Alliget 2 in 1 Smartwatch

Alliget Smart Watch with Earbuds User Manual

Model: 2 in 1 Smartwatch

1. INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Alliget Smart Watch with integrated Bluetooth Earbuds. Please read this manual thoroughly before using the device to ensure optimal performance and longevity.

Image 1.1: The Alliget Smart Watch with its integrated earbuds, showcasing the sleek design and the earbuds magnetically detaching from the watch body.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- 1 x Smart Bluetooth Watch
- 1 x Watch Strap
- 2 x TWS Earbuds
- 1 x Charge Cable
- 1 x User Manual

3. SETUP GUIDE

3.1 Initial Charging

Before first use, fully charge your smart watch and earbuds. Connect the provided charge cable to the watch's charging port and a USB power source. The watch display will indicate charging status. Ensure the earbuds are securely placed in their charging compartments within the watch.

3.2 App Installation

To unlock full functionality, download and install the **Brandfit** application on your smartphone. The app is compatible with Android 6.0 and iOS 8.0 or above. Scan the QR code in the included quick start guide or search for "Brandfit" in your device's app store.

3.3 Device Pairing

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the Brandfit app and follow the on-screen instructions to add your device.
3. The app will search for available devices. Select "Alliget Smart Watch" from the list to pair.
4. For the earbuds, ensure they are in the watch. Once the watch is paired, the earbuds will typically connect automatically when removed from the watch and Bluetooth is active on your phone. If not, manually pair them via your phone's Bluetooth settings (they may appear as a separate device).

Blood pressure monitoring

Keep abreast of your blood pressure changes

Adopt international general algorithm,
measure your blood pressure 24 hours a day,
check the data through APP

360 degree measurement

Image 3.1: The smart watch and earbuds, illustrating their connection capabilities with a smartphone.

3.4 Attaching Watch Bands

To attach the watch bands, locate the tiny pin on one side of each band. Insert the opposite end of the band into the

corresponding hole on the watch. Pull the tiny pin down with your fingernail, slide the band into place, and then release the pin. Gently wiggle the band to ensure it is securely locked.

4. OPERATING INSTRUCTIONS

4.1 Watch Functions

- **Time Display:** The watch displays time, date, and other information. To change watch faces, press and hold the current watch face, then swipe left or right. More faces can be uploaded via the Brandfit app.
- **Notifications:** After connecting to Bluetooth, the watch will vibrate to remind you of incoming calls, SMS, and app notifications (e.g., Facebook, Twitter, WhatsApp, Instagram).
- **Find Phone:** Use this feature on the watch to locate your paired smartphone.
- **Alarm Clock:** Set alarms through the Brandfit app. The watch will vibrate at the set time.
- **Stopwatch:** Access the stopwatch function directly on the watch for timing activities.
- **Music Control:** Control music playback on your phone (play, pause, skip tracks) directly from the watch.
- **Call Rejection:** Reject incoming calls directly from the watch.

Image 4.1: The smart watch displaying incoming call and message notifications, highlighting its communication features.

4.2 Health Monitoring

The watch provides various health monitoring features. For accurate readings, ensure the watch is worn snugly on your wrist.

- **Heart Rate Monitor:** Continuously monitors your heart rate for 24 hours. View data in the Brandfit app.
- **Blood Oxygen Monitor:** Measures blood oxygen levels regularly. Data can be checked via the app.
- **Blood Pressure Monitoring:** Keeps track of your blood pressure changes. Utilizes an international general algorithm for 24-hour measurement.
- **Sleep Monitor:** Tracks your sleep patterns. Data is available in the Brandfit app.

- **Pedometer & Calorie Counter:** Records your steps, distance, and estimated calorie consumption throughout the day.

Infrared pulse wave High-precision measurement of blood oxygen

The pulse wave transmit time (PWTT) is adopted with a precision far exceeding pure optical measurement method, blood oxygen is measured regularly, and the data is checked by APP

Image 4.2: The smart watch displaying blood pressure readings, illustrating its health monitoring capabilities.

1.28 inch large screen display, clear picture quality

Adopting 1.28inch HD full-circle large screen, 240*240 resolution, high-sensitivity touch screen, a new generation of tempered glass mirror, carefully polished by multiple processes, giving you a clearer visual experience.

