

Xtorm XB401

Xtorm XB401 Powerbank User Manual

Model: XB401 | Brand: Xtorm

1. INTRODUCTION

Welcome to the user manual for your Xtorm XB401 Powerbank. This guide provides essential information on how to set up, operate, maintain, and troubleshoot your device. Please read this manual carefully before using the power bank to ensure optimal performance and safety.

2. SAFETY INFORMATION

To prevent damage to the device or injury to yourself or others, observe the following safety precautions:

- Do not expose the power bank to water, moisture, or extreme temperatures.
- Avoid dropping, hitting, or disassembling the device.
- Keep away from direct sunlight, heat sources, and open flames.
- Do not attempt to repair or modify the power bank yourself. Refer all servicing to qualified personnel.
- Use only original or certified cables and adapters for charging the power bank and connected devices.
- Dispose of the power bank responsibly according to local regulations.

3. PRODUCT OVERVIEW

The Xtorm XB401 Powerbank is a high-capacity portable charger designed to keep your devices powered on the go. It features multiple output ports and a built-in cable for convenience.

UNIVERSAL COMPATIBILITY

Works with all portable USB-C™ devices with input up to 60W.

POWERFUL
USB-C OUTPUT

AUTO POWER
MANAGEMENT

60W SINGLE
OUTPUT

*Charging some Apple and Android devices requires a different charging cable than the included USB-C cable.

**Based on average models when not in use.

4. FEATURES

- **High Capacity:** 24000mAh Li-Ion battery for extended power.
- **Powerful Output:** Total 90W output, with 60W via USB-C PD (Power Delivery) and 30W via other ports.
- **Built-in USB-C Cable:** Integrated 60W USB-C PD cable for convenient charging and recharging.
- **Digital Power Indicator:** LED display shows remaining battery level.
- **Multi-Device Charging:** Capable of charging up to 3 devices simultaneously.
- **Universal Compatibility:** Works with laptops, tablets, and smartphones.
- **Recycled Materials:** Constructed with recycled ABS for reduced environmental impact.

5. SETUP

Before first use, it is recommended to fully charge your Xtorm XB401 Powerbank. This ensures the battery is calibrated and ready for optimal performance.

1. Unpack the power bank and any included accessories.

2. Connect the power bank to a suitable power source using the built-in USB-C cable or another compatible USB-C cable.
3. Allow the power bank to charge until the digital display indicates 100%.

6. CHARGING THE POWER BANK

To recharge your Xtorm XB401 Powerbank:

1. Locate the USB-C input port on the power bank.
2. Connect the built-in USB-C cable or a separate USB-C to USB-C cable to the input port.
3. Connect the other end of the cable to a USB-C wall charger (60W PD recommended for fastest charging).
4. The digital display will show the charging progress. The power bank can be fully recharged within approximately 2 hours with a 60W USB-C PD adapter.

7. OPERATING

Using your Xtorm XB401 Powerbank to charge your devices is straightforward:

1. **Check Battery Level:** Press the power button once to view the current battery percentage on the digital display.
2. **Connect Device:** Use the built-in USB-C cable or one of the other USB-C output ports to connect your device.
3. **Start Charging:** The power bank will automatically detect and begin charging your connected device.
4. **Charge Multiple Devices:** You can connect up to three devices simultaneously to charge them at the same time.

BUILT-IN CHARGING CABLE

Always have a 60W USB-C™ PD cable at hand for charging and recharging.

8. MAINTENANCE

Proper care and maintenance will extend the lifespan of your power bank:

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use harsh chemicals or abrasive materials.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Regular Use:** If not used for extended periods, charge the power bank at least once every three months to maintain battery health.

9. TROUBLESHOOTING

If you encounter issues with your Xtorm XB401 Powerbank, refer to the following table for common problems and solutions:

Problem	Solution
Power bank not charging	Ensure the charging cable is securely connected to both the power bank and the wall adapter. Try a different cable or wall adapter. Verify the wall adapter provides sufficient power (e.g., 60W PD).
Device not charging from power bank	Ensure the power bank has sufficient charge. Check if the cable connecting the device to the power bank is working correctly. Try a different output port on the power bank.
Digital display not working	Press the power button to activate the display. If it remains off, the battery might be completely depleted or there could be a fault. Try charging the power bank.
Power bank gets hot during use/charging	It is normal for the power bank to warm up during charging or heavy use. If it becomes excessively hot, disconnect it immediately and allow it to cool down. Ensure proper ventilation.

10. SPECIFICATIONS

Detailed technical specifications for the Xtorm XB401 Powerbank:

Parameter	Value
Brand	Xtorm
Model Number	XB401
Battery Capacity	24000mAh (88.8Wh)
Battery Cell Composition	Lithium Ion
Total Output Power	90W
USB-C PD Output (Port 1)	60W
Other USB-C Outputs	30W (combined)
Voltage	5 Volts
Product Dimensions	50 x 50 x 28 cm
Item Weight	784 Grams
Special Features	Fast Charging, Portable, LED Indicator Lights, Built-in Cable
Compatible Models	Laptop, Tablet, Smartphone
Date First Available	7 Aug. 2022
