5. Operating Instructions

Once connected, the functionality of the adapter depends on the peripheral you attach:

- **USB Flash Drives:** Access files and folders on the flash drive through your device's file manager application. You can transfer data between your device and the flash drive.
- **USB Mouse:** A mouse cursor will appear on your device's screen, allowing for precise navigation.
- **USB Keyboard:** Use a physical keyboard for faster typing and text input.
- **Other USB Devices:** The adapter may support other USB peripherals like gamepads, card readers, or certain cameras, provided your device's operating system has the necessary drivers and OTG support.
