HOUSNAT 761736117294

HOUSNAT Professional Countertop Blender User Manual

Model: 761736117294

PRODUCT OVERVIEW

The HOUSNAT Professional Countertop Blender is designed for efficient and versatile blending, featuring a powerful 2200W motor and an intuitive LED display with preset programs. This manual provides essential information for safe operation, maintenance, and troubleshooting.

Image: The HOUSNAT Professional Countertop Blender, showcasing its sleek design and large pitcher filled with fresh fruits, ready for blending. Various blended drinks and fresh produce are arranged around the blender.

Key Features:

- **Smart Program Settings:** 8 preset programs (Smoothie, Vegetables & Fruits, Fruit Puree, Nutri, Ice Cream, Ice & Crush, Clean, Pulse) with 8 adjustable speed levels and an on-screen timer.
- **High Performance:** Max 2200W motor, up to 26,000 rpm/min, with 6 stainless steel blades for efficient blending and nutrient extraction.
- **Dishwasher Safe & Self Cleaning:** BPA-free pitcher and assembly blade are easy to clean and dishwasher safe. Self-cleaning function for quick rinses.
- **Safety Design:** Motor activates only when jar and base are properly connected. Locked lid prevents overflow. Motor temperature control system prevents overheating. BPA-free Tritan jar.
- **Anti-Noise & Large Capacity:** Plastic pad reduces noise. 60 oz (1.75 liters) capacity, ideal for family use.

SAFETY INFORMATION

Please read all instructions carefully before using the blender. Failure to follow these safety guidelines may result in injury or damage to the appliance.

- Always ensure the blender is unplugged before assembling, disassembling, or cleaning.
- Do not immerse the motor base in water or other liquids.
- Keep hands and utensils out of the container while blending to reduce the risk of severe injury to persons or damage to the blender.
- Never blend hot liquids in a sealed container. Hot liquids can expand and cause the lid to eject, resulting in burns.
- Ensure the lid is securely locked in place before operating the blender.
- Do not operate the blender with a damaged cord or plug, or after the appliance malfunctions or has been dropped or damaged in any manner.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Supervise children to ensure they do not play with the appliance.

COMPONENTS

Familiarize yourself with the parts of your HOUSNAT Professional Countertop Blender:

- **Motor Base:** Contains the powerful 2200W motor and control panel.
- **Blender Jar (Pitcher):** 1.75-liter capacity, made from durable, BPA-free Tritan material.
- **Blade Assembly:** Integrated with the jar, features 6 stainless steel blades.
- **Lid:** Securely seals the jar during operation, with a removable cap for adding ingredients.
- **Tamper:** Used to push ingredients towards the blades for thick mixtures.
- **Control Panel:** LED display with power button, program dial, and speed control.

8 Speed Control & Large Capacity

With an 8-speed control for finer and faster blending, this easy-to-use blender makes it easy for your family to enjoy clean, healthy meals

Image: Close-up views illustrating the semi-closed lid design for easy cleaning, the coupler base ensuring proper connection for power, and the anti-slip pad at the bottom of the motor base for stability during operation.

1. **Unpack:** Carefully remove all components from the packaging. Retain packaging for future storage or transport.
2. **Clean Before First Use:** Wash the blender jar, lid, and tamper with warm, soapy water. Rinse thoroughly and dry. The blade assembly is integrated and can be cleaned by running the "Clean" program with water and a drop of detergent.
3. **Place the Motor Base:** Position the motor base on a clean, dry, and stable surface. Ensure the anti-slip pads on the bottom of the base are firmly in contact with the surface.
4. **Assemble the Jar:** Place the blender jar onto the motor base. Ensure it is seated correctly and securely. The blender is designed to operate only when the jar and base are properly connected.
5. **Connect Power:** Plug the power cord into a grounded electrical outlet.

OPERATING INSTRUCTIONS

Your HOUSNAT blender offers both preset programs and manual speed control for optimal blending results.

Dishwasher safe & Self Cleaning

All attachments are BPA free.
The illustrated attachments
are dishwasher-safe

Image: The blender's control panel with an LED display, highlighting the power button, program icons (Smoothie, Veg & Fruit, Puree, Clean, Ice & Crush, Ice Cream, Nutri, Pulse Function), and the speed control dial.

