## CubicFun L527h

# CubicFun 3D Papercraft Puzzle: The Flying Dutchman Ship with LED (Model L527h) Instruction Manual

Brand: CubicFun | Model: L527h

---

## INTRODUCTION

---

This manual provides detailed instructions for assembling and maintaining your CubicFun 3D Papercraft Puzzle of the Flying Dutchman ship with LED lights. This kit allows you to create a highly detailed model without the need for glue or additional tools. Enjoy the process of bringing this legendary ship to life.

## SAFETY INFORMATION

- This product contains small parts and is not suitable for children under 3 years old due to choking hazards.
- Recommended for ages 10 and up. Adult supervision is advised for younger users.
- Handle papercraft pieces with care to avoid tearing or bending.
- Keep away from open flames, heat sources, and excessive moisture.
- Dispose of packaging materials responsibly.

## PACKAGE CONTENTS

Before beginning assembly, please verify that all components are present in your kit:

- Pre-cut EPS foam board puzzle pieces (numbered sheets)

- LED light string(s)
- Battery box (batteries not included)
- Illustrated instruction booklet

## SETUP & ASSEMBLY

This 3D papercraft puzzle is designed for assembly without glue or tools. Follow the numbered steps in the included instruction booklet for detailed guidance.

### General Assembly Steps

1. **Identify Parts:** All parts are numbered on the foam board sheets. Locate the required pieces for each step as indicated in the manual.
2. **Remove Parts:** Carefully push out the pieces from the foam board. Do not remove all parts at once; only detach the pieces needed for the current step to avoid confusion.

3. **Prepare Holes:** Before connecting pieces, ensure all corresponding holes are fully open. You may gently use a pointed object (like a toothpick, not included) to clear any remaining paper if necessary.
4. **Connect Pieces:** Align the tabs of one piece with the slots of another. Gently push them together until they interlock securely. No glue is required.
5. **Follow Sequence:** Proceed through the assembly steps sequentially as shown in the illustrated manual.

## LED Installation

The Flying Dutchman model includes LED lights to enhance its appearance. Batteries are required for this feature (2x AA batteries, not included).

1. **Locate LED Components:** Identify the LED light string(s) and the battery box from the package contents.
2. **Insert Batteries:** Open the battery compartment on the battery box and insert 2x AA batteries, ensuring correct polarity (+/-). Close the compartment securely.
3. **Integrate LEDs During Assembly:** The instruction manual will guide you on specific points during the ship's assembly where the LED light strings need to be placed. Carefully thread the lights through the designated

openings and secure them as instructed.

4. **Connect to Battery Box:** Once the LED strings are in place, connect their connectors to the battery box.
5. **Conceal Wiring:** Ensure all wiring is neatly tucked away within the model to maintain the aesthetic and prevent damage.

## OPERATING INSTRUCTIONS

To activate the LED lights on your Flying Dutchman model:

- Ensure batteries are correctly installed in the battery box and all LED connections are secure.
- Locate the ON/OFF switch on the battery box.
- Slide the switch to the 'ON' position to illuminate the LED lights.
- Slide the switch to the 'OFF' position when not in use to conserve battery life.

## MAINTENANCE

- **Cleaning:** Gently dust the model with a soft, dry cloth or a soft brush. Avoid using water or cleaning solutions, as they may damage the paper material.
- **Storage:** Store the model in a cool, dry place away from direct sunlight and high humidity to prevent warping or fading.
- **Battery Care:** If the LED lights dim or stop working, replace the batteries. Remove batteries if the model will not be used for an extended period to prevent leakage.
- **Handling:** Always handle the model by its base or sturdy sections to avoid damaging delicate parts.

## TROUBLESHOOTING

### LED Lights Not Working

- **Check Batteries:** Ensure fresh AA batteries are correctly inserted into the battery box with the correct polarity.
- **Check Connections:** Verify that the LED light strings are securely connected to the battery box.
- **Check Switch:** Make sure the ON/OFF switch on the battery box is in the 'ON' position.
- **Inspect Wiring:** Carefully check for any pinched or damaged wires in the LED circuit.

### Pieces Not Fitting Together

- **Verify Part Numbers:** Double-check that you are using the correct pieces for the current step according to the instruction manual.
- **Clear Slots:** Ensure that the slots and holes are completely clear of any residual paper.
- **Correct Orientation:** Confirm that the pieces are oriented correctly before attempting to connect them.
- **Gentle Pressure:** Apply firm but gentle pressure. Do not force pieces, as this may cause damage.

## SPECIFICATIONS

<b>Model Number</b>	L527h
<b>Material</b>	Paper (EPS Foam Board)
<b>Assembled Dimensions (L x W x H)</b>	68 x 26 x 64 cm (27 x 10.2 x 25.2 inches)
<b>Weight</b>	1.48 kg (3.26 lbs)
<b>Number of Pieces</b>	360
<b>Recommended Age</b>	10+ Years
<b>LED Feature</b>	Yes (Batteries required: 2x AA, not included)
