

## MOFII 2.4G Wireless USB Receiver

# MOFII 2.4G Wireless USB Receiver Instruction Manual

Model: 2.4G Wireless USB Receiver

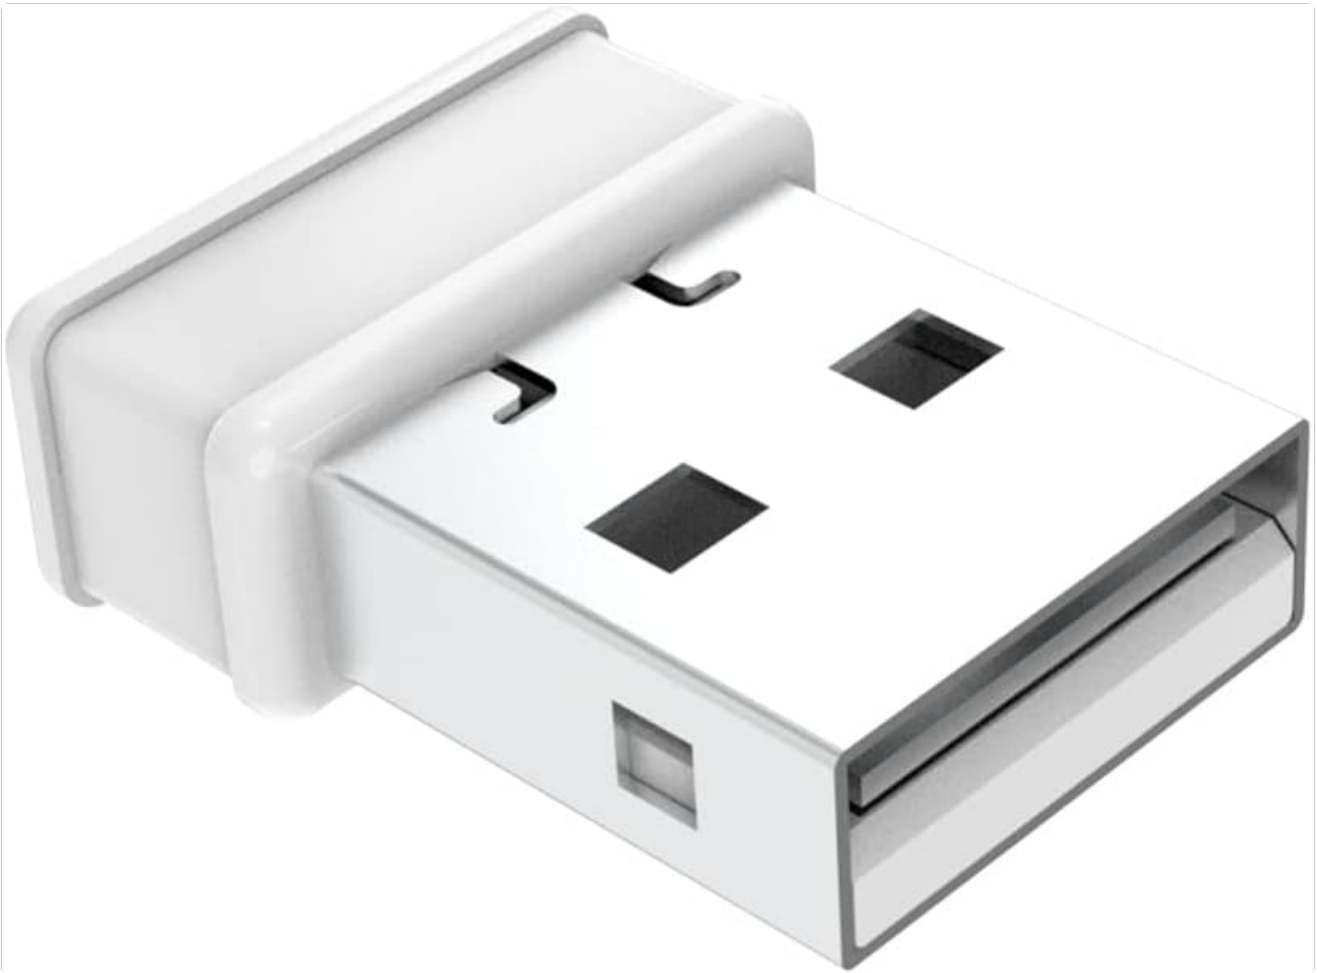

## 1. PRODUCT OVERVIEW

---

The MOFII 2.4G Wireless USB Receiver is a replacement component designed to establish a wireless connection between specific keyboard and mouse sets and your computer. This receiver operates on a 2.4G wireless frequency, providing a stable and responsive connection for compatible devices. It is intended to replace a lost or damaged original receiver, restoring functionality to your wireless peripherals.

