Puig 20675N

Puig FOOTPEG Adaptor Adjustable User Manual

Model: FOOTPEG ADAPTOR ADJUSTABLE (20675N)

Brand: Puig

PRODUCT OVERVIEW

The Puig Adjustable Footpeg Adaptor is a high-quality component designed to facilitate the mounting of Puig footpegs on specific Yamaha motorcycle models. This adaptor allows for precise positioning of the footpegs, enhancing rider comfort and control. Manufactured from durable aluminum, it ensures a secure and reliable connection between the footpeg and the motorcycle's frame.

This product is specifically compatible with Yamaha MT-09/ SP/ Tracer 9/ 9 GT models from 2021-2022 and the YZF-R7 2022 model.

SAFETY INFORMATION

Always prioritize safety during installation and use. Improper installation can lead to serious injury or damage to the motorcycle.

- It is highly recommended that installation be performed by a qualified motorcycle mechanic.
- Ensure the motorcycle is stable and securely supported before beginning any work.
- Wear appropriate personal protective equipment, including gloves and eye protection.
- Do not modify the adaptor or any related motorcycle components.
- After installation, thoroughly check all fasteners for tightness and ensure proper function before riding.
- Regularly inspect the footpeg adaptors and footpegs for any signs of wear, damage, or looseness.

PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

This image displays the complete set of components included with the Puig Adjustable Footpeg Adaptor. It features two main black adaptor blocks, each designed to connect a footpeg to the motorcycle's frame. Also visible are two silver flat-head screws and four small cylindrical silver pins, which are essential for assembly and securing the footpegs.

- 2 x Puig Footpeg Adaptor Blocks (Black, Aluminum)
- 2 x Mounting Screws (Silver, Flat-head)
- 4 x Securing Pins (Silver, Cylindrical)

INSTALLATION

This section provides general guidelines for installing the Puig Footpeg Adaptor. Refer to your motorcycle's service manual for specific instructions regarding the removal of original components and torque specifications.

1. **Preparation:** Park the motorcycle on a level, stable surface. Ensure the engine is off and cool. If necessary, use a stand to lift the motorcycle for easier access to the footpeg area.
2. **Remove Original Footpegs:** Carefully remove the existing footpegs and any associated mounting hardware from the motorcycle's frame. Note the orientation and components for potential re-use or reference.
3. **Attach Adaptor to Motorcycle:** Position one Puig adaptor block onto the motorcycle's footpeg mount. Secure it using the appropriate original or supplied hardware, ensuring it is correctly aligned. Do not fully tighten yet.
4. **Attach Footpeg to Adaptor:** Align your Puig footpeg with the adaptor block. Insert the provided securing pins into the designated holes on the adaptor and footpeg to hold them together. Then, insert and tighten the supplied mounting screw through the footpeg and into the adaptor block.
5. **Adjust and Tighten:** If the adaptor allows for adjustment (e.g., rotation), set it to your desired position. Once satisfied with the alignment and position, tighten all fasteners to the manufacturer's specified torque values.
6. **Repeat for Other Side:** Follow the same steps for the other side of the motorcycle.
7. **Final Check:** Before riding, thoroughly inspect both installed footpeg adaptors and footpegs. Ensure they are securely mounted, do not wobble, and allow for full range of motion without interference.

OPERATION

Once installed, the Puig Footpeg Adaptor functions as a secure mounting point for compatible Puig footpegs. Its design ensures a stable platform for the rider's feet. While the adaptor itself is described as "adjustable," this typically refers to its ability to be oriented during installation to achieve a preferred footpeg angle or position, rather than on-the-fly adjustment. Ensure the footpegs are always in a fixed, secure position before operating the motorcycle.

MAINTENANCE

Proper maintenance will extend the lifespan of your Puig Footpeg Adaptors and ensure continued safety.

- **Regular Inspection:** Periodically check all mounting bolts and screws for tightness. Vibrations from riding can cause fasteners to loosen over time.
- **Cleaning:** Clean the adaptors with a mild soap and water solution. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Damage Check:** Inspect the aluminum adaptors for any signs of cracks, bends, or other damage, especially after any impact or fall. Replace damaged components immediately.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Footpeg feels loose after installation.	Mounting screws or pins not fully tightened. Incorrect installation.	Ensure all screws and pins are securely fastened. Re-read installation instructions and verify all steps were followed correctly. If problem persists, consult a professional mechanic.
Footpeg adaptor does not fit motorcycle mount.	Incorrect product model for your motorcycle.	Verify the product's compatibility with your specific motorcycle make, model, and year. This adaptor is for Yamaha MT-09/ SP/ Tracer 9/ 9 GT 21-22 and YZF-R7 22.

SPECIFICATIONS

- Model:** FOOTPEG ADAPTOR ADJUSTABLE (20675N)
- Brand:** Puig
- Material:** Aluminum
- Color:** BLACK
- Item Weight:** 2.72 ounces (approx. 0.17 Pounds)
- Product Dimensions:** 3.39 x 1.65 x 3.39 inches
- Vehicle Service Type:** Motorcycle
- Fit Type:** Vehicle Specific Fit
- Compatibility:** Yamaha MT-09/ SP/ Tracer 9/ 9 GT (2021-2022), YZF-R7 (2022)

WARRANTY AND SUPPORT

For detailed warranty information, please refer to the official Puig website or contact your authorized dealer where the product was purchased. Warranty terms and conditions may vary by region and retailer.

For technical support or inquiries regarding this product, please contact Puig customer service through their official channels. When contacting support, please have your product model number (20675N) and purchase details readily available.

Note: This manual provides general guidance. Always consult a professional for complex installations or if you are unsure about any step.
