PawGiant PGCR-02

PawGiant Chicken Coop Chicken Run Pen (Model PGCR-02) Instruction Manual

1. Product Overview

The PawGiant Chicken Coop Chicken Run Pen (Model PGCR-02) is a versatile outdoor enclosure designed to provide a secure and spacious environment for small animals such as chickens, ducks, rabbits, and hens. Constructed from durable, rust-resistant metal, this pen features a foldable design for easy portability and storage. It includes a UV-protective and waterproof cover to shield animals from various weather conditions.

2. Components List

Before assembly, ensure all components are present:

- Panel A (End Panel with door) - 1 piece
- Panel B (Middle Panel with roof section) - 1 piece
- Panel C (Middle Panel with door and roof section) - 2 pieces
- Panel D (End Panel with roof section) - 1 piece
- Support Rod E - 2 pieces
- Zip Ties F - 55 pieces
- Standing Rail G - 2 pieces
- Roof Cover H - 1 piece
- Ground Nails I - 16 pieces

- Carabiner J - 5 pieces
- Hex Key K - 1 piece

3. Assembly Instructions

Follow these steps to assemble your PawGiant Chicken Coop. It is recommended to have two people for easier assembly.

Step 1: Assemble the First Section (Panel A + C)

1. Open Panel C. Ensure the hooks on the panel face inside the cage.
2. Cover Panel A onto Panel C, aligning the edges.
3. Fix 8 connecting hooks on the edge to secure Panel A and Panel C. It is suggested to clamp hooks with pliers for reinforcement.
4. Tighten zip ties F at the joints to further secure the connection points.

Step 2: Assemble the Second Section (Panel C + D)

Repeat the process from Step 1 to assemble the second section using Panel C and Panel D.

Step 3: Install Support Rod E

Attach the Support Rod E to the first and middle parts of the cage using the Hex Key K. This provides additional structural integrity.

Step 4: Combine All Sections to Form the Cage Frame

1. Connect the first and second assembled parts with the middle part, Panel B.
2. Fix all connecting hooks on the edges where sections meet.
3. Tighten zip ties F at all remaining joints to ensure the cage frame is stable and secure.
4. Place the Standing Rails G inside the coop for animals to perch on.

Step 5: Install the Roof Cover H

Carefully place the 58.5"x42.5" Roof Cover H over the designated roof section of the coop. Secure it using the integrated hooks or ties to protect the animals from sun and rain.

Step 6: Secure with Ground Nails I

Use the 16 U-type Ground Nails I to anchor the cage firmly into the ground, enhancing stability and preventing movement, especially in outdoor conditions.

4. Product Features and Operation

- **Gravity Auto-lock Doors:** The coop features an automatic gravity door lock mechanism on its five doors. This design helps ensure doors close securely, preventing accidental openings and keeping animals safely contained.

