Amazfit A2I68

Amazfit GTS 4 Smart Watch User Manual

Model: A2I68

1. PRODUCT OVERVIEW

The Amazfit GTS 4 is a sophisticated smartwatch designed for comprehensive health and fitness tracking, seamless communication, and smart daily assistance. It features a vibrant 1.75" HD AMOLED display and a lightweight, durable aluminum alloy frame.

Figure 1: Amazfit GTS 4 Smart Watch in Misty White with rose gold accents.

Key Features:

- **Strong & Precise GPS Tracking:** Industry-first dual-band circularly-polarized GPS antenna technology for highly accurate positioning.
- **Comprehensive Health Monitoring:** BioTracker 4.0 PPG biometric sensor for accurate 24/7 monitoring of heart rate, blood-oxygen saturation, stress levels, and breathing rate.
- **Smart Assistant Integration:** Built-in Amazon Alexa and offline voice assistant support for hands-free control.
- **Bluetooth Calls & Music Storage:** Make and answer phone calls directly from the watch and store music for offline listening.
- **Advanced Fitness Tracking:** Over 150 sports modes with smart recognition for 8 sports, live sports data

broadcast, and strength training exercise recognition. Water-resistant up to 50 meters for swimming.

- **Vibrant Display & Durable Design:** Ultra-large 1.75" HD AMOLED display with a one-piece aluminum alloy middle frame and gemstone-style stainless steel navigation crown.

2. SETUP

2.1 Initial Pairing via Zepp App

To begin using your Amazfit GTS 4, you must first pair it with your smartphone using the Zepp App. Ensure your watch is charged and your phone's Bluetooth is enabled.

1. Download and open the Zepp App on your smartphone.
2. Navigate to **Profile > My device > +Add > Watch > Watch with QR code**.
3. Scan the QR code displayed on your watch face using your phone's camera.
4. Confirm the pairing request on your watch.

Your browser does not support the video tag.

Video 1: Step-by-step guide on pairing your Amazfit GTS 4 Smartwatch with the Zepp App using a QR code. This video demonstrates navigating the app, scanning the QR code on the watch, and confirming the connection for successful pairing.

2.2 System Update

Keep your watch's software up-to-date for optimal performance and new features. Ensure your watch is close to your phone during the update process.

1. Open the Zepp App.
2. Navigate to **Profile > My device > Amazfit GTS 4 > System Update**.
3. Follow the on-screen prompts to complete the update.

Your browser does not support the video tag.

Video 2: Instructions on how to update the system software of your Amazfit GTS 4 Smartwatch via the Zepp App. The video illustrates the necessary steps within the app to initiate and complete a system update, emphasizing the importance of keeping the watch near the phone.

3. OPERATING INSTRUCTIONS

3.1 Customizing the Watch Face

Personalize your watch by changing its face and displayed functions.

1. Tap and hold the current watch face.
2. Swipe left or right to browse available watch faces.
3. Tap the "Edit" icon (pencil icon) to customize the highlighted area.
4. Swipe up or down to switch the function displayed in the highlighted area.

Your browser does not support the video tag.

Video 3: Demonstrates how to customize the watch face on your Amazfit GTS 4. This includes holding the watch face, swiping to

select different designs, and editing displayed functions by tapping the edit icon and swiping.

3.2 Control Center and Notifications

Access quick settings and view your notifications with simple swipes.

- **Control Center:** Swipe down on the home page to access quick settings like Torch, Do Not Disturb, Theater Mode, Always On Display, Calendar, Volume, Battery, Brightness, Find Phone, Bluetooth, and Settings.
- **View Notifications:** Swipe up on the home page to view incoming notifications from your paired smartphone.

Your browser does not support the video tag.

Video 4: Shows how to access the control center by swiping down and view notifications by swiping up on the Amazfit GTS 4. It highlights various quick settings available in the control center.

3.3 Shortcut Cards

Quickly access frequently used features via customizable shortcut cards.

