Soundcore VR P10

Soundcore VR P10 Gaming Earbuds User Manual

Model: VR P10

Your comprehensive guide to setup, operation, and maintenance.

Introduction

The Soundcore VR P10 Gaming Earbuds are designed to provide a low-latency, high-quality audio experience for gaming across multiple platforms. Officially co-branded with Meta, these earbuds offer seamless integration with Meta Quest 2, alongside compatibility with Steam Deck, PS4, PS5, PC, and Switch via the included 2.4GHz USB-C dongle. Featuring dual connection capabilities, you can simultaneously connect to your gaming device and a mobile phone, ensuring you never miss a call during gameplay. The earbuds are equipped with 11mm drivers and BassUp technology for immersive sound.

Setup

Follow these steps to set up your Soundcore VR P10 Gaming Earbuds for optimal performance.

1. **Charging:** Before first use, ensure both earbuds and the charging case are fully charged. Place the earbuds into the charging case. Connect the charging case to a power source using a USB-C cable. The LED indicators will show charging status.
2. **Dongle Connection:** For ultra-low latency gaming, insert the included USB-C dongle into the compatible port of your gaming device (e.g., Meta Quest 2, Steam Deck, PS5, PC, Switch). The dongle will automatically pair with the earbuds when they are taken out of the case.
3. **Meta Quest 2 Integration:** The VR P10 earbuds are authorized by Meta for Meta Quest 2. Simply plug the USB-C dongle into your Meta Quest 2 headset. The pass-through charging function allows you to recharge your Meta Quest 2 via the dongle while playing, provided you use a charger that supports USB Power Delivery and a minimum 9V/2A output.
4. **Bluetooth Pairing (Optional):** For dual connection with a mobile device, enable Bluetooth on your phone and select "Soundcore VR P10" from the available devices. This allows you to receive calls without interrupting your game.

Operating Instructions

Understand the key features and how to operate your Soundcore VR P10 Gaming Earbuds.

- **Ultra-Low Latency Gaming:** The LightningSync wireless technology, utilizing a 2.4GHz high-speed wireless connection and a custom chipset, ensures audio latency under 30ms for a synchronized gaming experience.
- **Dual Connection:** With the USB-C dongle connected to your gaming device and Bluetooth connected to your phone, you can seamlessly switch between game audio and incoming calls. Answer calls directly from your phone without pausing gameplay.
- **Multi-Platform Compatibility:** The USB-C dongle allows for plug-and-play connectivity with Meta Quest 2, Steam Deck, PICO 4, PS4, PS5, PC, and Switch. For switching between platforms, additional dongles can be purchased and managed via the Soundcore app.

- **Immersive Audio:** The 11mm drivers deliver powerful sound, enhanced by Soundcore's exclusive BassUp technology, providing deep bass and clear audio for an immersive gaming experience.

Maintenance

Proper care will extend the life and performance of your Soundcore VR P10 Gaming Earbuds.

- **Cleaning:** Regularly clean the earbuds, especially the ear tips and charging contacts, with a soft, dry, lint-free cloth. Do not use harsh chemicals or abrasive materials.
- **Storage:** When not in use, always store the earbuds in their charging case to protect them from dust and damage. Store in a cool, dry place away from extreme temperatures.
- **Battery Care:** To maintain battery health, avoid fully discharging the earbuds or charging case frequently. Charge them regularly, even if not in constant use.

Troubleshooting

If you encounter issues with your Soundcore VR P10 Gaming Earbuds, refer to the following common solutions.

Problem	Solution
No audio from earbuds.	• Ensure earbuds are charged and properly seated in your ears. • Verify the USB-C dongle is securely connected to your gaming device. • Check if the correct audio output device is selected on your gaming console/PC. • If using Bluetooth, ensure earbuds are paired and connected to your phone.
High latency or audio delay.	• Ensure you are using the 2.4GHz USB-C dongle for gaming, not Bluetooth. • Reduce interference by moving away from other wireless devices. • Ensure the dongle is connected directly to the device, not through a hub.
Earbuds not pairing with dongle.	• Place earbuds back into the charging case, close the lid, wait a few seconds, then open and remove them. • Ensure the dongle is firmly inserted into the device's USB-C port. • Try resetting the earbuds (refer to the full product manual for specific reset instructions if needed).
Pass-through charging not working for Meta Quest 2.	• Ensure your charger supports USB Power Delivery and provides a minimum of 9V/2A output. • Verify all cables are securely connected. • Note that pass-through charging may be incompatible with devices other than Meta Quest 2.

SPECIFICATIONS
