

POIIOPY P-510

POIIOPY P-510 Citronella Dog Collar with Remote User Manual

Model: P-510

1. SAFETY INFORMATION

- This collar is suggested for dogs over 6 months and over 12 lbs.
- Not recommended for aggressive dogs or dogs with impaired sense of smell.
- The collar operates only with the remote control; it does not activate automatically in response to dog barking.
- The receiver collar is IPX5 daily waterproof, suitable for light rain or wet grass exposure. It is **not** designed for use when the dog is swimming or submerged in water. The remote control is **not** waterproof.
- Store the product in a dry place, away from high temperatures, fire, and prolonged direct sunlight. Prevent dog chewing on the device.

2. PACKAGE CONTENTS

The POIIOPY P-510 Citronella Dog Collar package includes the following components:

- 1 x Receiver Collar
- 1 x Remote Control
- 1 x Can of Citronella Spray Refill
- 1 x USB Charging Cable
- 1 x User Manual

4. SETUP

4.1 Charging the Devices

Both the receiver collar and the remote control are equipped with built-in rechargeable lithium-ion batteries.

- Fully charge both devices for approximately 2 hours before initial use.
- A full charge provides up to 15 days of use for the receiver and up to 27 days for the remote.
- The collar features a red light indicator that flashes when the battery is low.

USB CHARGING DESIGN

4.2 Filling the Citronella Spray

The collar requires citronella spray to function in spray mode. Follow these steps to refill:

1. Turn off the collar.
2. Place the collar on a flat surface with the refill port facing upwards.
3. Hold the citronella spray can upright.
4. Vigorously and firmly press the nozzle of the spray can down into the collar's inflation valve (refill port) for 15 seconds until you feel a sinking sensation.
5. Release and repeat if necessary to ensure a full refill. The tank holds 25-35 sprays per refill.

4.3 Fitting the Collar

Proper fit is essential for the collar's effectiveness and your dog's comfort.

- Place the receiver collar on the middle of your dog's neck.
- Ensure the spray nozzle is positioned towards your dog's nose.
- Adjust the strap so it is snug but not too tight or too loose. You should be able to fit two fingers comfortably between the collar and your dog's neck.
- For dogs with long fur, trim the fur along the spray path to ensure effective spray range.
- The adjustable strap fits neck sizes from 10 to 30 inches, suitable for small, medium, and large dogs over 8 lbs.

SUITABLE FOR DOGS OF ALL SIZES

5. OPERATING INSTRUCTIONS

5.1 Training Modes

The POIIOPY P-510 offers three distinct training modes to address various behavioral needs:

- **Citronella Spray + Beep:** Emits a burst of citronella spray along with an audible beep. There are two adjustable spray levels (High and Low).
- **Vibration + Beep:** Provides a vibration sensation combined with an audible beep. The vibration

and beep volume are not adjustable.

- **Only Beep:** Produces only an audible beep. The beep volume is not adjustable.

Figure 5.1: The three training modes of the collar.

5.2 Remote Control Usage

The remote control allows you to activate the training modes from a distance.

- The remote has a range of up to 1000 feet (approximately 330 yards).
- Use the dedicated buttons on the remote to select and activate the desired training mode.
- If you have multiple collars (e.g., for two dogs), use the channel switch (Dog1 or Dog2) on the remote to select which collar to control.

Remote Control Range: About 1000 ft / 330 yards

Note: it can only be used with the remote, can not work automatically when dog barks!

Video 5.1: This video demonstrates the unboxing, setup, and practical use of the POIIOPIY Citronella Dog Collar, including how to fill the spray and activate the different training modes with the remote control.

6. MAINTENANCE

- Keep the collar and remote in a dry place when not in use.
- Avoid exposing the devices to high temperatures, fire, or prolonged direct sunlight.
- The receiver collar is IPX5 daily waterproof, meaning it can withstand light rain or wet grass. Do not immerse it in water or allow your dog to swim with it on. The remote is not waterproof.
- Clean the spray valve periodically to prevent blockages. If the spray function is not working, try gently poking the spray valve with a needle and wiping it with a dry cloth.

Figure 6.1: IPX5 Daily Waterproof rating for the collar.

7. TROUBLESHOOTING

If you encounter issues with your POIOPY P-510 Citronella Dog Collar, refer to the following common problems and solutions:

- 1. Collar not working automatically when dog barks:** This collar is designed to work only with the remote. It does not react automatically to barking. You must press the remote button to activate its functions.
- 2. Spray function not working, but Beep and Vibration work:** The collar may be low on citronella spray. Ensure you correctly fill the citronella spray from the inflation valve (not the spray valve) before each use.
- 3. All functions not working:**
 - Check if the collar and remote control are sufficiently charged.
 - Ensure the collar and remote are correctly paired. Refer to the pairing instructions in the full user manual if needed.
 - Verify that the remote is switched to the correct channel (Dog1 or Dog2) corresponding to the paired collar.

4. **Spray valve blocked:** If the spray function remains unresponsive after refilling, the spray valve might be blocked. Gently use a needle or slender object to poke the spray valve, then wipe it with a dry cloth to clear any obstruction.

8. SPECIFICATIONS

Feature	Detail
Model Number	P-510
Brand	POIIOPY
Training Modes	Citronella Spray + Beep, Vibration + Beep, Only Beep
Spray Levels	2 adjustable (High, Low)
Remote Range	Up to 1000 ft (330 yards)