- **View Cards:** Swipe right on the home page to view your shortcut cards.
- **Set Cards:** To customize shortcut cards, open the Zepp App and go to **Profile > My device > Amazfit GTS 4 > Shortcut Cards > Resident Application Settings**.

Your browser does not support the video tag.

Video 5: Illustrates how to view and set shortcut cards on the Amazfit GTS 4. It shows swiping right on the watch to view cards and navigating the Zepp App to customize them.

3.4 Starting Sports Modes & Workout Detection

The Amazfit GTS 4 supports over 150 sports modes and smart recognition for 8 sports.

- **Start Sports Mode:** Press the crown, tap **Workout**, choose your desired sports mode, and tap **GO**.
- **Workout Detection:** To enable automatic workout detection, go to **Settings > Workout > Workout Detection**. Choose the sport you want the watch to auto-detect.

Your browser does not support the video tag.

Video 6: Explains how to start sports modes and enable workout detection on the Amazfit GTS 4. It demonstrates selecting a sport from the workout menu and configuring auto-detection settings.

4. ZEPP APP USAGE

4.1 Setting Goals

Set personal fitness goals within the Zepp App to track your progress.

1. Open the Zepp App.
2. Go to **Profile > More > My Goals**.
3. Adjust your goals as desired.

Your browser does not support the video tag.

Video 7: Guide on how to set personal goals within the Zepp App for your Amazfit GTS 4. The video illustrates navigating to the 'My Goals' section in the app's profile settings to adjust fitness targets.

4.2 Installing and Uninstalling Zepp App Applications

Manage applications on your watch directly from the Zepp App.

1. Open the Zepp App.
2. Tap **Profile > My device > Amazfit GTS 4 > Store**.
3. Tap "Install" to add an application or tap "Delete" to remove it.

Your browser does not support the video tag.

Video 8: Instructions on how to install and uninstall applications for your Amazfit GTS 4 using the Zepp App's 'Store' feature. The video demonstrates browsing the app store and managing installed applications.

4.3 Transferring Music to the Watch

Store your favorite music directly on your watch for offline listening.

1. Open the Zepp App.
2. Tap **Profile > My device > Amazfit GTS 4 > Music**.
3. Tap "Upload music" and select your desired MP3 files.
4. Connect the watch to your smartphone via Wi-Fi to complete the transfer.

Your browser does not support the video tag.

Video 9: Guide on how to transfer music files to your Amazfit GTS 4 Smartwatch using the Zepp App. The video demonstrates selecting music files for upload and connecting via Wi-Fi for transfer.

4.4 Logging into Amazon Alexa

Enable Alexa on your watch for voice commands and smart assistant features.

1. Open the Zepp App.
2. Go to **Profile > More > Add accounts > Amazon Alexa**.
3. Follow the on-screen instructions to log in with your Amazon account.

Your browser does not support the video tag.

Video 10: Instructions on how to log into your Amazon Alexa account via the Zepp App to enable Alexa functionality on your Amazfit GTS 4. The video guides through the account linking process.

5. HEALTH MONITORING

The Amazfit GTS 4 provides continuous 24/7 health management with its advanced BioTracker 4.0 PPG biometric sensor.

