Philips Hue Gradient PC Monitor Lightstrip User Manual

Model: 32-34 inch

[Contents](#) [Setup](#) [Operation](#) [Introduction](#) [Maintenance](#) [Safety Information](#) [Troubleshooting](#) [Package](#) [Specifications](#) [Warranty & Support](#)

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Philips Hue Gradient PC Monitor Lightstrip, designed for 32-34 inch monitors. This smart lighting solution enhances your PC experience by synchronizing light with on-screen content, creating an immersive environment. A Philips Hue Bridge is required for full functionality.

2. SAFETY INFORMATION

Please read all safety instructions carefully before using the product. Failure to follow these instructions may result in electric shock, fire, or other hazards.

- Ensure the power supply is disconnected before installation or maintenance.
- Do not expose the lightstrip to water or excessive moisture. This product is designed for indoor use only.
- Do not attempt to open or modify the lightstrip or its components.
- Use only the provided power adapter.
- Keep out of reach of children.
- Avoid direct eye exposure to the LED light for prolonged periods.

3. PACKAGE CONTENTS

Verify that all items listed below are present in your package:

- Philips Hue Gradient PC Monitor Lightstrip (32-34 inch)
- Power Supply Unit
- Mounting Clips (various sizes for corners and straight edges)
- User Manual (this document)

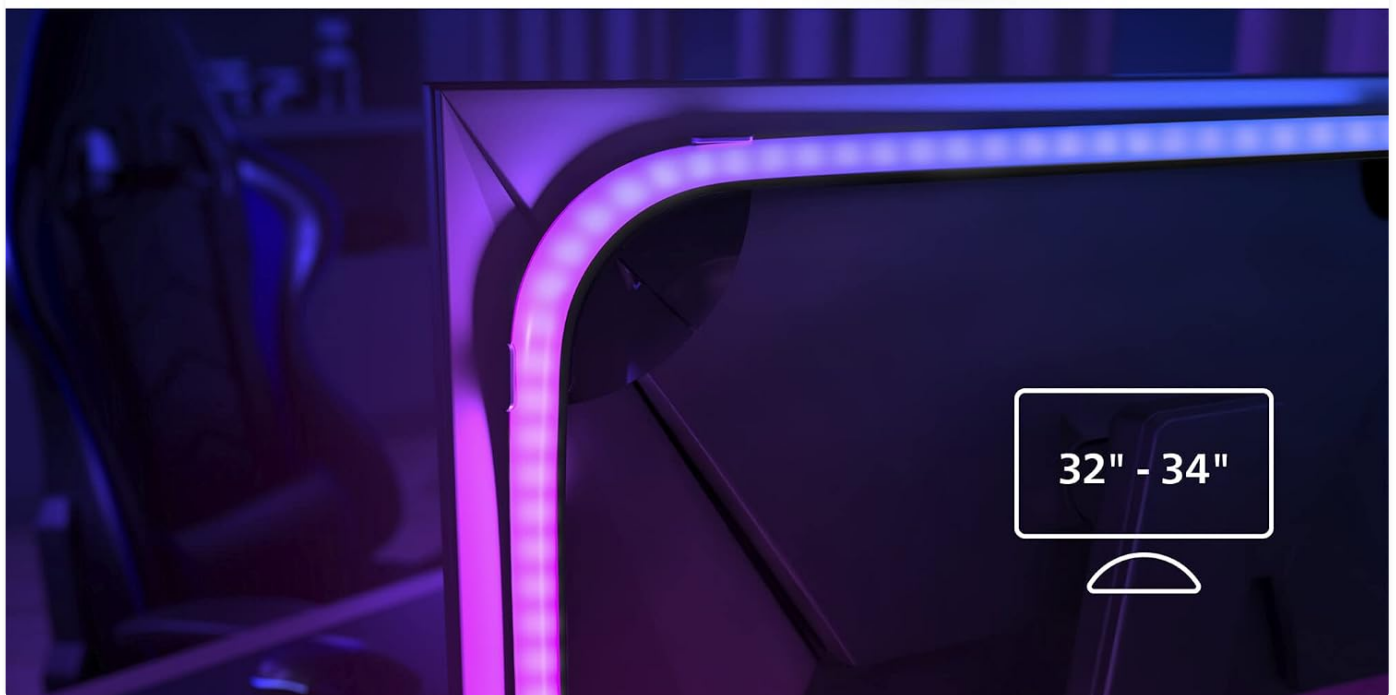

Figure 2: Included components: lightstrip, power supply, and mounting clips.

