4. SETUP

4.1 Connecting the Headset

The Mytrix Sakura headset uses a standard 3.5mm audio jack for audio and microphone input. It is compatible with various devices, including PS4, PS5, Nintendo Switch, PC, laptops, and mobile devices.

1. **For devices with a single 3.5mm audio jack (combined audio/mic):** Plug the headset's 3.5mm jack directly into your device's audio port.
2. **For devices with separate audio and microphone ports (e.g., some PCs):** Use the included Y-splitter cable. Connect the headset's 3.5mm jack to the Y-splitter, then plug the green connector of the Y-splitter into your device's audio output port and the pink connector into the microphone input port.

4.2 Enabling RGB Illumination

To activate the RGB gradient light effect on the earcups, connect the headset's USB plug to any available USB port on your device (PC, console, or USB power adapter). The RGB lighting functions independently of the 3.5mm audio connection.

Video: This 7-second clip showcases the RGB gradient light effect on the headset's earcups, demonstrating the dynamic color cycling.

5. OPERATION

5.1 Adjusting the Headset for Comfort

The headband is adjustable to fit various head sizes. Gently slide the earcups up or down along the headband until you achieve a comfortable and secure fit. The soft foam earmuffs are designed for prolonged use.

5.2 Using the Microphone

The headset features a 360° rotatable microphone with noise-canceling capabilities for clear voice communication.

- **Positioning:** Rotate the microphone boom to your desired position. For optimal voice clarity, position the microphone close to your mouth.
- **Mute Switch:** The in-line control unit includes a mute switch. Slide the switch to the 'ON' position to enable the microphone and to the 'OFF' position to mute it.

5.3 Volume Control

Adjust the audio volume using the volume dial located on the in-line control unit. Rotate the dial up to increase volume and down to decrease it.

6. MAINTENANCE

To ensure the longevity of your Myrix Sakura headset, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the headset. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the headset in a cool, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid sharp bends or excessive pulling on the cables to prevent damage.
- **Water Resistance:** The headset is **not water-resistant**. Avoid exposure to liquids.

7. TROUBLESHOOTING

If you encounter issues with your headset, refer to the following common solutions:

Problem	Solution
No audio or low volume	Ensure the 3.5mm audio jack is fully inserted into the device. Check the in-line volume dial and increase the volume. Verify device audio settings and volume levels. If using the Y-splitter, ensure it is correctly connected to the audio output port.

Problem	Solution
Microphone not working	<p>Ensure the microphone mute switch on the in-line control is in the 'ON' position.</p> <p>Check device microphone settings and ensure the headset is selected as the input device.</p> <p>If using the Y-splitter, ensure it is correctly connected to the microphone input port.</p>
RGB lights not working	<p>Ensure the USB cable is securely connected to a powered USB port.</p> <p>Try a different USB port or power source.</p>