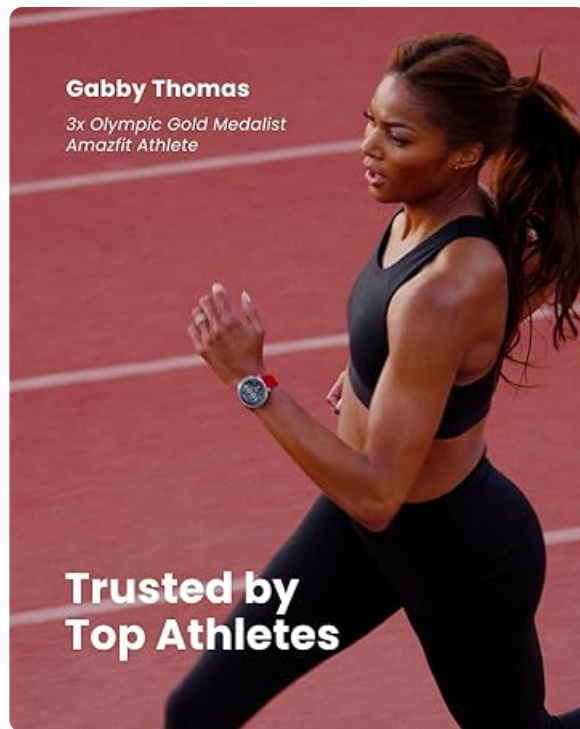

Figure 2: Close-up of the Amazfit GTS 4's BioTracker 4.0 PPG biometric sensor on the back of the watch.

- **Heart Rate Monitoring:** Accurate 24-hour heart rate tracking.
- **Blood-Oxygen Saturation (SpO2):** Continuous monitoring of blood oxygen levels.
- **Stress Level Monitoring:** Tracks your stress levels throughout the day.
- **Breathing Rate Detection:** The watch can detect your breathing rate.
- **One-Tap Measurement:** Quickly measure all four important health metrics (HR, SpO2, Stress, Breathing Rate) in one easy tap.
- **Sleep Quality Monitoring:** Tracks sleep phases (awake, REM, light sleep, deep sleep) and provides a sleep quality score.

Your browser does not support the video tag.

Video 11: Highlights the smart health monitoring features of the Amazfit GTS 4, including 24/7 health tracking, sleep quality monitoring, and the ability to check 4 health metrics in one tap.

6. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Amazfit GTS 4 Smart Watch.

- **Cleaning the Watch:** Regularly wipe the watch face and band with a soft, damp cloth to remove dirt and sweat. For the silicone band, mild soap and water can be used.
- **Cleaning the Sensor:** Keep the BioTracker sensor on the back of the watch clean and dry for accurate readings.
- **Water Expel Mode:** After swimming or exposure to water, use the water expel mode to clear any water from the speaker port. Swipe down from the watch face to access the control center and find the water expel icon.
- **Avoid Harsh Chemicals:** Do not use harsh chemicals, abrasive cleaners, or solvents as they can damage the watch's materials.
- **Storage:** When not in use, store the watch in a cool, dry place away from direct sunlight and extreme temperatures.

7. TROUBLESHOOTING

If you encounter issues with your Amazfit GTS 4, try the following troubleshooting steps.

- **Connectivity Issues:**

- Ensure Bluetooth is enabled on your phone and the watch is within range.
- Restart both your watch and smartphone.
- Try unpairing and re-pairing the watch via the Zepp App **Profile > My device > Amazfit GTS 4 > Unpair**).

- **Battery Draining Quickly:**

- Reduce screen brightness or set it to auto-brightness.
- Disable unnecessary features like Always On Display or continuous heart rate monitoring if not needed 24/7.
- Limit the number of app notifications pushed to the watch.

- **App Functionality Issues:**

- Ensure the Zepp App and watch firmware are updated to the latest versions.
- Try uninstalling and reinstalling the problematic app via the Zepp App Store.

7.1 Submitting Feedback & Finding User ID

If issues persist, you can submit feedback directly through the Zepp App. Providing your User ID can help expedite support.

- **Submit Feedback:** Open the Zepp App, go to **Profile > User feedback**. Select issue type, time, describe the issue, and optionally upload pictures/logs.
- **Find User ID:** Open the Zepp App, go to **Profile**, tap your profile photo on the upper-right corner. Your User ID will be displayed there.

Your browser does not support the video tag.

Video 12: Instructions on how to submit feedback and locate your User ID within the Zepp App for your Amazfit GTS 4. The video demonstrates the steps for reporting issues and finding personal identification for support.

8. SPECIFICATIONS
