4. SETUP GUIDE

4.1 Initial Placement and Power

1. **Positioning:** Place the projector on a stable, flat surface. Ensure there is adequate ventilation around the unit. The projector can be placed on a table, mounted on a tripod, or ceiling-mounted.
2. **Power Connection:** Connect the power adapter to the projector's power input and then plug it into a wall outlet.
3. **Power On:** Press the power button on the projector or the remote control to turn on the device.

Image: Various placement options for the Vamvo Projector, including tabletop, tripod, and ceiling mounting, demonstrating its versatility.

4.2 Image Adjustment

4. **Focus Adjustment:** Rotate the focus ring on the projector lens until the projected image is clear and sharp.
5. **Keystone Correction:** Use the keystone adjustment dial to correct any trapezoidal distortion in the image, ensuring a rectangular projection. The projector offers manual correction for display sizes from 36" to 210".

5. OPERATING INSTRUCTIONS

5.1 Connecting Devices

The Vamvo Projector offers multiple connectivity options:

- **HDMI:** Connect your laptop, gaming console (PS4/PS5, Xbox), TV Stick, or DVD player via the HDMI ports.
- **USB:** Insert a USB disk to display photos, videos, Excel, text, or PDF files directly.
- **Audio Out:** Connect external speakers for enhanced audio experience.
- **VGA:** Connect older computers or devices using the VGA port.

5.2 Wireless Connection (WiFi & Screen Mirroring)

The projector supports WiFi connection for seamless screen mirroring from your smartphone or tablet.

1. Navigate to the WiFi settings on the projector's main menu.
2. Select your home WiFi network and enter the password.
3. For iOS devices, select 'iOS Cast' or 'AirPlay' from the projector menu and enable Screen Mirroring on your iOS device.
4. For Android devices, select 'Android Cast' from the projector menu and enable 'Wireless Projection' or 'Screen Mirroring' on your Android device.

5.3 Usage Scenarios

The Vamvo Projector is versatile for various applications:

- **Home Theater:** Enjoy movies and TV shows on a large screen.
- **Gaming:** Connect your gaming console for an immersive gaming experience.
- **Outdoor Entertainment:** Perfect for backyard movie nights or camping trips.
- **Business/Education:** Display presentations or documents in small conferences.

Package Dimensions	13.3 x 11.73 x 8.62 inches
Item Model Number	VB2
Color Name	1080P
Special Features	Speakers
Speaker Type	Built-In
Display Resolution	1920 x 1080 (Native)
Connectivity Technology	Wi-Fi
Recommended Uses	Home Cinema

7. TROUBLESHOOTING

Here are some common issues and their solutions:

- **No Image/Signal:**

- Ensure the power cable is securely connected.
- Verify the input source (HDMI, USB, etc.) is correctly selected on the projector.
- Check that the connected device (laptop, TV stick) is powered on and outputting a signal.

- **Blurry Image:**

- Adjust the focus ring on the projector lens until the image is sharp.
- Use the keystone correction dial to ensure the image is rectangular and not distorted.
- Ensure the projection distance is within the recommended range for optimal clarity.

- **No Sound:**

- Check the volume settings on both the projector and the connected device.
- If using external speakers, ensure they are properly connected to the Audio Out port and powered on.

- **WiFi Connection Issues:**

- Ensure the projector is within range of your WiFi router.
- Double-check the WiFi password.
- Restart both the projector and your router.

- **Excessive Fan Noise:**

- Some fan noise is normal for projectors to dissipate heat.
- Ensure the ventilation vents are not blocked.
- Clean any dust accumulation in the vents (refer to Maintenance section).

8. MAINTENANCE

Proper maintenance ensures the longevity and performance of your projector:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners or cloths that could scratch the lens.
- **Cleaning the Projector Body:** Wipe the exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, followed by a dry one.
- **Ventilation:** Regularly check that the air vents are clear of dust and debris to prevent overheating. Use a soft brush or compressed air to gently clean the vents.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, ideally in its original

packaging or a protective case, away from direct sunlight and extreme temperatures.

9. WARRANTY AND SUPPORT

Vamvo provides excellent customer service. If you encounter any product problems or have questions regarding your projector, please feel free to contact our customer support team. Refer to the contact information provided in your product packaging or on the official Vamvo website for assistance.
