KEMIMOTO KM3B0117-03009-BK-M

KEMIMOTO 28-Inch UTV Sound Bar Instruction Manual

Model: KM3B0117-03009-BK-M

1. PRODUCT OVERVIEW

The KEMIMOTO 28-Inch UTV Sound Bar is designed for outdoor audio, featuring 2 tweeters and 4 subwoofers for clear sound. It includes Bluetooth connectivity, AUX, and USB ports, delivering 500W of power. The sound bar is built with a heavy-duty extruded aluminum water-tight housing to withstand harsh environments.

3. SETUP AND INSTALLATION

3.1 Mounting Options

The sound bar offers two primary installation methods:

1. **Flat Mount (T-shaped brackets):** Use the T-shaped brackets for flat surfaces. Only one screw is required per bracket, even if two holes are present.
2. **Roll Bar Mount (Round brackets):** Use the round clamps for roll bars with diameters between 1.56 inches and 2.25 inches. Ensure rubber friction pads are installed to secure the sound bar and prevent movement during operation.

Image: Visual guide demonstrating the two installation methods: flat mount with T-shaped brackets and roll bar mount with round clamps.

3.2 Power Connection

Connect the sound bar to a 12V power source using one of the provided power cords. The sound bar includes a built-in 500W amplifier.

- **Cigarette Lighter Adapter:** For temporary or easy connection to a 12V cigarette lighter socket.
- **Direct Wire Connection:** For a more permanent installation, connect the red wire to the positive (+) terminal of your vehicle's 12V power source and the black wire to the negative (-) or ground terminal.

3.3 Audio Connections

The sound bar supports multiple audio input methods:

- **Bluetooth:** For wireless connection to compatible devices.
- **AUX Port:** Use the provided auxiliary cable to connect devices with a 3.5mm audio output.
- **USB Port:** For playing audio from USB storage devices or charging compatible devices.

Two Installation Methods

Method 1 Only one screw is needed, even with two holes.

Method 2 Only one screw is needed, even with two holes.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

Press the power button on the sound bar or the remote control to turn the unit on or off.

4.2 Bluetooth Pairing

1. Ensure the sound bar is powered on and in Bluetooth mode.
2. On your mobile device, enable Bluetooth and search for available devices.
3. Select "KEMIMOTO" from the list to pair.
4. Once paired, you can stream audio wirelessly.

4.3 Using AUX and USB Ports

- **AUX:** Connect your audio device using the 3.5mm AUX cable. The sound bar will automatically switch to AUX input.
- **USB:** Insert a USB storage device with audio files. The sound bar will automatically detect and play the files. The USB port can also be used for charging compatible devices.

4.4 Remote Control Functions

The included wireless remote control allows you to manage playback, volume, and other settings from up to 10 meters (33 feet) away.

- Power On/Off
- Volume Up/Down
- Play/Pause
- Next/Previous Track
- Mode Selection (Bluetooth, AUX, USB)
- Light Control (if applicable, for integrated LED lights)

5. MAINTENANCE

5.1 Water Resistance

The KEMIMOTO UTV Sound Bar features an IPX5 water-resistant rating, meaning it can withstand splashes and light rain. It is not designed for submersion. Ensure all port covers are securely closed when exposed to moisture.

Image: The sound bar being splashed with water, demonstrating its IPX5 water-resistant capability.

5.2 Cleaning

To clean the sound bar, use a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish or internal components.

5.3 Environmental Protection

The sound bar's heavy-duty extruded aluminum housing protects internal components from moisture, dust, and extreme temperatures, making it suitable for various outdoor conditions.

6. TROUBLESHOOTING

- **No Power:**

- Check power connections to ensure they are secure.
- Verify the 12V power source is active.
- If using the cigarette lighter adapter, ensure it is fully inserted and the vehicle's power outlet is functional.

- **No Sound:**

- Ensure the sound bar is powered on and the volume is turned up.
- Check the audio source (Bluetooth, AUX, USB) and ensure it is playing.
- If using Bluetooth, confirm the device is paired and connected.
- If using AUX, ensure the cable is fully inserted into both the sound bar and the audio device.

- **Bluetooth Disconnection:**

- Ensure your device is within the 10-meter (33 feet) Bluetooth range.
- Try unpairing and re-pairing the device.
- Minimize obstacles between the device and the sound bar.

- **Remote Control Not Working:**

- Check the battery in the remote control and replace if necessary.
- Ensure there are no obstructions between the remote and the sound bar's receiver.

7. SPECIFICATIONS

Feature	Detail
Model Name	KM3B0117-03009-BK-M
Speaker Type	Soundbar
Audio Configuration	4 Subwoofers (4-inch), 2 Tweeters (1-inch)
Maximum Output Power	500 Watts
Frequency Response	22 KHz
Connectivity Technology	Bluetooth, Auxiliary, USB
Wireless Communication	Bluetooth
Bluetooth Range	10 Meters (33 feet)
Control Method	Remote
Water Resistance Level	IPX5 (Waterproof)
Material	Metal (Heavy-duty extruded aluminum housing)
Product Dimensions	Length: 28.5 inches, Depth: 4.92 inches, Height: 4.92 inches
Item Weight	7.05 Kilograms (15.52 pounds)
Mounting Compatibility	1.56" - 2.25" Roll Bars, Flat Mounts

Feature	Detail
Power Source	Battery Powered (1 Nonstandard Battery included)
