

AONBOY F2

AONBOY F2 Cat Water Fountain User Manual

Model: F2

1. INTRODUCTION

This manual provides comprehensive instructions for the safe and efficient use of your AONBOY F2 Cat Water Fountain. Please read this manual thoroughly before initial use and retain it for future reference. This fountain is designed to provide fresh, filtered water, encouraging healthy hydration habits for your pet.

2. PRODUCT OVERVIEW

The AONBOY F2 Cat Water Fountain is equipped with several features to ensure your pet has access to clean and appealing water:

- **Quadruple Filtration System:** Utilizes multiple layers to purify water, removing impurities, odors, and softening water.
- **Three Water Flow Designs:** Offers varied drinking experiences (flower cascade, bubble, gentle fountain) to appeal to different pets.
- **2-Liter Capacity:** Provides a substantial water supply, reducing the frequency of refills and suitable for small to medium-sized pets.
- **Ultra-Quiet Pump:** Operates at less than 30dB, minimizing noise disturbance for both pets and owners.
- **Integrated LED Light:** Allows for easy monitoring of the water level and helps attract pets to drink, especially in low light conditions.

The AONBOY F2 Cat Water Fountain, shown in cyan, features a flower-shaped water spout and comes with a set of replacement filters and sponges.

A Variety of Dream Colors for You to Choose

The AONBOY F2 Cat Water Fountain is available in various colors, including cyan, grey, blue, and orange, allowing for aesthetic choice.

AONBOY cat fountain has been
chosen by more than

100,000 cat owners.

