## 2. SETUP AND INITIAL PAIRING

---

### 2.1 App Installation

To utilize all features of your GUCABE Smart Watch, you must install the companion application, **Da Fit**, on your smartphone.

1. Search for "Da Fit" in the Google Play Store (for Android devices) or the Apple App Store (for iOS devices).
2. Alternatively, scan the QR code provided in the watch's packaging or on the product page to directly download the app. A direct download link is also available at <http://plus.crrepa.com/app-download/mband>.
3. Install the "Da Fit" application on your smartphone.

### 2.2 Bluetooth Pairing

Follow these steps to pair your smartwatch with your smartphone:

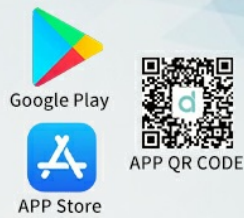

1. Ensure your smartphone's Bluetooth is turned **ON**.
2. Open the "Da Fit" App on your smartphone.
3. Within the app, navigate to the device section and tap "ADD A DEVICE".
4. The app will scan for nearby devices. Select "K28H" (or similar model identifier) from the list to initiate pairing.
5. Confirm the pairing request on both your smartphone and the smartwatch if prompted.

### 2.3 Enabling Bluetooth Dial Calls

For call functionality, an additional Bluetooth connection is required:

1. On your GUCABE Smart Watch, go to "Settings" and enable the "Phone: On" option.
2. On your smartphone, go to your phone's Bluetooth settings.
3. Find the Bluetooth device named "K28H\_XXXX" (this is separate from the initial pairing) and tap to connect.
4. Once connected, your GUCABE Smart Watch is ready for Bluetooth Dial Calls.

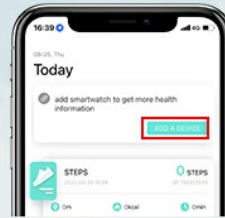

## STEP1 : HOW TO CONNECT WITH THE SMART WATCH?

1. Search "Da Fit" on Google Play or App Store, Or scan the QR code to download.

2. Turn on your phone's Bluetooth.

3. Open the "Da Fit" App and tap "ADD A DEVICE".

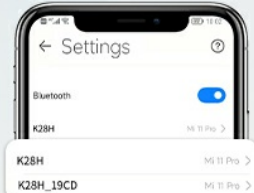

4. Tap "K28H" to pair.

## STEP2 : HOW TO ENDBLE K22 BLUETOOTH DIAL CALL ?

1. Go to "Settings" on "K28H" and Enable the "Phone: On".

2. Go to your phone's Bluetooth. Find the Bluetooth named "K28H\_XXXX" and tap to connect.

3. Till now, your "K28H" is ready for Bluetooth Dial Call.

4. Find the Bluetooth named "K28H\_XXXX". Click the exclamation mark and then tap "Device Type" to select the sound playback method.

### 3.3 Health and Fitness Tracking

The GUCABE Smart Watch is equipped with advanced sensors to monitor various health and fitness metrics:

- **Heart Rate Monitor:** Continuously track your heart rate throughout the day. The VC31 dynamic heart rate monitor provides accurate data and can detect black skin.

Figure 3.3: Heart Rate and Blood Pressure Monitoring.

- **Blood Oxygen Monitor (SpO2) & Blood Pressure Monitor:** Monitor your blood oxygen levels and blood pressure directly from your wrist.

- **Sleep Tracker:** Analyze your sleep patterns, including light and deep sleep, to help you improve sleep quality.

Figure 3.4: Sleep Tracking Function.

- **Sports Modes:** Track your movement and fitness data throughout the day with 7 dedicated sports modes. This acts as a personal trainer on your wrist.

