litillbuly 7-inch Portable Wireless CarPlay/Android Auto Multimedia Player Instruction Manual

Model: 759973188016

Brand: litillbuly

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your litillbuly 7-inch Portable Wireless CarPlay/Android Auto Multimedia Player. Please read this manual thoroughly before use to ensure optimal performance and safety.

Product Overview

The litillbuly 7-inch Portable Wireless CarPlay/Android Auto Multimedia Player offers enhanced in-car connectivity and entertainment. Key features include:

- **Wireless Apple CarPlay & Android Auto:** Seamlessly integrate your smartphone for navigation, music, calls, and voice control (Siri).
- **7-inch IPS Touchscreen:** High-resolution display for clear visuals and intuitive control.
- **Bluetooth 5.0:** Hands-free calling and audio streaming for safer driving.
- **Mirror Link:** Display your phone screen directly on the player.
- **FM Transmitter:** Transmit audio to your car's existing FM radio system.
- **TF/USB Multimedia Player:** Play audio and video files directly from a TF card or USB drive.
- **EQ Equalizer:** Customize audio output with various sound effects.
- **Wide Voltage Compatibility:** Supports 12-24V for use in cars, trucks, vans, and other vehicles.
- **USB Charging Output:** 2.1A USB output for charging mobile devices.

Package Contents

Verify that all items are present in your package:

- 7-inch Multimedia Player Unit
- Power Cable (12-24V cigarette lighter adapter with USB output)
- Suction Cup Bracket
- Self-Adhesive Bracket
- User Manual
- Auxiliary Audio Cable
- Rear View Camera (optional, if included in your specific package)
- Installation Tools (e.g., pry tool, cable clips)

Image: The multimedia player and its various accessories, including mounting brackets and cables.

Setup & Installation

1. Mounting the Unit

Choose between the suction cup bracket or the self-adhesive bracket for installation on your dashboard or windshield. Ensure the mounting surface is clean and dry for secure attachment.

- **Suction Cup Bracket:** Attach the bracket to the unit, then press the suction cup firmly onto the desired surface and engage the lever to secure.
- **Self-Adhesive Bracket:** Attach the bracket to the unit. Peel off the protective film from the adhesive pad and firmly press onto a clean, flat surface on your dashboard.

Image: Portable car stereo with various mounting options shown.

2. Power Connection

Connect the power cable to the unit's Type-C port and plug the cigarette lighter adapter into your vehicle's 12-24V power outlet. The unit will power on automatically.
Note: The player does not have a built-in battery and requires an external power supply to operate.

3. Rear View Camera Connection (If applicable)

Connect the rear view camera cable to the AV-IN port on the multimedia player. Route the camera cable to the rear of your vehicle and connect the red wire to your vehicle's reverse light power source. This enables automatic display of the rear view when reversing.

Your browser does not support the video tag.

Video: This video demonstrates the process of connecting the CarPlay system. It shows how to connect the power and other cables to the unit.

Operating Instructions

1. Wireless CarPlay / Android Auto Connection

To use Wireless CarPlay (for iPhone) or Android Auto (for Android phones):

1. Ensure your phone's Bluetooth and Wi-Fi are turned on.
2. On the multimedia player, navigate to the CarPlay or Android Auto icon.
3. On your phone, search for and connect to the player's Bluetooth device (e.g., "T86B-865D").
4. Confirm pairing on both devices. The system will automatically connect via Wi-Fi for data transmission.

Note: For Android Auto, your phone needs Android 8.0 or above. Some Android phones may have compatibility issues; contact your mobile phone brand operator for Android Auto functionality before purchase.

2. Bluetooth 5.0 Hands-Free Calling & Audio

Once connected via Bluetooth, you can make and receive calls hands-free using the built-in microphone. You can also stream music from your phone to the player.
Voice control (Siri) is supported for iPhones, allowing you to control functions without taking your hands off the wheel.

Image: The multimedia player displaying various functions including Bluetooth calling and Siri voice control.

3. FM Transmitter

To output audio from the player through your car's speakers:

1. Activate the "FM Transmitter" function on the player.
2. Tune the player's FM frequency to a blank (unused) FM channel on your car's radio.
3. Ensure your car's FM radio is tuned to the same frequency.

Note: When the FM transmitter is active, the player's internal speaker will be muted. Disable this function if you do not need to transmit sound to the car stereo.

4. TF/USB Multimedia Player & EQ Equalizer

Insert a TF card or USB drive into the designated slot to play audio and video files. Use the built-in EQ equalizer to select from various sound effects (pop, rock, classical, jazz, etc.) to customize your listening experience.
Note: EQ audio effects are only available when playing music via Bluetooth or TF card.

5. Mirror Link

The Mirror Link function allows you to display your smartphone's screen directly on the multimedia player. Follow the on-screen instructions on the player to establish the connection.

Troubleshooting

- **CarPlay/Android Auto Fails to Work:**
  Ensure both your phone's Bluetooth and Wi-Fi are turned on. Wi-Fi is crucial for data transmission. If using CarPlay, ensure your phone's Wi-Fi is not connected to another network.
- **No Sound from Car Speakers:**
  If using the FM Transmitter, ensure the player's FM frequency matches your car radio's frequency. If not transmitting to car speakers, disable the FM Transmitter function on the player.
- **Unit Heats Up During Use:**
  This is normal as the unit does not have a built-in battery and is constantly connected to an external power source. It will not affect product performance.
- **Working Memory Disappears After Power Off:**
  This screen is primarily used to transfer data from your mobile phone. To ensure personal data security, part of the product's working memory will reset after power off.
- **Android Auto Compatibility:**
  Some Android phones may not support Android Auto normally due to phone version or brand operator issues. Verify compatibility with your phone's manufacturer before purchase.

Specifications

Brand	litillbuly
Model Number	759973188016
Screen Size	7 inches
Display Type	IPS Touchscreen
Connectivity Technology	Wi-Fi, Bluetooth
Bluetooth Version	5.0
Compatible Devices	Smartphone (iPhone, Android)
Supported Internet Services	Maps
Control Method	App, Touch, Voice
