What's in the Box

Upon unpacking your Bell+Howell Bionic LED Work Light, please ensure all components are present and in good condition.

- Bell+Howell Bionic LED Work Light
- Charging Cable

Key Features

The Bionic LED Work Light is engineered with several features to enhance its utility and performance:

- **Portable Work Light:** Lightweight and portable, ideal for various uses.
- **Cordless and Rechargeable:** Offers convenience and mobility with up to 4 hours of use per charge.
- **Super Bright:** Equipped with powerful LEDs emitting a 1000 lumen light beam for superior illumination.
- **180 Degree Swivel:** Adjustable head allows precise light direction without moving the base.
- **Magnetic Base:** Securely attaches to magnetic surfaces for hands-free operation.
- **Hanging Hook:** Provides an additional option for hands-free lighting by hanging the unit.
- **50,000 Hr. Lifespan:** Long-lasting LED technology reduces the need for frequent replacements.
- **Easy Grip Handle:** Designed for comfortable and secure carrying.

Figure 3: Close-up views of the work light's features, including its long lifespan, integrated hanging hook, and USB charging port.

Setup

Initial Charging

1. Locate the charging port on the Bell+Howell Bionic LED Work Light. This is typically covered by a rubber flap to protect it from dust and moisture.
2. Connect the provided charging cable to the work light's charging port.
3. Plug the other end of the charging cable into a compatible USB power source (e.g., a USB wall adapter, computer USB port, or power bank).
4. Allow the unit to charge fully before first use. A full charge can provide up to 4 hours of continuous light. The charging indicator light (if present) will change color or turn off once charging is complete.

Operation

Turning On/Off

- To turn the light on, press the power button located on the front of the unit.

- To turn the light off, press the power button again.

Adjusting Light Direction

- The light head features a 180-degree swivel mechanism. Gently pivot the light head to direct the beam precisely where needed.

Figure 4: Illustration of the 180-degree swivel capability of the light head.

Mounting Options

- **Magnetic Base:** The base of the work light contains strong magnets. Place the light on any ferrous metal surface for secure, hands-free illumination.
- **Hanging Hook:** Extend the integrated hanging hook from the base and suspend the light from a suitable fixture, such as a tent pole, branch, or hook.
- **Freestanding:** The stable base allows the light to stand freely on flat surfaces.

Figure 6: The work light providing illumination in a garage or workshop environment.

Maintenance

- **Cleaning:** Wipe the exterior of the light with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Storage:** Store the light in a cool, dry place when not in use. For prolonged storage, it is recommended to charge the battery periodically to maintain its health.
- **Battery Care:** Avoid fully depleting the battery frequently. Recharge the unit when the light output diminishes.

Troubleshooting

Problem	Possible Cause	Solution
Light does not turn on.	Battery is depleted.	Charge the work light using the provided USB cable.

Problem	Possible Cause	Solution
Light output is dim.	Low battery charge.	Recharge the work light.
Light does not charge.	Faulty charging cable or power source.	Try a different USB cable or power adapter. Ensure the charging port is clean and free of debris.
Magnetic base does not hold.	Surface is not magnetic or too thin.	Ensure the surface is made of a ferrous metal and is thick enough for the magnets to hold securely.

Specifications

Specification	Detail
Model Number	8667
Light Source Type	LED
Brightness	1000 Lumens
Power Source	Battery Powered (Rechargeable)
Battery Type	Lithium Ion
Runtime	Up to 4 hours
Lifespan	50,000+ Hours
Material	ABS
Color	Black
Product Dimensions	4 x 4 x 6 inches
Item Weight	1 pound
Special Feature	Rechargeable
Water Resistance Level	Not Water Resistant
