Maintenance

To ensure the longevity and optimal performance of your Yindiao T8 keyboard, follow these maintenance guidelines:

- **Regular Cleaning:** Use a soft brush or compressed air to remove dust and debris from between the keycaps.
- **Keycap Cleaning:** For deeper cleaning, carefully remove keycaps using a keycap puller (not included) and wipe them with a damp cloth. Ensure keycaps are completely dry before reattaching.
- **Cable Care:** Avoid sharp bends or excessive pulling on the coiled cable to prevent damage.
- **Avoid Liquids:** Do not expose the keyboard to liquids. In case of spills, immediately disconnect the keyboard and allow it to dry completely before reconnecting.

Troubleshooting

If you encounter issues with your Yindiao T8 keyboard, refer to the following common problems and solutions:

- **Keyboard Not Responding:**
 - Ensure the USB-C cable is securely connected to both the keyboard and your device.
 - Try connecting the keyboard to a different USB port on your device.
 - Test the keyboard on another computer to rule out device-specific issues.
- **Backlight Not Working or Incorrect:**
 - Press Fn + \| to ensure the backlight is turned on.
 - Use Fn + ↑ / ↓ to adjust brightness.
 - Use Fn + Tab to cycle through different backlight modes.
- **Keys Not Registering or Double-Typing:**
 - Clean under the affected keycap to remove any debris that might be interfering with the switch.
 - If the issue persists, contact customer support.