General Operation:

1. **Add Ingredients:** Place ingredients into the blender jar. Do not exceed the maximum fill line (1.75 liters).
2. **Secure Lid:** Place the lid firmly on the jar and ensure it is locked.
3. **Power On:** Press the power button on the control panel. The LED display will illuminate.
4. **Select Program or Speed:**
 - **Preset Programs:** Turn the dial to select one of the 8 preset programs (Smoothie, Vegetables & Fruits, Fruit Puree, Nutri, Ice Cream, Ice & Crush, Clean, Pulse). The display will show the selected program. Press the dial to start the program.
 - **Manual Speed Control:** Turn the dial to adjust the speed from 1 to 8. The display will show the current speed level. Press the dial to start blending at the selected speed. Press again to stop.
5. **Using the Tamper:** For thick mixtures or when ingredients get stuck, remove the lid cap and use the tamper to push ingredients towards the blades. *Never use other utensils.*
6. **Stop Blending:** Press the dial again or the power button to stop the blending process.
7. **Unplug:** Always unplug the blender from the power outlet after use.

Tips for Best Results:

- For smoothies, add liquids first, then soft ingredients, followed by leafy greens, and finally ice or frozen ingredients.
- When blending hard ingredients like ice or nuts, use the "Ice & Crush" or "Pulse" function for short bursts.
- Do not overload the blender. If the motor strains, reduce the amount of ingredients.

CLEANING AND MAINTENANCE

Proper cleaning and maintenance will extend the life of your HOUSNAT blender.

Smoothie Details Comparison

Image: The top image shows the blender jar with water swirling, demonstrating the self-cleaning function. The bottom image shows the blender pitcher and other components placed in a dishwasher rack, indicating they are dishwasher safe.

Self-Cleaning Function:

1. After use, add 1/4 of the jar's capacity with warm water and a drop of dish soap.
2. Secure the lid.
3. Select the "Clean" program or use the "Pulse" function for 30-60 seconds.
4. Empty the jar and rinse thoroughly with clean water.

Manual Cleaning:

- **Blender Jar and Lid:** All attachments are BPA-free and dishwasher-safe (top rack recommended). For manual cleaning, wash with warm, soapy water and a non-abrasive sponge. Rinse well.
- **Motor Base:** Wipe the motor base with a damp cloth. *Never immerse the motor base in water.*
- **Blades:** Exercise extreme caution when cleaning the blades as they are very sharp. Use a brush if necessary to reach all areas.
- **Storage:** Store the blender in a clean, dry place. Ensure the jar is completely dry before storing to prevent odors.

TROUBLESHOOTING

If you encounter issues with your blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; Jar not properly seated on base; Overheat protection activated.	Ensure power cord is securely plugged in. Check if the jar is correctly aligned and locked onto the motor base. Unplug and let the motor cool down for 15-30 minutes if it was recently used heavily.
Ingredients are not blending smoothly.	Too little liquid; Too many ingredients; Ingredients are too large or hard.	Add more liquid. Reduce the amount of ingredients. Cut large ingredients into smaller pieces. Use the tamper to push ingredients towards the blades. Increase speed or use a pulse function.
Loud noise or burning smell.	Overload; Motor overheating; Foreign object in jar.	Immediately turn off and unplug. Reduce ingredients. Allow motor to cool. Check for any foreign objects in the jar or around the blades. If the smell persists after cooling, contact customer support.
Lid leaks during blending.	Lid not properly secured; Jar overfilled.	Ensure the lid is firmly pressed down and locked into place. Do not fill the jar above the maximum fill line.

SPECIFICATIONS

Feature	Detail
Brand	HOUSNAT
Model Number	761736117294
Power/Wattage	2200 watts (Max)
Voltage	120 Volts

Feature	Detail
Capacity	1.75 liters (60 oz)
Material	Plastic (BPA-free Tritan for jar)
Number of Speeds	8 adjustable speeds
Special Features	Temperature Control, Non Stick Coating (referring to ease of cleaning), LED Display, 8 Preset Programs
Product Dimensions	35 x 29.99 x 19.98 cm
Item Weight	4.08 kg