Image 4.3: An exploded view of the smart watch, highlighting the internal components responsible for high-precision blood oxygen measurement using infrared pulse wave technology.

4.3 Earbuds Usage

The TWS Bluetooth earbuds are conveniently stored within the watch. They are designed for seamless audio experience and communication.

- **Audio Playback:** Once paired, remove the earbuds from the watch to automatically connect to your phone for music playback.
- **Bluetooth Calls:** The earbuds feature a high-sensitivity microphone, allowing for clear, hands-free calls. Answer or make calls directly through the earbuds or the watch.
- **Charging:** The earbuds charge automatically when placed back into their designated compartments on the watch. The magnetic design ensures secure storage and efficient charging.

Storage and charging integrated Positive and negative magnetic design

The earphones start to charge when they are put into the watch, which is convenient to store, magnetically attracted to prevent loss, and charges quickly

Image 4.4: The smart watch with earbuds being stored and charged, demonstrating the integrated magnetic charging design.

5. MAINTENANCE

5.1 Cleaning

Regular cleaning ensures optimal performance and hygiene.

- **Watch Body:** Wipe the watch body and screen with a soft, damp cloth. Avoid using harsh chemicals.
- **Charging Compartment:** Regularly clean the charging compartment for the earbuds. Ensure it is dry and free of dust or foreign matter to maintain proper charging contact.
- **Earbuds:** Gently clean the earbuds with a dry, soft cloth. Do not use liquids directly on the earbuds.

5.2 Battery Care

The device features a built-in 350mAh battery. To maximize battery life:

- Charge the device fully before first use.
- Avoid extreme temperatures.
- Do not leave the device uncharged for extended periods.
- Typical standby time is 15-20 days. Actual battery life may vary based on usage.

6. TROUBLESHOOTING

If you encounter issues with your smart watch or earbuds, refer to the following troubleshooting steps:

6.1 General Connection and Functionality Issues

1. **Step 1:** Disconnect the watch, earbuds, and mobile app. Close the Brandfit app completely.
2. **Step 2:** Check whether the charging compartment is clean. If there is dust or other foreign matter, please clean the dust under dry conditions.
3. **Step 3:** Check whether the smartwatch and earbuds are connected to their respective Bluetooth devices. Ensure you are not making incorrect connections (e.g., trying to connect earbuds directly to the watch's Bluetooth).
4. **Step 4:** Check whether the distance between the smartwatch, earbuds, and mobile phone is within 10 meters (approximately 33 feet). If the distance exceeds 10 meters, disconnection may occur.
5. **Step 5:** Reconnect the watch, earphones, and mobile app. Restart your phone if necessary.

Tip: Most unusable situations can be resolved through the above troubleshooting methods.

6.2 Specific Issues

- **Time Resetting:** If the watch time resets or is incorrect, ensure it is properly synced with the Brandfit app. Try restarting both the watch and your phone, then re-sync.
- **Sleep Monitoring Not Working:** Ensure the watch is worn snugly during sleep. Verify that sleep monitoring is enabled in the Brandfit app settings. If the issue persists, try the general troubleshooting steps.
- **Earbuds Audio Clipping/Loss:** Ensure the earbuds are fully charged. Check for interference from other Bluetooth devices. If issues persist, try re-pairing the earbuds.

7. SPECIFICATIONS

Feature	Detail
Product Dimensions	11.22 x 2.2 x 0.75 inches
Item Weight	5.6 ounces (159 Grams)
Model Number	2 in 1 Smartwatch
Batteries	1 Lithium Polymer battery required (included)
Battery Capacity	350 mAh
Standing Screen Display Size	1.28 Inches
Memory Storage Capacity	128 MB
Operating System	Android, iOS
Connectivity Technology	Bluetooth
Special Feature	Heart Rate Monitor, Blood Oxygen Monitor, Sleep Monitor, Pedometer, Bluetooth Calls
Manufacturer	ALLIGET
Language Support	English, Spanish

8. WARRANTY AND SUPPORT

For product support, troubleshooting assistance, or warranty inquiries, please refer to the official user manual PDF available online or contact Alliget customer service. While specific warranty details are not provided in this document, general product support is available.
