SETUP AND INITIAL USE

Upon receiving your Sombrero Calentano, carefully remove it from its packaging. The hat is designed to be worn directly. Ensure it fits comfortably on your head. The soft rigidity allows for a degree of flexibility, adapting to your head shape over time.

USAGE GUIDELINES

This Sombrero Calentano is intended for general outdoor and casual wear. Its design provides sun protection and adds a traditional aesthetic to your attire. Handle the hat by its brim or crown to maintain its shape.

MAINTENANCE AND CARE

Proper care is essential to preserve the quality and appearance of your genuine palm hat:

- **Cleaning:** This hat requires **dry cleaning only**. Do not wash with water or use liquid cleaning agents, as this can damage the natural palm fibers and alter the hat's shape.
- **Storage:** Store the hat in a cool, dry place away from direct sunlight. Ideally, place it on a hat stand or in a hat box to help maintain its original shape. Avoid stacking heavy objects on top of it.
- **Handling:** Always handle the hat by the brim or the crown. Avoid pinching the crown excessively, as this can lead to creasing or damage over time.
- **Moisture:** If the hat gets wet, gently blot it with a clean, dry cloth. Allow it to air dry naturally at room temperature, away from direct heat sources. Do not attempt to reshape it while wet.

TROUBLESHOOTING

While the Sombrero Calentano is durable, minor issues can occur. Here are some common concerns and solutions:

- **Hat loses shape:** If the hat becomes slightly misshapen, gently try to reform it by hand. For significant deformation, professional hat reshaping services are recommended. Avoid applying excessive force.
- **Stains:** For minor surface dirt, a soft, dry brush can be used to gently remove particles. For deeper stains, consult a

professional dry cleaner experienced with natural fiber hats.

- **Fading:** Prolonged exposure to direct sunlight can cause natural materials to fade. Store the hat away from direct sunlight when not in use to minimize fading.
