PACKAGE CONTENTS

Please verify that all items are present in your package:

- DIERYA DK61se Mechanical Keyboard x 1
- Type-C Cable (1.5m) x 1
- Keycap Puller x 1
- User Manual x 1

Image: Contents of the DIERYA DK61se keyboard package, including the keyboard, USB-C cable, keycap puller, and user manual.

SETUP INSTRUCTIONS

1. **Unpack the Keyboard:** Carefully remove the DIERYA DK61se keyboard and its accessories from the packaging.
2. **Connect the USB-C Cable:** Insert the Type-C end of the provided cable into the port on the back of the keyboard.
3. **Connect to Computer:** Plug the standard USB-A end of the cable into an available USB port on your laptop or desktop computer.
4. **Driver Installation:** The keyboard is plug-and-play. Your operating system (Windows, macOS, etc.) will automatically detect and install the necessary drivers. No additional software installation is required for basic functionality.
5. **Placement:** Position the keyboard comfortably on your desk. The ultra-compact 60% layout is designed to maximize desktop and mouse space.

Detachable Type-C Cable
Plug and Play,Wired is more responsive than wireless keyboards

OPERATING INSTRUCTIONS

Keyboard Layout and Function Keys

The DIERYA DK61se features a 60% layout with 61 keys. Many functions are accessed via the **"FN"** key in combination with other keys. Refer to the keycaps for secondary functions indicated by symbols or text.

- **FN + [Key]:** Activates the secondary function printed on the keycap. For example, FN + 1-0 for F1-F10, FN + P for Pause, etc.
- **Full Anti-Ghosting:** The keyboard supports simultaneous pressing of all keys without conflicts, ensuring accurate input during fast-paced gaming or typing.

Mechanical Red Switches

This keyboard is equipped with Red Mechanical Switches, known for their linear and lighter actuation. This design allows for quick, successive keypresses without a tactile bump, making them suitable for gaming and fast typing.

Image: A detailed view of the DIERYA DK61se keyboard showcasing the Red Mechanical Switches beneath the keycaps.

LED Backlight Control

The DK61se features a fixed single-color LED backlight with multiple effects. Use the following key combinations to control the backlight:

- **FN + \\:** Switches between 19 built-in backlight modes.
- **FN + [{:** Decreases backlight brightness.
- **FN +]}:** Increases backlight brightness.
- **FN + ;::** Decreases backlight speed.
- **FN + '":** Increases backlight speed.

Ergonomic Design

The keyboard's design incorporates scientific stair-up keycaps and adjustable rear feet to promote a comfortable typing posture. This ergonomic consideration aims to minimize hand fatigue during extended use, benefiting gamers, office workers, and typists.

Image: Close-up of DIERYA DK61se keycaps, illustrating their precision engineering, crystal clear uniform backlighting, and ergonomically curved profile.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your DIERYA DK61se keyboard.

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the keyboard. For deeper cleaning, use the provided keycap puller to remove keycaps and clean dust or debris with compressed air or a small brush.
- **Cable Care:** Avoid sharp bends or excessive pulling on the USB-C cable to prevent damage.
- **Liquid Exposure:** Keep liquids away from the keyboard. In case of accidental spills, immediately disconnect the keyboard from your computer and allow it to dry completely before reconnecting.
- **Storage:** When not in use for extended periods, store the keyboard in a dry, dust-free environment.

TROUBLESHOOTING

If you encounter issues with your DIERYA DK61se keyboard, please refer to the following common solutions:

- **Keyboard Not Responding:**

  - Ensure the USB-C cable is securely connected to both the keyboard and your computer.
  - Try plugging the keyboard into a different USB port on your computer.
  - Test the keyboard on another computer to determine if the issue is with the keyboard or the original computer's setup.

- **Keys Not Registering or Double-Typing:**

  - Remove the affected keycap using the keycap puller and check for any obstructions or debris around the switch. Clean if necessary.
  - Ensure the keycap is properly seated on the switch.

- **Backlight Not Working or Incorrect:**

  - Verify that the backlight is not turned off or set to the lowest brightness using the FN key combinations (FN + [{] /]}).
  - Cycle through the backlight modes using FN + ∨ to see if it resolves the issue.

- **Unexpected Behavior:**

  - Disconnect and reconnect the keyboard.
  - Restart your computer.

If the problem persists after trying these steps, please contact DIERYA customer support for further assistance.

SPECIFICATIONS
