## Ganiza Z200

# GANIZA 4L Cool Mist Humidifier Model Z200 User Manual

Model: Z200

## INTRODUCTION

Thank you for choosing the GANIZA 4L Cool Mist Humidifier. This ultrasonic humidifier is designed to provide optimal humidity levels in your home, promoting a comfortable environment. Please read this manual thoroughly before use to ensure proper operation and maintenance.

## IMPORTANT SAFETY INSTRUCTIONS

- Always place the humidifier on a firm, flat, water-resistant surface.
- Do not place the humidifier near heat sources such as stoves, radiators, or direct sunlight.
- Keep the humidifier out of reach of children and pets.
- **DO NOT add essential oils or any other additives directly into the water tank.** This can damage the unit and void the warranty.
- Unplug the humidifier from the power outlet before filling, cleaning, or moving it.
- Do not immerse the base unit in water or other liquids.
- Ensure the mist outlet is not blocked.
- Do not leave standing water in the unit when not in use for extended periods.

## PACKAGE CONTENTS

- GANIZA 4L Cool Mist Humidifier (Base and Water Tank)
- User Manual
- Cleaning Brush
- Spare Filter Sponge (for essential oil diffusion, use only with the provided sponge, not directly in water tank)

## PRODUCT OVERVIEW

Familiarize yourself with the components of your humidifier:

# Nano Waterproof, Cleaning is Easier

Figure 3: Top-fill design with wide opening and visible water level

## SETUP

1. **Unpack:** Carefully remove all packaging materials and place the humidifier on a flat, stable surface.
2. **Separate Components:** Lift the water tank from the base unit using the integrated handle.
3. **Fill Water Tank:** Unscrew the cap at the bottom of the water tank. Fill the tank with clean, cool tap water. Do not overfill. The visible water level window on the side helps monitor the water level.
4. **Secure Cap:** Screw the cap back onto the water tank tightly to prevent leaks.
5. **Place Tank on Base:** Carefully place the filled water tank back onto the base unit, ensuring it is seated correctly.
6. **Connect Power:** Plug the 2-prong power cord into a standard electrical outlet.

Video: Demonstrates the setup and basic operation of the Ganiza cool mist humidifier, including filling the water tank and adjusting mist output.

## OPERATION

1. **Turn On/Off:** Rotate the control knob clockwise from the "OFF" position to turn the humidifier on. Continue rotating to increase the mist output. Rotate counter-clockwise to decrease mist output and turn off the unit.
2. **Adjust Mist Output:** The control knob allows for variable mist output, from minimum to maximum (up to 300ml/h). Adjust to your desired humidity level.
3. **Direct Mist:** The 360° rotating nozzle on top of the water tank allows you to direct the mist in any desired direction.
4. **Quiet Operation:** The humidifier operates at a noise level below 22dB, making it suitable for bedrooms, nurseries, and offices.
5. **Long Runtime:** With its 4L (1-gallon) water tank, the humidifier can run for up to 50 hours on a low setting without frequent refills.
6. **Automatic Shut-off:** The unit will automatically shut off when the water level is too low, ensuring safety.

## MAINTENANCE

Regular cleaning is essential to prevent mineral buildup and ensure optimal performance. It is recommended to clean the humidifier weekly.

1. **Power Off and Unplug:** Always turn off the humidifier and unplug it from the power outlet before cleaning.
2. **Empty Water:** Remove the water tank from the base. Drain any remaining water from both the tank and the base unit.
3. **Clean Water Tank:** Unscrew the cap at the bottom of the water tank. Fill the tank halfway with water and add 1 teaspoon of white vinegar for scale removal or 1/2 teaspoon of bleach solution for disinfection. Shake the tank gently for 15 seconds. Let it sit for 15-20 minutes.
4. **Drain and Rinse:** Drain the cleaning solution from the tank and rinse it thoroughly with clean water until the smell of vinegar/bleach is gone.
5. **Clean Base Unit:** Use the provided cleaning brush to gently scrub any mineral deposits or debris from the nebulizer and other internal components of the base unit. Wipe the base clean with a soft cloth. Ensure no water enters the air outlet.
6. **Dry Components:** Allow all parts to air dry completely before reassembling.
7. **Refill for Use:** Once dry, reassemble the humidifier and refill the water tank with fresh water for continued use.