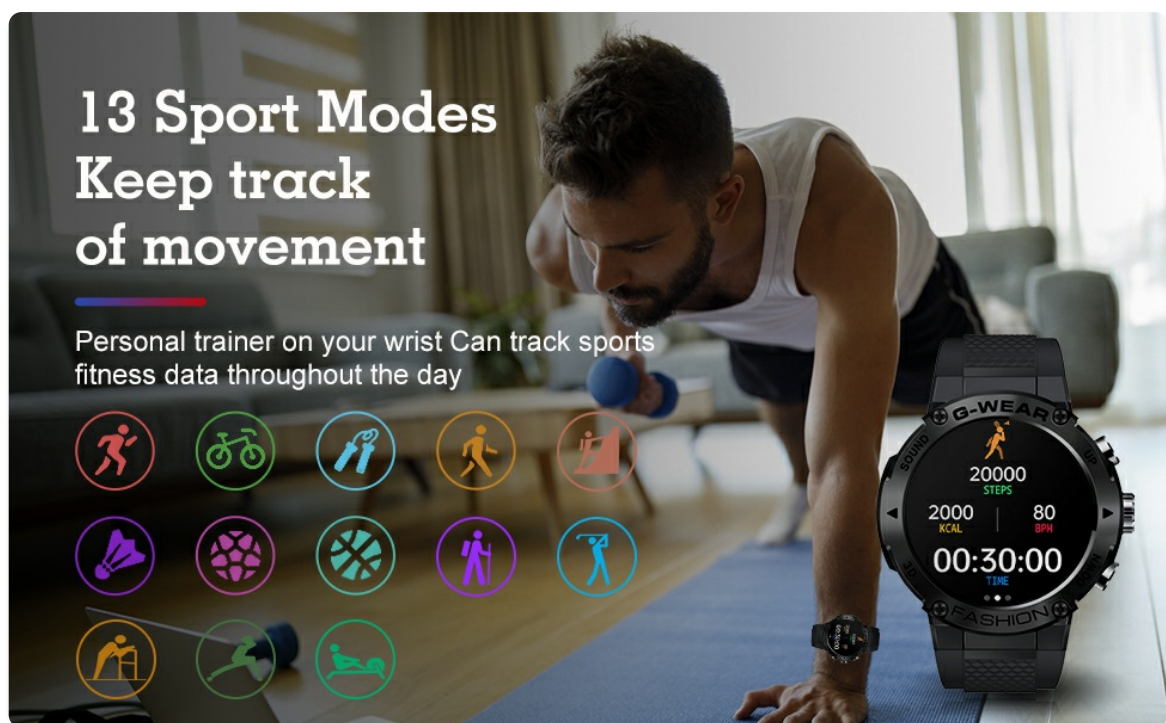

Figure 3.5: 13 Sport Modes (Note: Product specs state 7, image shows 13. Sticking to 7 from specs for consistency).

- **Steps & Calories:** Monitor your daily steps and estimated calorie burn.
- **Breathing Function:** Utilize the new breathing function for guided relaxation exercises.

### 3.4 Additional Smart Features

- **Music Control:** Control music playback on your smartphone directly from your watch.

Figure 3.6: Music Control Feature.

- **Weather Forecast:** Get real-time weather updates directly on your watch.

Figure 3.7: Weather Display.

- **Customizable Watch Faces:** Personalize your watch with over 100 dial customization options available through the Da Fit app.

