Amazon Basics Manchester Door Lever - Passage - Matte Black, 6-Pack

User Manual

INTRODUCTION

Thank you for choosing the Amazon Basics Manchester Door Lever. This passage door lever is designed for interior doors where no locking mechanism is required, such as hallways or closet doors. It features a sleek matte black finish and durable construction, providing both functionality and modern aesthetic to your home. This manual provides detailed instructions for installation, operation, and maintenance to ensure optimal performance and longevity of your door lever.

FEATURES

- **Easy Installation:** Designed for straightforward installation using a standard Phillips head screwdriver.
- **Reversible Design:** The lever is fully reversible, allowing installation on both right-handed and left-handed doors.
- **Adjustable Fit:** Accommodates all doors 1-3/8" to 1-3/4" in thickness.
- **Versatile Latch:** Features a 6-way adjustable latch to fit either 2-3/8" or 2-3/4" backsets.

- **Certified Security:** Certified Grade-3 Security by ANSI/BHMA, ensuring durability and performance.

PACKAGE CONTENTS

Before beginning installation, please verify that all components are present:

- Door Lever Assembly (Interior and Exterior)
- Latch Mechanism
- Strike Plate
- Screws Pack (various sizes for assembly)
- Installation Template (if applicable)

Image: All components included in the Amazon Basics Manchester Door Lever package, laid out for inspection.

SETUP AND INSTALLATION

Installation of the Amazon Basics Manchester Door Lever is designed to be straightforward. A standard Phillips head screwdriver is typically the only tool required. For detailed, step-by-step instructions, please refer to the official user manual PDF provided with your product or available online. Key steps include:

1. **Prepare the Door:** Ensure your door has the correct bore holes and backset. This lever fits doors 1-3/8" to 1-3/4" thick.
2. **Adjust Latch (if necessary):** The 6-way adjustable latch can be set for 2-3/8" or 2-3/4" backsets. Adjust by twisting the faceplate if needed.
3. **Install Latch:** Insert the latch into the door edge and secure it with screws.
4. **Install Exterior Lever:** Place the exterior lever assembly through the door, ensuring the spindle aligns with the latch mechanism.
5. **Install Interior Lever:** Attach the interior lever assembly, aligning it with the exterior portion and securing with the provided screws.
6. **Install Strike Plate:** Attach the strike plate to the door frame, ensuring proper alignment with the latch.
7. **Test Operation:** Verify smooth operation of the lever and latch.

OPERATING INSTRUCTIONS

The Amazon Basics Manchester Passage Door Lever operates simply:

- To open the door, press the lever handle downwards. This retracts the latch bolt, allowing the door to open.
- To close the door, simply push the door shut. The latch bolt will automatically engage with the strike plate on the door frame, holding the door closed.

As a passage lever, this model does not include a locking mechanism. It is intended for use on doors that do not require privacy or security, such as hallway doors, closet doors, or laundry room doors.

MAINTENANCE

To ensure the longevity and appearance of your Amazon Basics Manchester Door Lever, follow these simple maintenance

guidelines:

- **Cleaning:** Wipe the surface regularly with a soft, damp cloth. Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the matte black finish.
- **Lubrication:** If the lever action becomes stiff over time, apply a small amount of silicone-based lubricant to the latch mechanism and the moving parts within the lever assembly. Do not use oil-based lubricants, as they can attract dust and debris.
- **Tightening Screws:** Periodically check and tighten any loose mounting screws to ensure the lever remains securely attached to the door.

TROUBLESHOOTING

If you encounter any issues with your door lever, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Lever is stiff or hard to turn.	Lack of lubrication; internal mechanism obstruction.	Apply silicone-based lubricant to the latch and lever mechanism. Check for any debris obstructing movement.
Door does not close properly or latch engages incorrectly.	Misaligned strike plate; loose latch mechanism; incorrect backset.	Adjust the strike plate position. Ensure the latch mechanism is securely tightened. Verify the correct backset (2-3/8" or 2-3/4") is set.
Lever feels loose on the door.	Loose mounting screws.	Tighten all visible mounting screws on both sides of the lever assembly.

SPECIFICATIONS

Attribute	Detail
Brand	Amazon Basics
Model Number	TLM4982
Material	Alloy Steel, Bronze, Zinc
Color	Matte Black
Product Dimensions	4.09"L x 2.55"W
Door Thickness Compatibility	1-3/8" to 1-3/4"
