ENGEL BP25-LG Lime-FBA

Engel BP25 25 Quart Roll-Top High Performance Backpack Cooler User Manual

Model: BP25-LG Lime-FBA | Brand: ENGEL

INTRODUCTION

The Engel BP25 25 Quart Roll-Top High Performance Backpack Cooler is designed for exceptional cooling performance and portability. Featuring 1 inch of closed-cell foam insulation, it guarantees superior temperature retention without adding unnecessary weight. Its robust construction and thoughtful design make it ideal for various outdoor activities, ensuring your beverages and snacks remain cold and accessible.

KEY FEATURES

- **Lightweight and High-Performance Cooling:** Equipped with 1 inch of closed-cell foam insulation for exceptional cooling without excessive weight.
- **Easy Access and Watertight Seal:** Wide mouth roll-top design ensures easy access and a watertight seal. Integrated buckles double as a convenient grab handle.

- **Enhanced Utility:** Features mesh side pockets for extra storage, integrated D-rings and side straps for external gear attachment, and a built-in bottle opener.
- **Comfortable for Extended Journeys:** Padded shoulder straps, chest strap, and foam-padded back provide comfort and stability.

TAKE ANYWHERE

LIGHTWEIGHT

Features 1" of foam insulation for light-weight, high performance cooling

LONG-WEAR COMFORT

With its foam padded back support, ventilated mesh padded shoulder straps, and chest strap, the BP25 was designed for ultimate long-wearing comfort

DURABLE

Outer shell composed of durable 840 denier fibers & laminated with Thermal Plastic Urethane (TPU) film, for strength and puncture resistance

SETUP

First Use Preparation

Before first use, ensure the cooler is clean and dry. For optimal insulation, you can utilize the one-way vacuum valve to remove air from around the insulation. This enhances the cooler's thermal performance.

To use the vacuum valve:

1. Locate the vacuum valve on the side of the cooler.
2. Open the valve cap.
3. Use a standard vacuum cleaner hose attachment to remove air from the insulation layer.
4. Once air is removed and the cooler's walls feel firm, close the valve cap securely.

OPERATING INSTRUCTIONS

Filling and Sealing

To fill the cooler, unroll the top to access the wide mouth opening. Load your desired items, such as beverages and food. For optimal ice retention, it is recommended to fill the cooler with a 2:1 ratio of ice to drinks. Engel Ice Packs can also be used for enhanced performance.

**EASY ACCESS
WIDE MOUTH
OPENING**

**EASILY ROLLS CLOSED
- NO STRUGGLING
WITH ZIPS ON THE GO**

Carrying Options

The BP25 cooler offers multiple carrying options for convenience:

- **Backpack Straps:** Use the padded shoulder straps and chest strap for comfortable, hands-free carrying, especially for longer distances or heavier loads.
- **Top Grab Handle:** The rolled-down top with buckled straps forms a sturdy top handle for quick grabs.
- **Side Grab Handles:** Additional handles on the sides provide alternative carrying options.

MAINTENANCE

Cleaning and Storage

To ensure the longevity and performance of your Engel BP25 cooler, follow these maintenance guidelines:

- **Interior Cleaning:** After each use, empty any remaining ice and liquids. Wipe the interior with a damp cloth and mild soap solution. Rinse thoroughly and allow to air dry completely before storing to prevent mildew. The waterproof interior makes cleaning easy.
- **Exterior Cleaning:** Wipe down the exterior with a damp cloth. For stubborn dirt, use a mild soap solution. Avoid harsh chemicals or abrasive cleaners that could damage the material.
- **Storage:** Store the cooler in a cool, dry place with the top slightly open to allow for air circulation and prevent odors.

TROUBLESHOOTING

Common Issues

- **Reduced Ice Retention:**
 - Ensure the roll-top is sealed tightly and buckled securely.
 - Verify the vacuum valve is properly closed after air removal.
 - Pre-chill the cooler with ice or ice packs before adding contents for extended cooling.
 - Minimize opening the cooler to reduce warm air entry.
- **Difficulty Sealing Roll-Top:**
 - Ensure the top edges are clean and free of debris.
 - Roll the top down firmly and evenly at least three times before buckling.
- **Unpleasant Odor:**
 - Thoroughly clean the interior with a mild soap and water solution, rinse, and air dry completely.
 - Store with the top slightly ajar to allow air circulation.
