## Blue Marble NGMAGADVENT

# National Geographic Magic Advent Calendar 2025 Instruction Manual

Brand: Blue Marble | Model: NGMAGADVENT

## INTRODUCTION

---

The National Geographic Magic Advent Calendar 2025 offers 24 days of engaging magic tricks and science experiments. This kit is designed to provide an exciting and educational experience, combining the wonder of magic with the principles of science. Each day reveals a new activity, complete with all necessary components and clear instructions.

## SAFETY INFORMATION

---

This product is recommended for children 8 years and up. Adult supervision is required for all activities, especially those involving chemicals or heat. Always read and follow all instructions carefully. Keep chemicals out of reach of younger children and pets. In case of contact with eyes, rinse with plenty of water. If irritation persists, seek medical attention. Do not ingest any materials from the kit.

## WHAT'S IN THE BOX

---

- 15 Classic Magic Tricks
- 9 Science Magic Experiments
- Instructions and Learning Guide

## SETUP

Before beginning, ensure you have a clean, flat workspace. Unpack the advent calendar carefully, keeping all daily compartments intact. Locate the Instruction and Learning Guide. Review the guide for general safety information and an overview of the daily activities. Some experiments may require common household items not included in the kit, such as water or a microwave. Prepare these items in advance as indicated in the guide for each specific experiment.

## OPERATING INSTRUCTIONS (DAILY ACTIVITIES)

Each day, open the corresponding numbered door on the advent calendar to reveal a new magic trick or science experiment. Refer to the Instruction and Learning Guide for step-by-step instructions for each activity. The guide will

specify which components from the kit are needed and any additional household items required.

For magic tricks, follow the instructions carefully to learn the secret behind each illusion. Practice the tricks to perfect your performance. For science experiments, follow the steps to observe the scientific principles in action. The guide often includes explanations of 'Why Did That Happen?' to enhance learning.

Some magic tricks also include links to online instructional videos from a professional magician for detailed demonstrations. Scan the QR code or visit the provided URL in the guide to access these videos.

Video: An overview of the National Geographic Magic Tricks Advent Calendar for Kids, showcasing various components and activities included in the kit.

The calendar includes 15 classic magic tricks designed for beginners. These tricks are easy to learn and perform, allowing children to amaze family and friends. Examples include making a coin disappear, levitating a magic wand, and making cards change places. Each trick is explained with clear, illustrated steps in the guide, and many have accompanying video tutorials for visual learners.

## SCIENCE EXPERIMENTS

Discover the wonders of science with 9 astounding experiments. These activities are designed to be both educational and entertaining, covering various scientific concepts. Examples include creating a square bubble, revealing a secret message, producing fizzy reactions, making magic snow appear, and floating coins on water. The Instruction and Learning Guide provides detailed explanations of the scientific principles behind each experiment.

## MAINTENANCE

---

After completing each experiment or trick, ensure all components are properly cleaned and stored. Reusable items should be washed with mild soap and water, then air-dried completely before storage. Store the calendar and its contents in a cool, dry place away from direct sunlight to preserve the quality of the materials.

## TROUBLESHOOTING

---

### Missing or Misplaced Components

If you find a component missing from a daily compartment, check the surrounding compartments or the instruction guide to see if it might be used in a later experiment. Some components are designed to be used across multiple days. If a critical component is genuinely missing, contact customer support for assistance. Experiment Not Working as Expected

Review the step-by-step instructions in the guide and any associated video tutorials carefully. Ensure all measurements and conditions (e.g., water temperature) are met. Sometimes, slight variations can affect the outcome. If the experiment involves chemicals, ensure they are used in the correct order and quantity. For best results, use fresh household items as needed.

### Cleaning Hydrophobic Sand

If an experiment involves hydrophobic sand, it can be tricky to clean. Do not pour it down the drain as it may cause clogs. Instead, pour the water through a coffee filter to separate the sand, then dispose of the sand in the trash. The sand itself is reusable for future experiments if cleaned and dried properly.

## SPECIFICATIONS

---

- **Product Dimensions:** 11.81 x 3.11 x 15.39 inches
- **Item Weight:** 2.65 pounds
- **Item Model Number:** NGMAGADVENT
- **Manufacturer Recommended Age:** 8 years and up
- **Release Date:** February 28, 2023
- **Material:** Cardboard
- **Color:** Multicolor
- **Theme:** Science and Magic

## WARRANTY AND SUPPORT

---

Blue Marble is committed to providing high-quality educational toys. If your experience with the National Geographic Magic Advent Calendar is less than satisfactory, please contact customer support for assistance. While specific warranty details are not provided, the manufacturer aims to ensure customer satisfaction and will address any product-related concerns.
