Intex 28451EP + 4 x 28505E

Intex PureSpa Plus Greystone Square Hot Tub User Manual

Brand: Intex | **Model:** 28451EP + 4 x 28505E

1. PRODUCT OVERVIEW

The Intex PureSpa Plus Greystone Square Hot Tub offers a relaxing spa experience for up to 6 people. This inflatable hot tub features 170 high-powered AirJets, a built-in hard water treatment system, and a saltwater sanitation system for enhanced comfort and water quality. It comes bundled with 4 PureSpa Cushioned Headrest Pillows for added relaxation.

The spa's durable construction utilizes puncture-resistant 3-ply laminated material with Fiber-Tech™ construction, ensuring both durability and stability. The Greystone pattern provides an aesthetic appeal suitable for various outdoor settings.

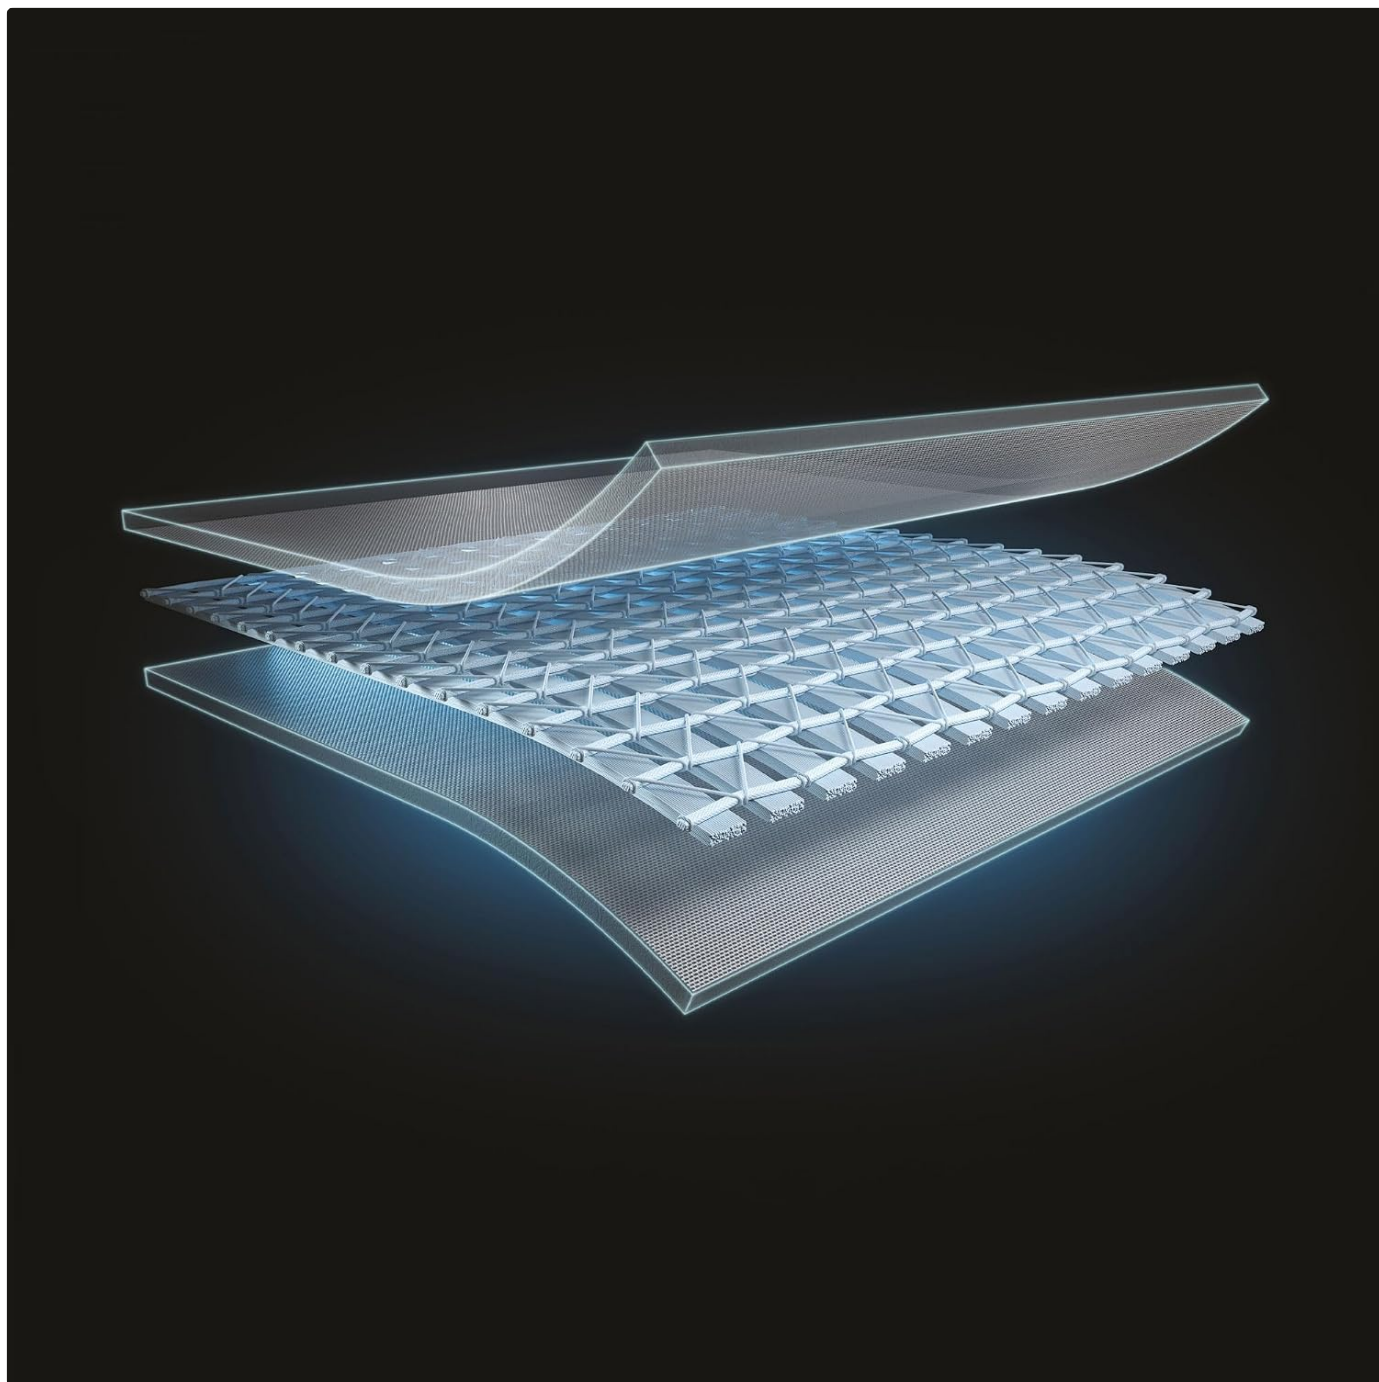

Figure 2: Illustration of Fiber-Tech™ construction for enhanced durability.

2. SETUP INSTRUCTIONS

Setting up your Intex PureSpa Plus is designed to be straightforward. Ensure you have a flat, stable surface for placement, clear of sharp objects or debris.

2.1 Inflation

The spa features a FastFill™ Advanced Inflation System, allowing for quick inflation and deflation at the touch of a button, without the need for an external hose.

Figure 3: FastFill™ Inflation System in action.

1. Unpack all components and lay out the ground cloth in your desired location.
2. Place the deflated spa on the ground cloth.
3. Connect the inflation hose from the control unit to the spa's inflation valve.
4. Press the inflation button on the control panel to begin inflation. The spa will inflate to the correct pressure automatically.
5. Once inflated, disconnect the hose and securely close the valve.

2.2 Filling the Spa

1. Ensure the drain valve is closed.
2. Fill the spa with a garden hose to the recommended water level, indicated on the inner wall of the spa.