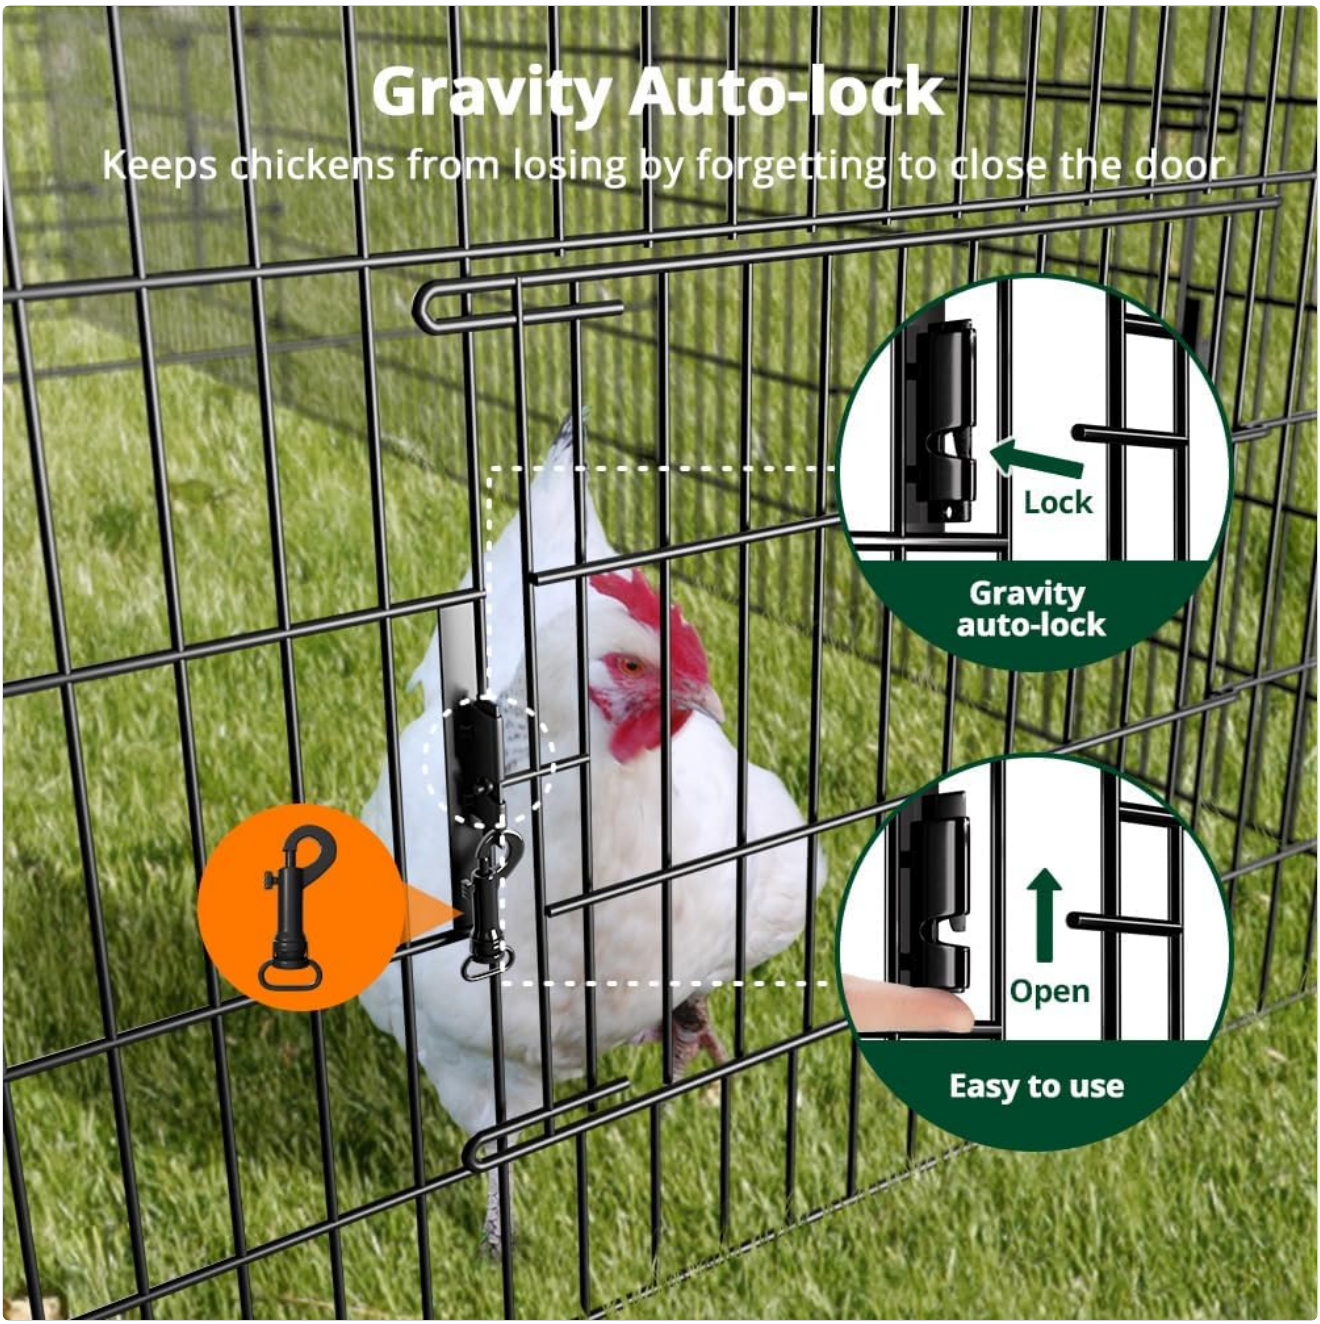

Image: Gravity Auto-lock mechanism for secure closure.

- **Enhanced Security:** For additional security, carabiners (J) are provided to further deter animals from opening the doors. Attach these to the door latches as an extra measure.
- **Weather Protection:** The included roof cover (H) is made from silver-white polyester with a UV protective coating, offering comprehensive protection against sun, rain, and snow. Its extended hem design helps prevent elements from easily entering the coop.
- **Predator Prevention:** The cage features a narrow grid gap of 1.6 inches, designed to keep pets safely inside and prevent attacks from wildlife.

5. Maintenance

- **Cleaning:** The foldable design allows for easy disassembly and movement, facilitating regular cleaning of the pet's living area.
- **Rust Prevention:** The metal frame is treated with a rust-resistant coating. Periodically inspect the frame for any signs of wear or damage to the coating and address as needed to prolong product life.
- **Cover Care:** Ensure the waterproof cover is securely attached, especially during adverse weather. Clean the cover as necessary to maintain its protective properties.
- **Ground Anchors:** Regularly check the ground nails (I) to ensure they remain firmly in place, especially after heavy winds or rain, to maintain cage stability.

6. Troubleshooting

- **Assembly Difficulty:** If connecting clips or hooks are tight during assembly, gently use pliers to adjust them. Ensure all hooks face inwards for proper connection.

- **Door Security:** While the gravity auto-lock provides primary security, it is recommended to use the provided carabiners (J) on all doors to prevent animals from potentially manipulating the latch.
- **Stability Issues:** Ensure all zip ties (F) are tightened at every joint and all ground nails (I) are fully inserted into the ground. For very soft soil, consider additional anchoring methods.

7. Specifications

Product Dimensions	330.2 x 101.6 x 101.6 cm (130"L x 40"W x 40"H)
Item Weight	20.5 kg (45.2 lbs)
Material	Metal (with rust-resistant coating)
Color	Black
Number of Doors	5
Special Feature	Foldable, UV Protective & Waterproof Cover
Model Number	PGCR-02
