Gevi GV9002

Gevi 4-in-1 Smart Coffee Maker GV9002 Instruction Manual

Model: GV9002

1. INTRODUCTION

Thank you for purchasing the Gevi 4-in-1 Smart Coffee Maker, Model GV9002. This innovative appliance combines a coffee grinder, digital scale, temperature-controlled kettle, and automatic brewer into a single unit, designed to provide a professional-level coffee brewing experience. Please read this manual thoroughly before use to ensure safe operation and optimal performance.

2. IMPORTANT SAFETY INSTRUCTIONS

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before operating the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against fire, electric shock, and injury to persons, do not immerse cord, plugs, or the appliance in water or other liquid.
- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts, and before cleaning the appliance.
- Do not operate any appliance with a damaged cord or plug or after the appliance malfunctions, or has been damaged in any manner. Return appliance to the nearest authorized service facility for examination, repair, or adjustment.
- The use of accessory attachments not recommended by the appliance manufacturer may result in fire, electric shock, or injury to persons.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off," then remove plug from wall outlet.
- Do not use appliance for other than intended use.

3. PRODUCT COMPONENTS

The Gevi 4-in-1 Smart Coffee Maker consists of several integrated parts:

- Main Unit (Base with controls)
- Water Tank
- Bean Hopper
- Integrated Grinder (Flat cutter type)
- Filter Holder
- Glass Carafe
- Digital Scale (Integrated into the base)
- Kettle (Integrated, 850ml capacity)
- Dripper

4. INITIAL SETUP

4.1 Unpacking

1. Carefully remove all components from the packaging.

2. Retain packaging materials for future storage or transport.
3. Check that all listed components are present and undamaged.

4.2 Placement

Place the coffee maker on a stable, flat, heat-resistant surface, away from water sources and direct heat. Ensure adequate ventilation around the unit.

4.3 Initial Cleaning

Before first use, clean all removable parts (hopper, hopper lid, carafe, filter, dripper) with a neutral detergent and a soft sponge. Rinse thoroughly and dry completely. Wipe the exterior of the main unit with a slightly damp cloth.

4.4 Assembly

1. Place the main unit on a stable surface.
2. Attach the water tank and bean hopper securely.
3. Insert the filter holder and place the glass carafe on the heating plate.

5. OPERATING INSTRUCTIONS

5.1 Power On/Off

To power on the device, long-press the power button (usually indicated by a circle with a vertical line). Long-press again to power off.

5.2 Grinder Function

The integrated flat cutter grinder offers 51 levels of fineness adjustment, allowing you to customize the grind for various brewing methods, from French Press to Espresso.

Figure 2: Grinder settings display, showing 51 levels of fineness for various coffee types.

5.3 Digital Scale Function

The integrated digital scale can measure coffee beans or grounds with an accuracy of 0.1g, up to a maximum of 2kg. This allows for precise coffee-to-water ratios.

Figure 3: Digital scale in use, displaying precise weight measurements for coffee beans.

5.4 Kettle Function

The integrated kettle has an 850ml capacity and allows for temperature adjustment from 40°C to 99°C in 1-degree increments. It can also be used independently for other hot water needs.

Figure 4: Kettle temperature setting display, showing precise temperature control.

5.5 Brewer Function

The brewer features three 2.8mm diameter spouts that automatically rotate 360 degrees to ensure even water distribution over the coffee grounds for optimal extraction.

Figure 5: Automatic brewing process with 360-degree water pouring.

5.6 Brewing Modes

The coffee maker offers three distinct brewing modes:

- **Simple Recipe (Automatic Mode):** Follows a pre-set 3-step process for quick and easy brewing.
- **My Recipe (Custom Mode):** Allows users to set preferred extraction rate, pouring speed, and pre-infusion time.
- **Barista Mode:** Provides full customization over all brewing parameters, including coffee bean grind, water temperature, pouring speed, rotation speed, and pre-infusion time.

5.7 Cup Selection

You can select to brew 1 to 4 cups of coffee using the dedicated cup selection button on the control panel.

5.8 Keep Warm Function

The coffee maker includes a keep warm function to maintain your brewed coffee at an optimal temperature after brewing.

5.9 Wi-Fi Connectivity

The device supports Wi-Fi connectivity, allowing it to connect with a mobile application for additional features, such as accessing and saving custom recipes.

6. MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and optimal performance of your coffee maker.

6.1 Daily Cleaning

- After each use, clean the hopper, hopper lid, carafe, filter, and dripper using a neutral dishwashing detergent

and a soft sponge.

- Rinse all parts thoroughly with clean water and allow them to dry completely before reassembling.
- Wipe the exterior of the main unit with a slightly damp cloth. Do not immerse the main unit in water.

6.2 Clean Function

The coffee maker features a dedicated 'Clean' function for internal cleaning. Refer to the on-screen prompts or the mobile application for detailed instructions on using this function.

7. TROUBLESHOOTING

If you encounter any issues with your Gevi 4-in-1 Smart Coffee Maker, please refer to the following common problems and solutions:

- **Appliance does not power on:** Ensure the power cord is securely plugged into a working electrical outlet. Check if the power button has been long-pressed to activate the unit.
- **Coffee is not brewing:** Verify that the water tank is filled to the appropriate level and the carafe is correctly placed on the heating plate. Ensure a brewing mode has been selected and the start button pressed.
- **Grinder is not working:** Check if the bean hopper contains coffee beans and is properly seated. Ensure no foreign objects are obstructing the grinder.
- **Water is not heating:** Confirm that the kettle is properly placed and the desired temperature is set.

For issues not covered here, please contact customer support.
