KSADBOSSBO Body Camera

KSADBOSSBO Body Camera User Manual

Models with 128GB and 32GB Built-in Storage

1. INTRODUCTION

Thank you for choosing the KSADBOSSBO Body Camera. This manual provides essential information for the proper setup, operation, maintenance, and troubleshooting of your device. Please read this manual thoroughly before using the camera to ensure optimal performance and longevity.

2. PRODUCT OVERVIEW

The KSADBOSSBO Body Camera is a compact and versatile recording device designed for various applications, including personal security, outdoor sports, and law enforcement. It features a 360-degree rotatable clip for flexible mounting and a simple one-button operation.

Figure 2.1: KSADBOSSBO Body Camera with a 128GB memory card. This image shows the compact design of the camera and its included storage.

Key Features:

- **High-Definition Recording:** Captures clear 1080P video at 30 frames per second (fps).
- **Wide-Angle Lens:** Features a 90-degree lens for a broad field of view.
- **Enhanced Night Vision:** Equipped with 4 high-intensity infrared LEDs, providing night vision up to 15 feet in complete darkness.
- **Built-in Memory:** Available with either 128GB or 32GB internal storage, eliminating the need for additional memory cards.
- **Loop Recording:** Automatically overwrites the oldest video files when the memory capacity is nearly full, ensuring continuous recording.
- **Long Battery Life:** Built-in 800mAh rechargeable battery provides approximately 4 hours of continuous recording and up to 6 hours of standby time. The camera can record while charging.
- **Versatile Mounting:** Includes a 360-degree rotatable clip for attachment to clothing, bikes, or other surfaces.

90° Large View Angle

Over 6 Hours Battery Life

128GB could record > 10 hours support video record and audio record(one-button start)

Figure 2.2: The camera offers a 90-degree wide view angle and extended battery life, indicated by the battery icon.

Build-in 128GB memory card

Feel confident to capture, store and transfer. Your memories are irreplaceable, and now unforgettable.

Figure 2.3: The camera features a built-in 128GB memory card for ample storage, demonstrated here attached to a stroller.

Figure 2.4: The camera offers over 6 hours of battery life and supports loop recording with its 32GB storage, shown here attached to a dog's collar.

3. PACKAGE CONTENTS

Please check the package for the following items:

- KSADBOSSBO Body Camera (128GB or 32GB model)
- USB Charging Cable
- Mounting Strap
- Reset Pin
- User Manual (this document)

Figure 3.1: All items included in the KSADBOSSBO Body Camera package.

4. SETUP

4.1 Charging the Camera

Before first use, fully charge the camera. Connect the camera to a USB power source (e.g., computer USB port, wall adapter, or power bank) using the provided USB cable. The charging indicator light will show the charging status (refer to the camera's LED indicator guide for specific light patterns).

4.2 Powering On/Off

The camera is controlled by a single button. To power on or off, **long press** the main button until the indicator light changes (refer to the camera's LED indicator guide for specific light patterns).

4.3 Wearing the Camera

The camera features a 360-degree rotatable clip for flexible attachment. You can clip it onto your collar, pocket, or use the included strap to secure it to your arm or other objects.

STANDBY MODE**

ONE-PRESS OPERATION

Figure 5.1: Easy record operation with single button control.

5.1 Starting/Stopping Recording

After powering on the camera, press the main button **once** to start recording. Press it **once again** to stop recording and enter standby mode.

START RECORD ANYTIME
1920x1080P@30FPS

BODY CAMERA / LAW ENFORCEMENT RECORDER / SPORT CAMERA

BRING YOUR LIFE CONVENIENCE AND EASY RECORDING
(BATTERY LIFE > 6 HOURS)

Figure 5.2: The camera can start recording anytime at 1080P 30FPS.

5.2 Activating Night Vision

While in standby mode, press the main button **twice** quickly to activate or deactivate night vision mode. The infrared LEDs will illuminate when night vision is active.

5.3 Loop Recording Function

The camera supports loop recording. When the built-in memory (128GB or 32GB) is nearly full (less than 400MB remaining), the camera will automatically delete the oldest video files to make space for new recordings. This ensures continuous operation without manual intervention.

6. MAINTENANCE

6.1 Cleaning

Wipe the camera body with a soft, dry cloth. For the lens, use a specialized lens cleaning cloth to avoid scratches. Do not use harsh chemicals or abrasive cleaners.

6.2 Storage

Store the camera in a cool, dry place away from direct sunlight and extreme temperatures. If storing for an extended period, ensure the battery is partially charged (around 50%) to preserve battery health.

6.3 Battery Care

The camera has a built-in 800mAh rechargeable battery. To maximize battery life, avoid fully discharging the battery frequently. You can record videos while the camera is connected to a power source.

7. TROUBLESHOOTING

- **Camera not turning on:** Ensure the battery is charged. Connect to a power source and try again. If the issue persists, use the reset pin to press the reset button (usually a small hole on the device).
- **Recording issues:** Check if the memory is full (though loop recording should prevent this). Ensure the camera is fully charged.
- **Poor video quality:** Ensure the lens is clean and free from smudges. Record in well-lit conditions if night vision is not active.
- **Camera unresponsive:** Use the reset pin to restart the device.

8. SPECIFICATIONS

Video Capture Resolution	1080p
Frame Rate	30 fps
Lens Angle	90 degrees
Night Vision Distance	Up to 15 feet (with 4 IR LEDs)
Built-in Memory	128GB or 32GB
