4. Maintenance

4.1 Cleaning Your Laptop

Regular cleaning helps maintain your laptop's appearance and performance.

- Use a soft, lint-free cloth dampened with water or a screen cleaner to clean the display.
- Use compressed air to clear dust from keyboard keys and ventilation grilles.
- Wipe the chassis with a soft, slightly damp cloth. Avoid harsh chemicals.

4.2 Software Updates

Keep your operating system, drivers (especially graphics drivers), and MSI software (like MSI Center) updated to ensure system stability, security, and optimal performance.

4.3 Battery Care

To prolong battery life:

- Avoid fully discharging the battery frequently.
- Store the laptop in a cool, dry place if not used for extended periods.
- Calibrate the battery periodically as recommended by MSI.

5. Troubleshooting

If you encounter issues with your MSI Katana GF66, consider the following basic troubleshooting steps:

- **No Power:** Ensure the AC adapter is securely connected to both the laptop and a working power outlet. Check if the power indicator light is on.
- **Display Issues:** If the screen is blank, try connecting an external monitor to verify if the issue is with the laptop's display or graphics output. Ensure display drivers are installed correctly.
- **Performance Slowdown:** Check for background applications consuming resources. Ensure sufficient free storage space. Run a virus scan.
- **Connectivity Problems:** For Wi-Fi or Ethernet issues, check network cable connections or Wi-Fi settings. Restart your router.

For more complex issues or persistent problems, please refer to the MSI support website or contact MSI customer service.
