2: The keyboard's integrated cradle holding a smartphone and a tablet for ergonomic viewing.

### 4.4. Operating System Compatibility

The Lil'Clicks keyboard is compatible with a wide range of operating systems:

- Windows
- macOS
- Android
- Linux
- Chrome OS

The keyboard automatically adapts to the connected operating system for optimal functionality. Some function key behaviors may vary slightly depending on the OS.

## 5. MAINTENANCE

---

### 5.1. Cleaning

To clean your keyboard, gently wipe the surface with a soft, damp, lint-free cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the keyboard. The membrane-coated sheet beneath the keys helps protect against dust and minor spills.

## 5.2. Battery Care

The keyboard features a long-lasting battery, providing up to 45 days of usage on a single charge. To prolong battery life:

- Charge the keyboard fully before first use.
- Avoid completely draining the battery frequently.
- If storing the keyboard for an extended period, charge it to about 50% and store in a cool, dry place.

## 5.3. Storage

When not in use, store the keyboard in a clean, dry environment away from extreme temperatures and direct sunlight. Its compact and lightweight design makes it easy to carry and store.

Easy to **carry**

## 6. TROUBLESHOOTING

If you encounter issues with your FINGERS Lil'Clicks keyboard, please refer to the following troubleshooting steps:

### 6.1. Keyboard Not Connecting/Pairing

- **Check Power:** Ensure the keyboard is turned on and has sufficient battery charge.
- **Re-enter Pairing Mode:** For Bluetooth, press and hold **Fn + BT1/BT2/BT3** until the indicator blinks. For 2.4 GHz, ensure the USB receiver is securely plugged in.
- **Device Bluetooth:** Make sure Bluetooth is enabled on your device and it's discoverable.
- **Forget Device (Bluetooth):** If previously paired, try removing/forgetting the keyboard from your device's Bluetooth list and then re-pairing.
- **USB Receiver:** Try plugging the 2.4 GHz USB receiver into a different USB port on your device.
- **Interference:** Move the keyboard closer to your device and away from other wireless devices that might cause interference.

### 6.2. Keys Not Responding or Typing Incorrectly

- **Battery Level:** A low battery can affect key responsiveness. Charge the keyboard fully.
- **Connection Stability:** Ensure a stable connection. If using Bluetooth, try switching to a different Bluetooth channel (BT1, BT2, BT3) or re-pairing. If using 2.4 GHz, ensure the receiver is firmly connected.
- **Interference:** Wireless interference can sometimes cause missed keystrokes. Try moving to a different location or reducing other wireless activity.
- **Clean Keys:** Check for any debris or foreign objects under the keys that might be obstructing their movement.
- **Operating System Mode:** Ensure the keyboard is in the correct operating system mode if there are specific key combinations for OS switching (e.g., Fn + Android/Win/Mac keys).

### 6.3. Battery Not Charging

- **Check Cable:** Ensure the Micro USB charging cable is securely connected to both the keyboard and the power source.
- **Power Source:** Try a different USB power source (e.g., another USB port on your computer, a different wall adapter).
- **Cable Integrity:** Inspect the charging cable for any signs of damage. Try using a different Micro USB cable if available.

## 7. SPECIFICATIONS

Brand	FINGERS
Model	Lil'Clicks
Connectivity	Bluetooth, 2.4 GHz Wireless
Compatibility	Windows, macOS, Android, Linux, Chrome OS
Color	Black
Dimensions (LxWxH)	29 x 16 x 2 cm