Adequate and clean water can
keep your cat safe from urinary
tract diseases

Difficulty Urinating

Urethritis

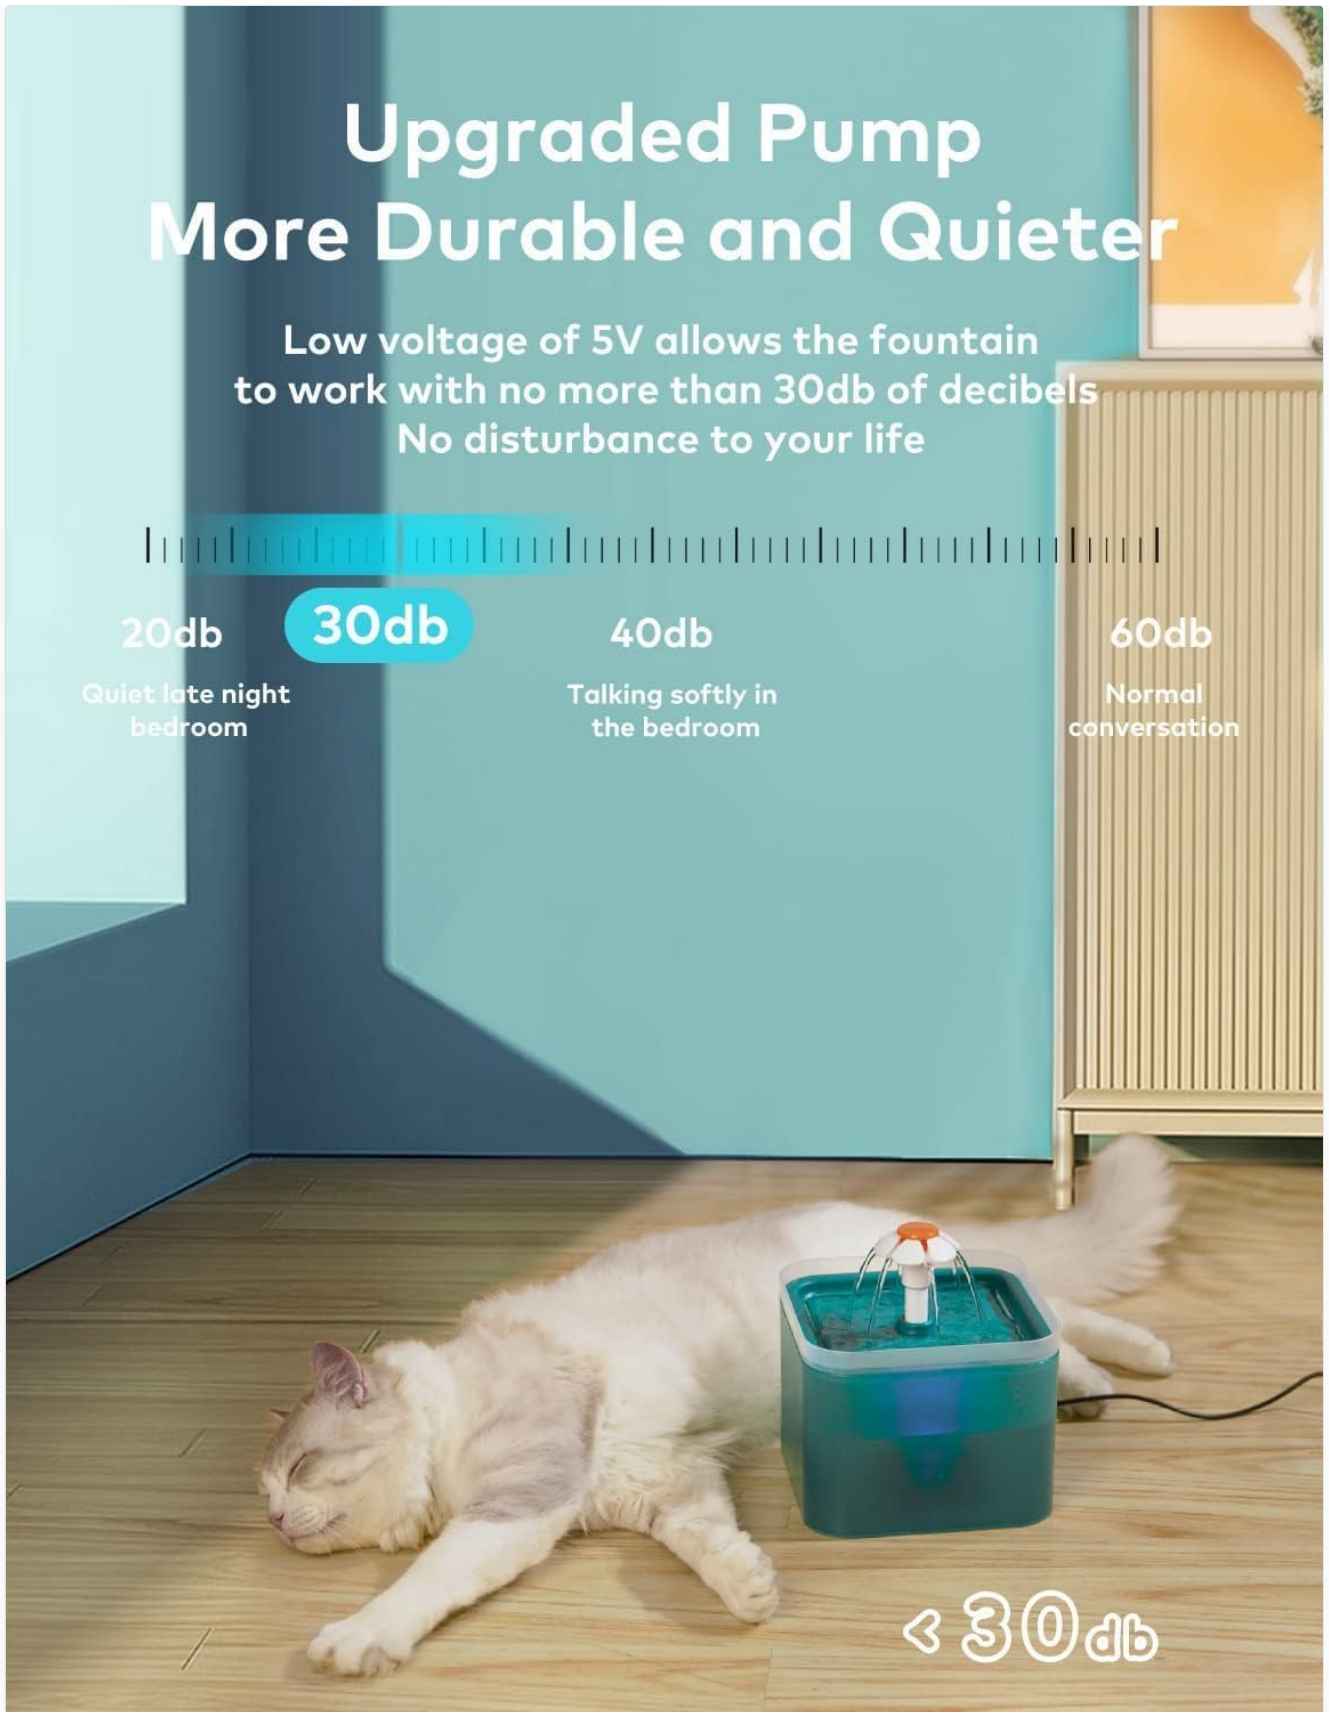

Stone Disease

This image highlights the importance of hydration for feline health, suggesting that the AONBOY F2 Cat Water Fountain helps prevent urinary tract issues by encouraging cats to drink more water.

Upgraded Pump More Durable and Quieter

Low voltage of 5V allows the fountain
to work with no more than 30db of decibels
No disturbance to your life

The AONBOY F2 Cat Water Fountain features an upgraded, ultra-quiet pump operating at less than 30dB, ensuring minimal disturbance for pets and owners.

