Peteme 4L Smart Automatic Pet Feeder

Peteme 4L Smart Automatic Pet Feeder User Manual

Model: 4L Smart Automatic Pet Feeder

INTRODUCTION

Thank you for choosing the Peteme 4L Smart Automatic Pet Feeder. This device is designed to provide scheduled and portion-controlled meals for your cats, dogs, and other small pets, ensuring they receive adequate nutrition even when you are away. This manual provides detailed instructions for setup, operation, maintenance, and troubleshooting to help you get the most out of your new pet feeder.

PRODUCT OVERVIEW

The Peteme Smart Pet Feeder features APP control, a 4L food capacity, Wi-Fi connectivity, voice recording, feeding schedules, and dual power options (battery and plug-in).

SETUP

1. Unboxing and Component Check

Carefully remove all components from the packaging. Ensure you have the Automatic Cat Feeder unit, the 4L container, and the power adapter.

2. Power Supply

The feeder can be powered by the included adapter or by 3D-type batteries (not included). Using both ensures continuous operation in case of a power outage.

- **Adapter Power:** Connect the power adapter to the feeder's power port and plug it into a wall outlet.
- **Battery Power:** Open the battery compartment at the bottom of the feeder and insert 3D-type batteries.

Dual Power Mode

Powered by battery(3D-type) or dc cable.
Stay online forever,Reduce your worries

Image: Illustration of the dual power mode, showing both DC cable and battery installation.

3. Wi-Fi Connection

The feeder requires a 2.4GHz Wi-Fi network for APP control. 5GHz networks are not supported. Refer to the APP instructions for detailed pairing steps.

4. Filling the Food Container

- Remove the lid of the 4L food container.
- Pour dry pet food into the container. The feeder supports kibble sizes between 2-10mm.
- Replace the lid securely to maintain food freshness. The translucent slot allows you to monitor food levels.

5. Placement

Place the pet feeder on a stable, flat surface. For optimal stability, consider placing it in a corner to prevent accidental tipping.

OPERATING INSTRUCTIONS

1. APP Control

The Peteme Smart Life APP allows you to remotely control the feeder, set feeding schedules, and adjust portion sizes.

- **Scheduling:** Set up to 6 meals daily at specific times.
- **Portion Control:** Each meal can be set from 1 to 10 portions, with each portion being approximately 8-10 grams.
- **Manual Feeding:** Dispense food instantly via the APP when needed.

2. Voice Recording

Record a 10-second voice message that will play before each meal. This feature helps to call your pet to eat and provides a familiar sound when you are not present.

Record 10s Message for Your Pets Before Meals

Hey Pobby,
It's meal time~

MAINTENANCE

1. Cleaning

Regular cleaning is essential for hygiene and proper functioning.

- All parts of the feeder, except the main host unit (which contains electronics), can be disassembled and rinsed with water.
- Ensure all washed parts are completely wiped dry before reassembly to prevent moisture damage.
- Do not immerse the main host unit in water. Clean it with a damp cloth only.

2. Food Freshness

The sealed design of the 4L container helps keep dry food fresh and prevents moisture and pests. Always ensure the lid is properly closed after refilling.

TROUBLESHOOTING

- **Feeder Not Connecting to APP:** Ensure your Wi-Fi network is 2.4GHz. 5GHz networks are not supported.

Check that the feeder is within range of your Wi-Fi router. Restart both the feeder and your router if connection issues persist.

- **Food Not Dispensing:**

- Check if the food container is empty.
- Ensure the kibble size is between 2-10mm. Larger kibble may cause blockages.
- Inspect the dispensing chute for any obstructions or jammed food. Clean if necessary.
- Verify that the feeding schedule is correctly set in the APP.

- **Power Issues:**

- If using adapter power, ensure the adapter is securely plugged into both the feeder and the wall outlet.
- If using battery power, check if the batteries are correctly inserted and have sufficient charge. Replace old batteries if needed.

- **Feeder Tipping Over:** Ensure the feeder is placed on a stable, flat surface. Consider placing it in a corner to enhance stability.

- **Food Spilling from Bowl:** Ensure the pet food bowl is properly attached and not overfilled. Adjust portion sizes if spillage is frequent.

SPECIFICATIONS
