Retevis In-Ear Two-Way Radio Headset

Retevis In-Ear Two-Way Radio Headset Instruction Manual

Model: In-Ear Two-Way Radio Headset

INTRODUCTION

This manual provides instructions for the proper setup, operation, and maintenance of your Retevis In-Ear Two-Way Radio Headset. Please read this manual thoroughly before using the product to ensure optimal performance and longevity.

PRODUCT FEATURES

- 2-Pin Connector:** Equipped with an M-head 2-pin connector for wide compatibility.
- Clear Sound Quality:** Features low impedance (approximately 32 Ohm ± 15%) for enhanced audio clarity.
- In-Ear Earplug Design:** Provides discreet communication and is suitable for both left and right ears.
- Lightweight and Comfortable:** Weighs approximately 1.02 oz (29 grams) for extended wear comfort.
- Push-to-Talk (PTT) Microphone:** Integrated PTT button and microphone for convenient communication.
- Coil Tube Design:** Durable and flexible coil tube for secure and comfortable fit.
- Rotatable Stainless Steel Clip:** Allows for secure attachment of the PTT/Mic unit to clothing.
- Double Cable Design:** Provides flexibility and ease of wear.

COMPATIBILITY

This headset is compatible with two-way radios featuring an M-head 2-pin connector. Specifically, it is designed for use with the following Motorola and HYT models:

- Motorola: CP100, CP100D, CP185, CP200, CP200D, GP300, GP2000, EP450, Mag ONE BRP40, A8, RMU2040, RMU2080D, RDM 2070D, RDU2080D, RDU4100
- HYT: TC610

Note: This headset is not compatible with any Retevis brand walkie-talkies.

SETUP AND INSTALLATION

- Connect the Headset:** Insert the 2-pin connector firmly into the corresponding port on your compatible two-way radio. Ensure a secure connection.
- Position the Earpiece:** Place the in-ear earplug comfortably into your left or right ear. The design allows for discreet wear.
- Secure the PTT/Mic:** Use the rotatable stainless steel clip on the PTT/Mic unit to attach it to your collar, lapel, or other convenient location on your clothing. This allows for easy access to the Push-to-Talk button and ensures the microphone is positioned for clear voice transmission.
- Adjust Cable Length:** The coil tube design provides flexibility. Adjust the cable length as needed for comfort and to minimize snagging.

IN EAR EARPLUG DESIGN

OPERATING INSTRUCTIONS

- Receiving Audio:** Once connected, audio from your two-way radio will be transmitted directly to the in-ear earplug.
- Transmitting Audio (Push-to-Talk):** To speak, press and hold the PTT button on the microphone unit. Speak clearly into the microphone. Release the PTT button when you are finished speaking to return to receive mode.
- Volume Control:** Adjust the volume directly on your two-way radio. The headset does not have independent volume controls.

Your browser does not support the video tag.

Video: Demonstrates the connection and use of the Retevis In-ear Walkie Talkie Earpiece, including how to clip the PTT/Mic and wear the earpiece.

MAINTENANCE

- **Cleaning:** Gently wipe the earpiece and PTT/Mic unit with a soft, dry cloth. Avoid using harsh chemicals or abrasive materials.
- **Storage:** When not in use, store the headset in a clean, dry place away from direct sunlight and extreme temperatures.
- **Cable Care:** Avoid excessive pulling or bending of the cables to prevent damage. The coil tube is designed for flexibility but can be damaged by improper handling.

TROUBLESHOOTING

No Audio / Poor Audio Quality:

- Ensure the 2-pin connector is fully and securely inserted into the radio's port.
- Check the volume level on your two-way radio.
- Verify that your radio is powered on and functioning correctly.
- Confirm that the headset is compatible with your specific radio model (refer to the Compatibility section).

Microphone Not Transmitting:

- Ensure the PTT button is pressed and held firmly while speaking.
- Check for any obstructions around the microphone.
- Verify the headset connection to the radio.

SPECIFICATIONS

Feature	Detail
Connectivity Technology	Wired
Headphones Jack	M Head Plug 2 Pin (2.5mm and 3.5mm pins)
