Fanttik Slim V8 Mate Cordless Car Vacuum User Manual

Model: V8 Mate | Brand: Fanttik

INTRODUCTION

The Fanttik Slim V8 Mate is a compact, ultra-lightweight cordless car vacuum, weighing only 1.2lbs (540g), making it highly portable and easy to handle with one hand. It is specifically designed for detailed cleaning of car interiors, office desks, and computer keyboards, effectively picking up stubborn sand, dust, and debris. Its powerful brushless motor provides 30AW/12kPa suction, ensuring thorough cleaning in hard-to-reach corners.

SETUP AND ASSEMBLY

Attaching Accessories

The Fanttik Slim V8 Mate comes with a variety of practical accessories designed for different cleaning needs. To attach an accessory, simply align it with the vacuum's suction port and push firmly until it clicks into place.

- **Crevice Nozzle:** Ideal for narrow gaps and hard-to-reach areas.
- **Multi-surface Brush:** Suitable for carpets and picking up pet hair on fabric surfaces.
- **Push-in Brush:** Use for cleaning stubborn dust from crevices.
- **Flexible Hose:** Provides extended reach for awkward angles, such as under seats or in tight trunk spaces.

CHARGING THE DEVICE

The Fanttik Slim V8 Mate features USB-C fast charging, allowing you to charge it conveniently anytime, anywhere. A full charge can be achieved in as fast as 2 hours.

- Connect the provided Type-C charging cable to the vacuum's charging port.
- Plug the other end of the cable into a compatible USB power adapter (not included).
- The marquee ring light on the vacuum will indicate the charging status.
- A fully charged state is indicated by the light.

OPERATING INSTRUCTIONS

Powering On/Off and Suction Modes

The Fanttik Slim V8 Mate offers two suction modes to suit different cleaning intensities:

- **To Power On:** Press the power button once. The vacuum will start in Eco Mode (approx. 30 minutes runtime).
- **To Switch to High Speed Mode:** Press the power button a second time. This mode provides maximum suction (approx. 12 minutes runtime).
- **To Power Off:** Press the power button a third time.

MAINTENANCE AND CARE

Emptying the Dust Cup

To maintain optimal suction and hygiene, empty the dust cup regularly. The dust cup has a 120ml capacity.

1. Ensure the vacuum is powered off.
2. Locate the dust cup release button/lever (yellow tab) near the suction port.
3. Press the release button and gently pull the dust cup away from the main body.
4. Hold the dust cup over a trash receptacle and open the bottom flap to empty debris.

Cleaning and Replacing Filters

The Fanttik Slim V8 Mate features a dual-layer filtration system, including a fine steel filter and a HEPA filter, designed to filter out 99.95% of particles. Both filters are washable for longer service life.

1. After emptying the dust cup, carefully remove the internal filters.
2. Rinse the fine steel filter and HEPA filter under running water until clean.
3. Allow both filters to air dry completely before reinserting them into the dust cup. Ensure they are fully dry to prevent mold or damage.
4. Replace the filters regularly for best performance.

Suction Power

The Fanttik Slim V8 Mate is equipped with a brushless motor that delivers a powerful suction of 30AW/12kPa. This advanced motor technology provides significant advantages:

- **Weight:** 45% lighter compared to brushed motors.
- **Motor Life:** 10 times longer lifespan compared to brushed motors.
- **Suction Level:** 2 times stronger suction compared to brushed motors.
- **Air Watt:** 1.5 times higher air watt compared to brushed motors.
- **Rotation Speed:** 3.5 times faster rotation speed compared to brushed motors.

TROUBLESHOOTING

Common Issues

- **Low Suction Power:**

- Check if the dust cup is full and needs emptying.
- Ensure filters are clean and properly installed. Wash and dry filters if necessary.
- Verify that the suction port or any attached nozzle is not blocked by large debris.
- Ensure the battery is sufficiently charged.

- **Battery Not Charging:**

- Confirm the Type-C charging cable is securely connected to both the vacuum and the power adapter.
- Try a different USB power adapter or charging port to rule out issues with the power source.
- Ensure the charging port on the vacuum is free of debris.

- **Vacuum Not Turning On:**

- Check if the battery is completely drained. Charge the vacuum for at least 30 minutes before attempting to power on.
- Ensure the power button is pressed firmly.

WARRANTY AND SUPPORT

Fanttik products are manufactured to high-quality standards. For warranty information, technical support, or any product-related inquiries, please refer to the Quick Start Guide included in your package or visit the official Fanttik website. Our customer service team is dedicated to assisting you with any concerns.
