

## ARIFAYZ Q3

# ARIFAYZ Q3 Dash Cam User Manual

Model: Q3 | Brand: ARIFAYZ

## 1. INTRODUCTION

Welcome to your ARIFAYZ Q3 Dash Cam user manual. This guide provides detailed instructions to help you set up, operate, and maintain your dash cam for optimal performance and safety on the road. The ARIFAYZ Q3 Dash Cam records in crystal-clear FHD 1080P, features built-in WiFi for easy app control, offers 24-hour parking mode, G-sensor for emergency locking, and seamless loop recording.

## 2. PACKAGE CONTENTS

Please verify that all items listed below are included in your package:

- ARIFAYZ Q3 Dash Cam with Adhesive Mount
- 11.5ft Mini USB Car Charger Cable
- Adhesive Pad and Electrostatic Films
- Car Wiring Trim Tool and Cable Hiding Clips
- User Manual and Registration Card

Q3 Dash Cam

Cigarette Lighter Power Cord

Car Wiring Trim Tool

Adhesive Pad

Electrostatic Film

Cable Hiding Clips

User Manual

Registration Card

### 3. PRODUCT OVERVIEW

The ARIFAYZ Q3 Dash Cam is designed to be compact and discreet, ensuring it doesn't obstruct your view while driving. It features a high-resolution lens and a clear display for essential information.

Figure 3.1: The ARIFAYZ Q3 Dash Cam with its compact form factor.

The dash cam's mount features a 360-degree rotatable bracket, allowing for easy adjustment to capture the ideal recording angle. Its detachable design also ensures easy portability and swift installation.

## Continuous Loop Recording

Loop recording at intervals of 1/2/3/5 minutes, with older videos automatically overwritten when the card is full.

## 4. SETUP

### 4.1 Initial Setup

1. **Insert SD Card:** The ARIFAYZ Q3 Dash Cam supports up to 128GB memory cards. For smooth recording, a PNY Class 10, U3 Speed Micro-SD card is recommended. Insert the card into the designated slot on the dash cam.
2. **Format SD Card:** When the memory card is inserted for the first time, it requires formatting via the companion app. This ensures proper functionality and data storage.
3. **Connect via WiFi & App:** Download the Peztio APP for Android or iOS. Connect your smartphone to the dash cam's built-in 2.4G WiFi network (named 'Pezio-Q3-XXXXXX'). The default password is '12345678'. Once connected, you can access live stream, download videos, and change settings directly from the app.

## 4.2 Installation

The ARIFAYZ Q3 Dash Cam is designed for simple windshield installation. Follow these steps for secure mounting:

1. **Choose Location:** Select a spot on your windshield that does not obstruct your driving view, typically behind the rearview mirror.

2. **Clean Surface:** Ensure the windshield surface is clean and dry before applying the electrostatic film and adhesive pad.
3. **Apply Electrostatic Film:** Place the electrostatic film on the chosen area of the windshield. This helps prevent adhesive residue when removing the mount.
4. **Attach Adhesive Mount:** Remove the protective film from the adhesive pad on the dash cam mount and firmly press it onto the electrostatic film.
5. **Route Power Cable:** Use the included car wiring trim tool and cable hiding clips to neatly route the 11.5ft Mini USB car charger cable along the edge of your windshield and dashboard to your car's cigarette lighter port.

### Detachable Design

The detachable design ensures easy portability and swift installation.

### 360° Rotatable Bracket

Rotates 360 degrees for easy adjustment to the ideal recording angle.

## 5. OPERATING INSTRUCTIONS

### 5.1 Recording Modes

- **Loop Recording:** When the storage limit on the memory card is reached, new footage will automatically overwrite the oldest recordings. This ensures continuous recording without manual intervention. You can set the file length to 1, 2, or 3 minutes via the app settings.
- **G-Sensor (Emergency Lock):** The built-in G-sensor automatically detects sudden shakes or collisions. When triggered, it locks the current footage to prevent it from being overwritten during loop recording, providing vital evidence in case of an incident.
- **24 Hours Parking Mode:** For continuous protection while your car is parked, the dash cam can automatically switch to parking mode. Collision detection can be triggered by impact, and time-lapse recording keeps recording continuously with low power consumption. *Note: A Mini USB hardwire kit (ASIN: B0BFFGCMDZ) is required for this feature and is not included.*

## 5.2 WiFi & App Control

The integrated 2.4G WiFi allows for seamless connection to the Peztio APP on your Android or iOS smartphone. Through the app, you can:

- View live video stream from the dash cam.

- Download recorded videos and photos directly to your phone.
- Adjust dash cam settings (e.g., video resolution, loop recording duration, G-sensor sensitivity).
- Easily edit and share your footage to social media platforms.

## 5.3 Voice Prompts

The dash cam provides helpful voice broadcasts to keep you informed about its current status and operations. Examples include notifications for starting/stopping recording, SD card status, and G-sensor activation.

Figure 5.2: Voice prompts provide real-time status updates.

## 6. MAINTENANCE

### 6.1 SD Card Management

- Regularly format your SD card (at least once a month) through the Peztio APP to ensure optimal performance and prevent data corruption.
- Use a high-quality, high-speed (Class 10, U3) Micro-SD card from a reputable brand to avoid recording issues.

### 6.2 Cleaning

- Gently wipe the camera lens with a soft, lint-free cloth to remove dust or smudges. Avoid using abrasive materials or harsh chemicals.
- Clean the dash cam body with a dry or slightly damp cloth. Ensure no liquid enters the device.

## 7. TROUBLESHOOTING

If you encounter any issues with your ARIFAYZ Q3 Dash Cam, please refer to the following common problems and solutions:

- **Dash Cam Not Recording:** Ensure an SD card is properly inserted and formatted. Check if the power cable is securely connected and receiving power.
- **App Connection Issues:** Verify your phone's WiFi is enabled and connected to the dash cam's network.

Ensure the correct WiFi password is entered. Try restarting both the dash cam and your phone.

- **Poor Video Quality:** Clean the camera lens. Ensure you are using a high-speed (Class 10, U3) SD card. Check app settings for video resolution and adjust if necessary.
- **Dash Cam Freezes/Crashes:** Try restarting the device. If the issue persists, format the SD card.
