For audio systems, use the optical audio output. USB devices can be connected to the USB port for media playback.

4. Power Connection

Plug the power cable into the TV's power input and then into a wall outlet. The TV will typically power on to the initial setup screen.

Operating Instructions

1. Initial Setup and Network Connection

Follow the on-screen prompts to complete the initial setup. This includes selecting your language, connecting to your Wi-Fi network, and activating your Roku account. A stable internet connection is required to access smart features and streaming content.

2. Navigating the Roku Interface

Use the included remote control to navigate the Roku Home screen. The directional pad and OK button are used for selection. Dedicated quick-access buttons for popular streaming services are also available on the remote.

Maintenance

To ensure the longevity and optimal performance of your ONN Smart TV, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the screen with a soft, dry microfiber cloth. For stubborn smudges, slightly dampen the cloth with water or a screen-cleaning solution. Avoid harsh chemicals or abrasive materials.
- **Ventilation:** Ensure proper airflow around the TV. Do not block ventilation openings. Maintain adequate space between the TV and walls or other objects.
- **Power:** Unplug the TV from the power outlet during lightning storms or when it will be left unattended for long periods.
- **Temperature:** Avoid exposing the TV to extreme temperatures or direct sunlight, which can affect performance and lifespan.

Troubleshooting

If you encounter issues with your ONN Smart TV, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
No Power	Power cable disconnected; outlet issue.	Check power cable connection; try a different outlet.
No Picture/Sound	Incorrect input selected; loose HDMI cable.	Verify correct input source; ensure HDMI cables are securely connected.
Wi-Fi Connection Issues	Incorrect password; router issues; TV too far from router.	Re-enter Wi-Fi password; restart router; move TV closer to router or use a Wi-Fi extender.
Remote Not Responding	Dead batteries; obstruction; remote not paired.	Replace batteries; remove obstructions; re-pair remote if necessary (refer to Roku remote pairing guide).