Pallets

Preliminary filtering of hair residues

High Density Fiber Cotton

2nd filtration, filtering fine particles impurities

Large diameter coconut shell activated carbon

Deep filtration to remove oxygen and microorganisms and improve taste

Cation exchange resin

Softening the water and removing calcium and magnesium ions that induce urinary stones in pets

An exploded view illustrating the quadruple filtration system: preliminary pallets for hair, high-density fiber cotton for fine particles, large diameter coconut shell activated carbon for odors and taste, and cation exchange resin for water softening.

3 Different Flow Design

Surging fountain

Gentle flower

Combination

The fountain offers three distinct water flow options: a surging fountain, a gentle flower stream, and a combination mode, catering to different pet preferences.

LED lights can be bright all the day

🐾 · Make your cat like to drink more than before

🐾 · Easy to Check Water Storage

The integrated LED light in the AONBOY F2 Cat Water Fountain allows for easy monitoring of the water level and helps attract pets to drink, even in low light conditions.

3. SETUP INSTRUCTIONS

1. **Unpack Components:** Carefully remove all parts from the packaging: fountain base, water tank, pump, filter tray, filter, sponge, flower spout, and power adapter.
2. **Rinse Parts:** Rinse all components (except the pump and power adapter) with clean water.

3. **Install Pump:** Place the pump into the designated area within the fountain base. Ensure the power cord is routed correctly through the groove to prevent pinching.
4. **Attach Filter Tray:** Securely attach the filter tray onto the pump.
5. **Insert Filter:** Place the carbon filter and sponge into the filter tray. Ensure they are properly seated.
6. **Fill Water Tank:** Fill the water tank with clean water up to the maximum fill line. Do not overfill.
7. **Assemble Tank:** Carefully place the filled water tank onto the base, ensuring it aligns correctly.
8. **Attach Spout:** Attach the flower spout or your preferred water flow accessory to the pump outlet.
9. **Connect Power:** Connect the power adapter to the fountain and then plug it into a standard electrical outlet.

4. OPERATING INSTRUCTIONS

1. **Power On:** Once assembled and filled, plug the power adapter into an electrical outlet. The pump will start, and the integrated LED light will illuminate.
2. **Monitor Water Flow:** Observe the water flow. If the flow is weak or inconsistent, check the water level and ensure the pump and filter are clean and correctly assembled.
3. **Refill Water:** Monitor the water level daily and refill as needed. It is crucial to ensure the pump does not run dry, as this can cause damage.
4. **Adjust Flow (if applicable):** Some models may have a flow adjustment switch on the pump. Adjust as desired.

5. MAINTENANCE

Regular maintenance is essential for the longevity and hygiene of your pet's water fountain.

Weekly Cleaning

- **Unplug:** Always unplug the fountain from the power outlet before cleaning.
- **Disassemble:** Carefully disassemble all parts of the fountain.
- **Clean Components:** Wash the water tank, base, and filter tray with mild soap and water. Rinse all parts thoroughly to remove any soap residue.
- **Clean Pump:** Remove the pump cover and the impeller. Clean any accumulated debris, hair, or slime from the pump and impeller. Rinse the pump components well.

Filter Replacement

- **Frequency:** Replace the carbon filter and sponge every 2 to 4 weeks. If multiple pets use the fountain or if water quality is poor, more frequent replacement may be necessary.
- **Procedure:** Remove the old filter and sponge. Rinse the new filter and sponge under running water for several minutes before placing them into the filter tray.

6. TROUBLESHOOTING

If you encounter issues with your AONBOY F2 Cat Water Fountain, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
No Water Flow / Weak Flow	Low water level, dirty pump, clogged filter, kinked tubing.	Refill water to the appropriate level. Clean the pump and impeller. Clean or replace the filter and sponge. Check for any kinks in the pump tubing.
Excessive Noise	Low water level, dirty pump/impeller, unstable surface.	Ensure water level is sufficient. Clean the pump and impeller thoroughly. Place the fountain on a flat, stable surface.
LED Light Not Working	Power connection issue, LED malfunction.	Check that the power adapter is securely plugged in. If the issue persists, contact customer support.
Water Overflow	Overfilling, improper assembly.	Do not fill water above the maximum fill line. Ensure all components are correctly assembled and sealed.

7. SPECIFICATIONS

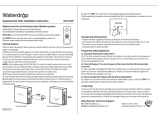

- **Dimensions (L x W x H):** 16 x 16 x 16 cm (6.3 x 6.3 x 6.3 inches)
- **Weight:** 300 grams (0.66 lbs)
- **Model Number:** F2
- **Capacity:** 2 Liters (67.6 fl oz)
- **Power Source:** Electric cable
- **Voltage:** 5 Volts
- **Color:** Cyan
- **Material (Fountain Body):** Plastic
- **Material (Filters):** High-density fiber cotton, coconut shell activated carbon, cation exchange resin
- **Special Features:** Quadruple filtration system, 3 water flow designs, integrated LED light, ultra-quiet pump
- **Intended Use:** Indoor use for cats of all life stages
