## 5. OPERATING INSTRUCTIONS (How to Play)

### 5.1. Who Am I? Guessing Game

The objective of the guessing game is to be the first player to correctly identify the character chosen by your opponent.

1. **Starting the Game:** Players decide who goes first.
2. **Asking Questions:** On your turn, ask your opponent a yes or no question about their secret character. Examples include: "Does your character wear a hat?" or "Is your character an animal?"
3. **Eliminating Characters:** Based on your opponent's answer, flip down the characters on your board that do not match the description. For example, if the answer is "No, my character does not wear a hat," you would flip down all characters on your board that are wearing hats.
4. **Guessing:** When you believe you know your opponent's secret character, you can make a guess instead of asking a question. If your guess is correct, you win the round. If it is incorrect, you lose the round.
5. **Winning:** The first player to correctly guess their opponent's character wins the game.

### 5.2. Memo Game

The game can also be played as a classic memory game using the character cards.

1. **Setup:** Shuffle all 22 character cards and place them face down in a grid pattern on a flat surface.
2. **Gameplay:** Players take turns flipping over two cards. If the two cards match, the player keeps the pair and takes another turn. If they do not match, the cards are flipped back face down, and the turn passes to the next player.
3. **Winning:** The game ends when all pairs have been found. The player with the most pairs wins.

## 6. MAINTENANCE