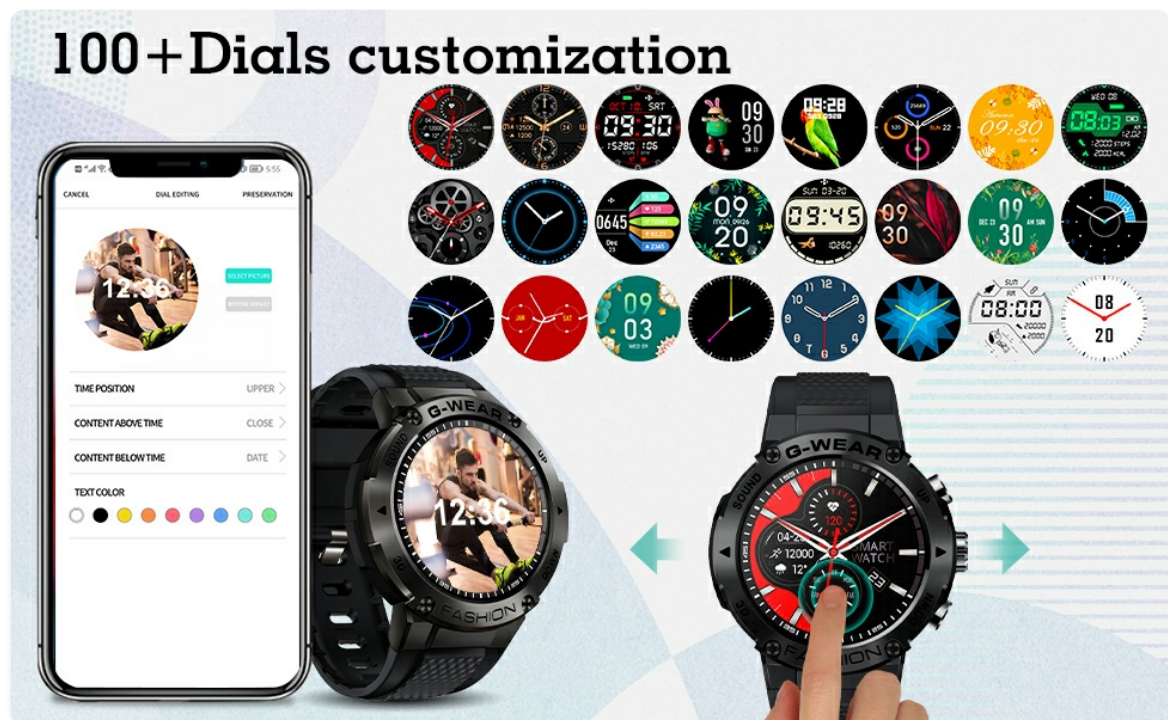

Figure 3.8: Watch Face Customization.

- **Alarm Clock:** Set alarms directly on your watch.

- **Stop Watch:** Use the stopwatch function for timing activities.
- **Remote Camera Control:** Control your smartphone's camera remotely from your watch.
- **Sedentary Reminder:** Receive alerts to remind you to move after periods of inactivity.

## 4. MAINTENANCE AND CARE

---

- **Water Resistance:** The GUCABE Smart Watch is IP67 waterproof. This means it is protected from dust and can withstand immersion in water up to 1 meter for up to 30 minutes. It is suitable for daily use and light water exposure (e.g., hand washing, rain), but not recommended for swimming, diving, or hot showers.
- **Cleaning:** Regularly clean your watch and strap with a soft, dry cloth. If necessary, use a slightly damp cloth and mild soap, then dry thoroughly. Avoid harsh chemicals or abrasive materials.
- **Battery Life:** The watch features a 400 Milliamp Hours (mAh) battery, providing approximately 5-7 days of working time and 15-20 days of standby time depending on usage. Charge the watch using the provided magnetic charging cable.

## 5. TROUBLESHOOTING

---

- **Watch not turning on:** Ensure the watch is fully charged. Connect it to the charger and wait a few minutes before attempting to power it on.
- **Unable to pair with smartphone:**
  - a. Ensure Bluetooth is enabled on your smartphone and the watch.
  - b. Make sure the "Da Fit" app is open and running in the foreground.
  - c. Check that the watch is within Bluetooth range of your phone.
  - d. Restart both your smartphone and the watch, then try pairing again.
  - e. If you have previously paired the watch, try "forgetting" the device in your phone's Bluetooth settings and re-pairing.
- **Call function not working:** Ensure both Bluetooth connections ("K28H" for app data and "K28H\_XXXX" for calls) are active and connected in your phone's Bluetooth settings. Verify "Phone: On" is enabled in the watch's settings.
- **Inaccurate health data:** Ensure the watch is worn snugly on your wrist, not too tight or too loose. Clean the sensor on the back of the watch regularly. Environmental factors and individual physiology can affect readings.
- **Notifications not appearing:** Check app notification settings within the "Da Fit" app and your smartphone's system settings to ensure notifications are enabled for the app and allowed to be pushed to the watch.
