2. SAFETY INFORMATION

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

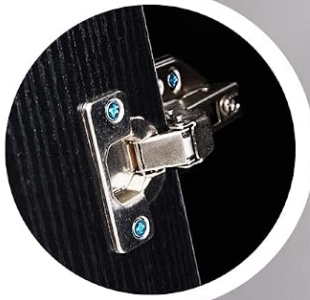

- **Anti-Tip Device:** This cabinet is designed to be top-heavy. It is crucial to install the included anti-tip device to securely anchor the cabinet to the wall. This prevents accidental tipping, which can cause serious injury.
- **Weight Capacity:** Do not exceed the maximum load capacity of 22 pounds per shelf. Overloading shelves can compromise the stability of the unit.
- **Assembly:** Ensure all parts are correctly assembled and fasteners are tightened according to the assembly instructions. Loose connections can lead to instability.
- **Placement:** Place the cabinet on a level surface. If the floor is uneven, use shims if necessary, but always prioritize anchoring the unit to the wall.
- **Children and Pets:** Keep children and pets away from the unit during assembly. Do not allow children to climb on
