# YKD 15-inch Silent Chinchilla Exercise Wheel Instruction Manual

Model: DS001

## 1. INTRODUCTION

This manual provides comprehensive instructions for the assembly, operation, and maintenance of your YKD 15-inch Silent Chinchilla Exercise Wheel. Designed for chinchillas, hamsters, hedgehogs, squirrels, and other small pets, this wheel offers a safe, quiet, and comfortable exercise environment. Please read these instructions carefully before use to ensure proper installation and optimal performance.

## 2. PRODUCT FEATURES

- **High-Quality Aluminum Alloy Construction:** The wheel is crafted from durable aluminum alloy, ensuring a sturdy structure and long-lasting use without potential harm to your pet. The inner wall features a flat running surface for comfortable exercise.
- **Non-Toxic Frosted Surface:** The entire running surface is treated with a non-toxic coating, baked at ultra-high temperatures to create a wear-resistant and non-slip frosted texture. This provides enhanced grip for small animals during their runs.
- **Silent Operation:** Equipped with high-quality stainless steel bearings and special anti-loosening screws, this design prevents loosening and noise, ensuring a quiet environment even during active use.
- **Ergonomic Design:** The 15-inch diameter and wide running track allow pets to run with a relaxed back, preventing spinal curvature and promoting proper posture and muscle development.
- **Easy to Clean:** The smooth, easy-to-clean coating on the roller's surface allows for effortless removal of waste. The aluminum alloy material is rust-resistant, making cleaning convenient.

### 4. SETUP INSTRUCTIONS

Follow these steps to properly install your exercise wheel:

1. **Prepare the Mounting Area:** Choose a suitable location within your pet's cage. Ensure the area is clear and provides enough space for the 15-inch wheel to rotate freely without obstruction.
2. **Attach the Mounting Bracket:** Position the mounting bracket on the exterior of the cage bars where you intend to install the wheel. Secure it firmly using the provided M8 nuts and screws. Ensure the bracket is stable and does not wobble.
3. **Mount the Wheel:** Align the back of the exercise wheel with the secured mounting bracket. Insert the screws through the wheel's backplate into the bracket and tighten them using the provided M6 hex screwdriver and wrenches. Ensure the wheel is securely attached and spins smoothly without excessive play.
4. **Final Check:** Gently spin the wheel to confirm it rotates freely and silently. Check all connections to ensure they are tight and secure to prevent any potential hazards for your pet.

Easy to assemble

## 5. OPERATING INSTRUCTIONS

Once installed, your YKD exercise wheel is ready for use. Small pets, especially chinchillas, hamsters, and hedgehogs, instinctively use exercise wheels for physical activity. No special training is typically required.

- **Placement:** Ensure the wheel is placed in an accessible area within the cage, allowing your pet to easily enter and exit.
- **Observation:** Monitor your pet during initial uses to ensure they are comfortable and safe while running. The wide, flat surface is designed to prevent back arching and foot injuries.
- **Regular Exercise:** Encourage regular use to promote physical health and mental well-being.

## 6. MAINTENANCE AND CLEANING

Regular cleaning is essential to maintain hygiene and prolong the life of the exercise wheel.

- **Daily Cleaning:** Wipe away any feces or debris from the inner surface of the wheel using a damp cloth. The non-stick coating facilitates easy cleaning.
- **Deep Cleaning:** For a more thorough cleaning, the wheel can be easily removed from its mounting bracket. Hand wash the wheel with mild soap and water. Rinse thoroughly and ensure it is completely dry before reattaching it to the cage.
- **Material Care:** The aluminum alloy material is rust-resistant, but avoid using harsh chemicals or abrasive scrubbers that could damage the non-toxic coating.

## 7. TROUBLESHOOTING

- **Wheel is Noisy:**
  - Check if all screws and nuts are securely tightened. Loose connections can cause rattling.
  - Ensure the wheel is properly aligned on the mounting bracket and not rubbing against the cage bars or other objects.
  - Inspect the bearing for any obstructions or damage.
- **Wheel is Stiff or Not Spinning Freely:**
  - Check for any debris or bedding caught in the bearing mechanism.
  - Ensure the mounting screws are not overtightened, which can restrict movement.
- **Pet is Not Using the Wheel:**
  - Some pets may need time to adjust to a new accessory. Place treats inside the wheel to encourage exploration.
  - Verify the wheel size is appropriate for your pet to ensure comfortable and safe use.

## 8. SPECIFICATIONS

Feature	Detail
Brand Name	YKD
Model Name	DS001
Item Model Number	DS001
Product Dimensions	15"L x 5.9"W x 15"H

Item Weight	2.2 pounds (1 Kilogram)
Material	Aluminum alloy
Color	Purple
Size	Extra Large
Target Audience Keyword	Chinchillas, Fancy Rat, Hedgehogs, small-animal-pets
Breed Recommendation	Chinchillas, Hedgehogs, Fancy Rat, Syrian Hamster, Large Mouse
Care Instructions	Hand Wash Only
Recommended Uses For Product	Indoor
