Xflyee 099

Xflyee 18" Large Digital Wall Clock with Remote Control

Model: 099

Introduction What's in the Box Setup Operating Instructions Specifications Maintenance Troubleshooting Warranty & Support

1. Introduction

Thank you for purchasing the Xflyee 18" Large Digital Wall Clock. This manual provides detailed instructions for setting up and operating your new clock. Featuring a large LED display, remote control, and multiple functions including time, date, temperature, humidity, alarm, and timer, this clock is designed for clear visibility and ease of use in various environments.

2. What's in the Box

- Xflyee 18" Large Digital Wall Clock (Basic Model)
- Remote Control (with 2*AAA batteries included)
- Power Adapter and Power Cord
- Mounting Template
- Instruction Manual

3. Setup

3.1 Power Connection

Connect the provided power adapter and power cord to the clock's power input port. Plug the adapter into a standard AC outlet. The clock is designed for plug-in use and does not operate solely on batteries for display. The included AAA batteries are for memory function only.

3.2 Memory Function Battery Installation

The clock includes 2*AAA batteries for its memory function. These batteries ensure that time and alarm settings are retained even if the power supply is unexpectedly interrupted. To install or replace the batteries:

1. Locate the battery compartment on the back of the clock.
2. Open the battery compartment cover.
3. Insert 2*AAA batteries, ensuring correct polarity (+/-).
4. Close the battery compartment cover.

3.3 Mounting Options

The clock offers both wall-mounting and desktop placement options.

3.3.1 Wall Mounting

Use the provided mounting template to mark the positions for screws on your wall. Ensure the clock is level before drilling. The clock has two hanging holes on the back for secure wall placement.

Image: The Xflyee 18" Large Digital Wall Clock mounted on a wall, displaying time, date, temperature, and humidity. A remote control is shown in the foreground.

3.3.2 Desktop Placement

The clock features a folding stand on its back, allowing it to be placed upright on a desk or table.

4. Operating Instructions

The clock can be operated using either the included remote control or the manual buttons located on the side of the unit.

4.1 Remote Control Functions

Image: Close-up of the remote control for the Xflyee digital clock, detailing buttons for On/Off, Set, Alarm Set, Timer, Temperature/Fahrenheit toggle, 12/24HR, HR, MIN, SEC, Timer Reset, and brightness adjustment.

- **ON/OFF:** Turns the display on or off.
- **SET:** Enters setting mode for time, date, and other parameters. Use +/- buttons to adjust values.
- **ALARM SET:** Enters alarm setting mode.
- **TIMER ST/SP:** Starts/stops the timer.
- **TIMER RESET:** Resets the timer to zero.
- **°C/°F:** Toggles between Celsius and Fahrenheit for temperature display.
- **12-24HR:** Switches between 12-hour and 24-hour time formats.
- **V+/V-:** Adjusts alarm volume.
- **Brightness +/-:** Manually adjusts display brightness.

4.2 Time and Date Setting

The clock can automatically set time and date when connected to Wi-Fi (if applicable to your model) or manually using the remote control.

1. Press the **SET** button on the remote.

2. The year will start flashing. Use the **+/-** buttons to adjust the year. Press **SET** to confirm.
3. Repeat for month, day, hour, and minute.
4. Press **SET** again to exit the setting mode.

4.3 Auto-Dimming and Brightness Adjustment

The clock features a built-in sensitive light sensor that automatically adjusts display brightness based on ambient light. It also offers manual brightness control.

- **Automatic Adjustment:** Use the switch on the back of the clock to select 'Auto' for automatic brightness adjustment.
- **Manual Adjustment:** Use the **Brightness +/-** buttons on the remote control to cycle through 4 levels of brightness or turn the display completely off.

Image: The Xflyee 18" Large Digital Wall Clock demonstrating four adjustable brightness levels (Lv.1 to Lv.4) and an OFF state. The auto-dimming switch on the back is also indicated.

4.4 Daylight Saving Time (DST) Function

When the Auto DST function is enabled, the clock automatically adjusts the time one hour forward or backward as required by Daylight Saving Time, eliminating the need for manual adjustments.

Image: The Xflyee 18" Large Digital Wall Clock displaying the DST function, illustrating how the time automatically adjusts for Daylight Saving Time (Fall Back and Spring Forward).

4.5 Alarm Settings

The clock supports multiple alarm settings.

1. Press the **ALARM SET** button on the remote.
2. Use the **+/-** buttons to set the desired alarm time (hour and minute).
3. Press **ALARM SET** again to select the alarm mode (e.g., Everyday, Working Day, Weekend).
4. Press **ALARM SET** one more time to activate or deactivate the alarm.

4.6 Timer Function

The clock includes a versatile timer function that can operate as a stopwatch (count-up) or a countdown timer.

1. Press the **ENTER EXIT TIMER** button on the remote to switch to timer mode.
2. To set a countdown: Use **HR**, **MIN**, **SEC** buttons and **+/-** to set the desired countdown duration. Press **TIMER ST/SP** to start.

3. To use as a stopwatch: Ensure the timer is at 0:00. Press**TIMER ST/SP** to start counting up.
4. Press **TIMER ST/SP** to pause/resume the timer.
5. Press **TIMER RESET** to clear the timer.

5. Specifications

Feature	Detail
Brand	Xflyee
Model Number	099
Display Type	Digital
Screen Size	18 Inches
Product Dimensions	16.9"W x 7"H
Item Weight	2.78 Pounds
Power Source	Corded Electric
Batteries Included	2 AAA batteries (for memory function)
Mounting Type	Wall Mount
Special Features	Alarm, Auto Dimmable, Calendar Display, Large Display, Temperature/Humidity Display

6. Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the display and casing. Avoid abrasive cleaners or solvents.
- **Placement:** Place the clock in a dry environment, away from direct sunlight or extreme temperatures, to ensure optimal performance and longevity.
- **Battery Replacement:** Replace the AAA memory batteries annually or if you notice settings are not retained during

power outages.

7. Troubleshooting

- **Display is Off:** Ensure the power cord is securely plugged into the clock and a working power outlet. Check if the display was manually turned off using the remote.
- **Settings Not Retained:** Verify that the 2*AAA memory batteries are correctly installed and are not depleted. Replace if necessary.
- **Remote Control Not Working:** Check if the remote's battery is functional. Ensure there are no obstructions between the remote and the clock's sensor.
- **Incorrect Time/Date:** Manually set the time and date using the remote control as described in section 4.2. If your model supports Wi-Fi, ensure it's connected for automatic updates.
- **Temperature/Humidity Inaccurate:** Ensure the clock is placed in an area with good air circulation, away from direct heat sources or vents that might affect sensor readings.

8. Warranty & Support

This Xflyee Digital Wall Clock comes with a **3-Year Warranty**.