3. Connect the filter pump and heater unit to the spa.

3. OPERATING INSTRUCTIONS

The Intex PureSpa Plus offers various features for a customized spa experience.

3.1 Wireless Control Panel

Manage your spa settings conveniently with the wireless control panel. This panel allows you to adjust temperature, activate jets, and control other functions from within or outside the spa.

4. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your Intex PureSpa Plus.

4.1 Heat Retention

Utilize the energy-efficient cover and ground cloth to minimize heat loss and reduce energy consumption. Always secure the cover when the spa is not in use.

4.2 Water Chemistry

Regularly test and adjust your spa's water chemistry. Follow guidelines for pH, alkalinity, and sanitizer levels to ensure clean and safe water. The built-in saltwater sanitation system assists in maintaining water quality.

4.3 Filter Cartridge Cleaning/Replacement

Clean the filter cartridges frequently to ensure efficient filtration. Replace cartridges every few weeks, depending on usage and water quality, to maintain optimal performance.

5. TROUBLESHOOTING

This section addresses common issues you might encounter with your spa.

- **Spa not heating:** Check power connection, ensure filter is clean, and verify temperature setting on the control panel or app.

- **Jets not working:** Confirm the bubble jet function is activated on the control panel. Ensure sufficient water level.
- **Water quality issues:** Test water chemistry and adjust as needed. Clean or replace filter cartridges. Ensure the saltwater sanitation system is operating correctly.
- **Slow inflation/deflation:** Check for kinks in the inflation hose or blockages in the valve.

For more detailed troubleshooting, refer to the comprehensive guide in your product's full manual or contact Intex customer support.
