BODEGA TWW95-WF

BODEGACOOLER 100 Quart Portable Car Refrigerator User Manual

Model: TWW95-WF | Brand: BODEGA

1. Setup

1.1 Unpacking and Initial Placement

Carefully unpack your BODEGACOOLER portable car refrigerator. The package includes the car refrigerator unit, a cigarette lighter connector, a wall plug, a wall plug adapter, this user manual, dual zone baskets, a USB socket, and a bottle opener.

Before initial use, ensure the unit remains stationary and upright for at least 6 hours to allow the compressor fluids to settle. This is crucial for optimal performance and longevity.

Image: BODEGACOOLER 100 Quart Portable Car Refrigerator showing its dimensions and fit in a vehicle trunk. Ensure adequate space and ventilation around the unit.

When placing the refrigerator in your vehicle or any other location, ensure there is sufficient ventilation space around the unit for proper heat dissipation. Avoid obstructing the air vents.

1.2 Power Connection

The BODEGACOOLER supports multiple power input options for versatile use:

- **12V/24V DC:** Connect using the provided cigarette lighter connector for use in vehicles (cars, RVs, trucks).
- **100-240V AC:** Connect using the provided wall plug and adapter for household or standard power outlets.
- **Solar Input:** The unit features a dedicated solar input for connection to compatible solar panels (sold separately) for off-grid power.

Image: Illustration of various power supply modes including 12V/24V DC for vehicles, power station & solar panel, and wall socket.

For optimal performance, especially when storing frozen items, it is recommended to pre-cool the refrigerator before loading it with contents. This can take approximately 30 minutes to reach a stable cool temperature.

Video: Demonstrates the initial setup and power connection of the BODEGACOOLER portable car refrigerator, including the recommendation to let it sit for 6 hours before plugging in.

2. Operating Instructions

2.1 Dual Zone Temperature Control

The BODEGACOOLER features independent dual-zone temperature control, allowing you to set different temperatures for the left (60 quart) and right (40 quart) compartments. This enables simultaneous refrigeration and freezing.

Image: The dual-zone compartments of the BODEGACOOLER, illustrating how different items like fruits, drinks, and frozen goods can be stored simultaneously at their optimal temperatures.

The temperature range for both zones is from -4℉ (-20℃) to 68℉ (20℃).

2.2 Control Panel and APP Control

The refrigerator is equipped with an intelligent touch control panel for direct temperature adjustments and mode selection. Additionally, it supports WiFi APP control for convenient remote management via your Android or iOS device.

Image: Close-up of the touch control panel and a smartphone displaying the WiFi APP control interface, allowing users to monitor and adjust settings remotely.

Use the '+' and '-' buttons on the control panel to adjust the desired temperature for each zone. Press the settings button to switch between zones or modes. The APP allows you to monitor real-time temperature and voltage, and adjust settings without physically interacting with the unit.

Video: Demonstrates the functionality of the touch control panel and the mobile application for managing the refrigerator's settings, including temperature adjustment and mode selection.

2.3 Cooling Modes and Battery Protection

Select between MAX and ECO cooling modes. MAX mode provides powerful and fast cooling, capable of reaching 32℉ (0℃) in approximately 15 minutes when empty. ECO mode optimizes energy consumption for longer battery life.

Image: Graph illustrating the powerful compressor cooling performance in MAX mode, showing temperature drop to 32°F (0°C) within 15 minutes.

The unit features a battery protection system with H/M/L (High/Medium/Low) levels. This system corresponds to different startup and shutdown voltages, preventing your vehicle's battery from draining completely.

2.4 Additional Features

- **USB Socket:** A built-in USB socket allows you to charge small electronic devices.
- **LED Light:** The interior features an LED light for easy visibility of contents, especially in low-light conditions.
- **Low Noise Operation:** The BODEGACOOLER is designed for quiet operation, typically below 45 dB, ensuring a comfortable environment.

3. Maintenance

3.1 Cleaning and Storage

To clean the interior of the refrigerator, simply remove the contents and use the bottom drain hole to easily empty any liquids or melted ice. Wipe down the interior with a damp cloth and mild detergent. Ensure the unit is dry before closing the lids or storing.

Image: Close-up view of the removable door feature, which aids in cleaning and accessing the interior compartments.

The unit comes with removable baskets for easy organization and cleaning. The door covers are also removable and support reverse installation, offering flexibility in how you access the compartments.

4. Troubleshooting

If you encounter any issues with your BODEGACOOLER portable car refrigerator, please refer to the following common troubleshooting tips:

- **Unit Not Turning On:** Check all power connections (DC, AC, or solar) to ensure they are secure. Verify the power source is active and providing adequate voltage.
- **Insufficient Cooling:** Ensure the unit has been pre-cooled before loading. Check that the selected temperature is appropriate for the contents. Verify that vents are not blocked and there is sufficient airflow around the unit.
- **Unusual Noise:** While designed for low noise, excessive noise might indicate an issue. Ensure the unit is on a stable, flat surface. Check for any obstructions around the fan or compressor area.
- **Error Codes:** If an error code appears on the display, consult the detailed user manual (PDF version available via Amazon product page) for specific code meanings and resolutions.

For persistent issues or advanced troubleshooting, please contact BODEGACOOLER customer support.

5. Specifications

Feature	Detail
Brand	BODEGA
Model Number	TWW95-WF
Capacity	100 Quarts (95L) - Dual Zone (60 Quart Left, 40 Quart Right)

Temperature Range	-4℉ (-20℃) to 68℉ (20℃)
Power Input	12V/24V DC, 100-240V AC, Solar Input
Dimensions (D x W x H)	22.48"D x 18.3"W x 39.56"H
Item Weight	70.4 pounds (32 Kilograms)
Special Features	APP control (Android/iOS), Dual Zone independent control, Wheels, Retractable handle, Inside LED Light, Battery Protection (H/M/L), 2 Detachable Doors, Bottle Opener
Included Components	Car refrigerator, cigarette lighter connector, wall plug, wall plug adapter, user manual, dual zone basket, USB socket, bottle opener

6. Warranty and Support

BODEGACOOLER offers a **5-year lifespan warranty on the compressor** and a **1-year warranty on all other parts** of your portable car refrigerator.

For any technical support or warranty claims, please contact the professional technical support team via Amazon. They aim to respond within 24 hours to ensure a satisfactory experience.

For additional resources, you may refer to the official BODEGACOOLER store on Amazon:BODEGA Store.
