### Armitron 20/5521WTTT

# Armitron Men's Date Function Bracelet Watch

MODEL: 20/5521 Two TONE - USER MANUAL

## Introduction and Overview

This manual provides comprehensive instructions for the Armitron Men's Date Function Bracelet Watch, Model 20/5521 Two Tone. Designed for durability and style, this timepiece features a classic design with practical functionalities. Please read this manual carefully to ensure proper use and maintenance of your watch.

Front view of the Armitron Men's Date Function Bracelet Watch, Two Tone.

Key features of your watch include:

- Coin edge bezel and mineral crystal lens for enhanced durability.
- Glossy white dial with a date calendar window, gold-tone luminous hands and markers, and a black outer minute track for clear readability.
- Two-tone adjustable link bracelet with a fold-over clasp and double push-button safety for a secure and comfortable fit.
- Water resistance up to 165 feet (50 meters), suitable for short periods of recreational swimming, but not diving or snorkeling.

## Setup and Initial Adjustment

---

### Setting the Time

1. Pull the crown (the small knob on the side of the watch) out to the second click position.
2. Turn the crown clockwise or counter-clockwise to move the hands and set the desired time. Ensure to account for AM/PM if setting the date.
3. Once the time is set, push the crown back in to the normal operating position.

### Setting the Date

1. Pull the crown out to the first click position.
2. Turn the crown clockwise to adjust the date. If the date changes during the day, it means the watch is set to PM. Advance the time by 12 hours.
3. Once the date is set, push the crown back in to the normal operating position.

Side view of the watch, highlighting the crown used for time and date adjustments.

**Bracelet Adjustment**

The two-tone link bracelet is adjustable. For optimal comfort and fit, it may be necessary to remove or add links. This procedure typically requires specialized tools and is best performed by a qualified jeweler or watch repair professional.

The Armitron watch comfortably worn on a wrist, showcasing the bracelet.

**Operating Your Watch**

Your Armitron watch is designed for daily wear. Once the time and date are set, the watch will operate continuously. The luminous hands and markers provide visibility in low-light conditions.

**Water Resistance**

This watch is water resistant to 165 feet (50 meters). This means it is suitable for short periods of recreational swimming. However, it is not suitable for diving, snorkeling, or prolonged water activities. Avoid operating the crown or pushers when the watch is wet or submerged, as this can compromise the water resistance.

**Maintenance and Care**

**Cleaning Your Watch**

To maintain the appearance of your watch, wipe it regularly with a soft, dry cloth. For the metal bracelet, a slightly damp

cloth can be used, followed by a dry cloth. Avoid using harsh chemicals, solvents, or abrasive cleaners, as these can damage the watch's finish.

## **Battery Replacement**

The watch is powered by a quartz movement and requires a battery. When the watch stops running, it indicates the battery needs replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure the watch's integrity and water resistance are maintained.

## **Storage**

When not in use, store your watch in a cool, dry place, away from direct sunlight and extreme temperatures. The original packaging or a watch box can provide suitable protection.

The watch is typically packaged in a protective box, ideal for storage.

## **Troubleshooting**

---

Problem	Possible Cause	Solution
Watch not running	Depleted battery	Replace battery (recommended by professional).
Date not changing at midnight	AM/PM setting incorrect	Advance time by 12 hours.
Condensation inside crystal	Exposure to extreme temperature changes or compromised water resistance	Seek professional service immediately to prevent damage.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact Armitron customer support or a certified watch repair center.

## Specifications

---

**Model Number:** 20/5521WTTT

**Movement:** Quartz

**Case Material:** Stainless Steel