4. SETUP AND INSTALLATION

Follow these steps to install your Philips Hue Gradient PC Monitor Lightstrip:

1. **Prepare your monitor:** Ensure your monitor is clean and dry. This lightstrip is designed for 32-34 inch monitors.
2. **Attach Mounting Clips:** Identify the appropriate mounting clips for the corners and straight edges of your monitor. Peel off the adhesive backing and firmly press the clips onto the back of your monitor, ensuring they are evenly spaced and aligned with the monitor's edges.
3. **Install the Lightstrip:** Carefully press the lightstrip into the installed mounting clips, starting from one corner and working your way around the monitor. Ensure the light-emitting side faces away from the monitor and towards the wall.

4. **Connect Power:** Connect the lightstrip to the provided power supply unit. Plug the power supply into a wall outlet.

5. **Connect to Philips Hue Bridge:**

- Ensure your Philips Hue Bridge is powered on and connected to your home network.
- Download and open the Philips Hue app on your smartphone or tablet.
- Navigate to "Settings" > "Lights" > "Add light".
- The app will search for new lights. Once detected, follow the on-screen prompts to add your Gradient Lightstrip.
- For optimal synchronization with PC content, download and install the Philips Hue Sync desktop application on your computer.

5. OPERATING INSTRUCTIONS

The Philips Hue Gradient PC Monitor Lightstrip is controlled primarily through the Philips Hue app and the Hue Sync desktop application.

5.1. Basic Control via Philips Hue App

- **On/Off:** Toggle the lightstrip on or off from the app's main screen.
- **Brightness:** Adjust the brightness slider to your desired level.
- **Color Selection:** Choose from millions of colors and shades of white light using the color picker.
- **Scenes:** Apply pre-set or custom scenes to instantly change the ambiance of your room.

5.2. PC Synchronization with Hue Sync

For an immersive experience, use the Philips Hue Sync desktop application:

1. **Launch Hue Sync:** Open the Philips Hue Sync application on your PC.

2. **Connect to Bridge:** The application will guide you through connecting to your Hue Bridge.
3. **Select Entertainment Area:** Create or select an "Entertainment Area" in the Hue app that includes your Gradient Lightstrip. This defines the physical layout of your lights relative to your screen.
4. **Start Syncing:** In the Hue Sync app, choose your desired sync mode (e.g., Game, Video, Audio) and intensity. The lightstrip will then dynamically react to the colors and sounds from your PC.

Figure 8: Full room ambiance created by the lightstrip.

6. MAINTENANCE

The Philips Hue Gradient PC Monitor Lightstrip requires minimal maintenance.

- **Cleaning:** Disconnect the power before cleaning. Use a soft, dry, or slightly damp cloth to wipe the lightstrip. Do not use abrasive cleaners or solvents.
- **Storage:** If storing the lightstrip for an extended period, ensure it is clean, dry, and stored in a cool, dry place away from direct sunlight.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Lightstrip does not turn on.	No power; loose connection; not added to Hue Bridge.	Check power outlet and connections. Ensure the lightstrip is properly added in the Philips Hue app.
Lightstrip is not responding to app commands.	Connectivity issue with Hue Bridge; lightstrip out of range.	Ensure Hue Bridge is online and within range. Restart the Hue app. Power cycle the lightstrip.
Colors are not synchronizing with PC content.	Hue Sync app not running; incorrect entertainment area setup; network issues.	Ensure Philips Hue Sync app is running on your PC. Verify the entertainment area setup in the Hue app. Check network connection.
Lightstrip shows incorrect colors or sections are off.	Software glitch; physical damage.	Restart the lightstrip by unplugging and re-plugging it. If the issue persists, contact Philips Hue support.