### Key Features:

- **2.4G Wireless Connectivity:** Utilizes a robust 2.4G signal for reliable communication.
- **Plug-and-Play:** No driver installation required for basic functionality.
- **Replacement Part:** Specifically designed to replace receivers for certain wireless keyboard and mouse sets.

*Image 1: The MOFII 2.4G Wireless USB Receiver. This small, white USB dongle facilitates wireless communication between compatible keyboards and mice and your computer.*

## 2. COMPATIBILITY INFORMATION

---

This 2.4G wireless USB receiver is **not universal**. It is exclusively designed for specific wireless keyboard and mouse sets from the following brands: KNOWSQT, UBOTIE, SADES, LETTON, MOFII, SkyGive, Nowlike, and Hotfox.

### Important Compatibility Notes:

- This receiver **only works with the two specific keyboard models** shown in Image 2. All color variations of these two models are supported.
- Other styles, designs, or models from the listed brands are **not compatible**.
- This receiver does not support unrelated brands or other types of wireless keyboards and mice.
- It cannot function as a Bluetooth adapter or a USB storage device.

Before purchase, please carefully compare your keyboard style with the models illustrated below to ensure compatibility.

Compatible with Both Keyboard Types.

### 3. SETUP INSTRUCTIONS

Follow these steps to pair your compatible wireless keyboard and mouse with the MOFII 2.4G Wireless USB Receiver:

1. **Insert the Receiver:** Plug the 2.4G Wireless USB Receiver into an available USB port on your computer. Ensure it is fully inserted.
2. **Prepare Peripherals:** For both your wireless keyboard and mouse, remove their batteries.
3. **Reinstall Batteries:** Reinsert the batteries into your keyboard and mouse. This action initiates the pairing process with the newly inserted receiver.
4. **Test Connection:** After reinstalling batteries, test your keyboard and mouse. They should now be connected and functional.
5. **Special Pairing for Keyboard (if needed):** If the keyboard does not connect automatically, some MOFII keyboards may require pressing the **Fn + C** keys simultaneously to initiate pairing.

No additional drivers are typically required for this plug-and-play setup.

## 4. OPERATING THE RECEIVER

---

Once successfully paired, the MOFII 2.4G Wireless USB Receiver operates continuously to maintain the connection between your computer and the wireless keyboard and mouse. It provides a stable 2.4G signal, ensuring smooth typing and responsive mouse control.

- Keep the receiver plugged into a USB port on your computer during use.
- Ensure the keyboard and mouse have sufficient battery power for uninterrupted operation.
- The effective range of the wireless connection may vary depending on environmental factors and obstacles.

## 5. MAINTENANCE

---

The MOFII 2.4G Wireless USB Receiver requires minimal maintenance. To ensure optimal performance and longevity:

- Keep the receiver clean and free from dust. Use a soft, dry cloth for cleaning.
- Avoid exposing the receiver to extreme temperatures, humidity, or direct sunlight.
- Do not attempt to disassemble or repair the receiver, as this may void any potential warranty and could cause damage.
- When not in use for extended periods, you may unplug the receiver from your computer.

## 6. TROUBLESHOOTING

---

If you encounter issues with your MOFII 2.4G Wireless USB Receiver, consider the following troubleshooting steps:

- **No Connection After Setup:**

- Ensure the receiver is fully inserted into a working USB port. Try a different USB port.
- Confirm that your keyboard and mouse are compatible models (refer to Section 2 and Image 2).
- Remove and reinsert the batteries in both your keyboard and mouse to re-initiate pairing.
- For some MOFII keyboards, press **Fn + C** after reinstalling batteries to force pairing.
- Check if the keyboard and mouse have fresh batteries.

- **Intermittent Connection:**

- Ensure the receiver is not obstructed by large metal objects or other electronic devices that might cause interference.
- Move the computer closer to the keyboard and mouse, or use a USB extension cable to position the receiver closer to your peripherals.
- Check for other 2.4G wireless devices in the vicinity that might be causing interference.

- **Receiver Not Recognized by Computer:**

- Try plugging the receiver into a different USB port.
- Restart your computer.
- Ensure your operating system is up to date.

If issues persist after following these steps, please contact customer support.
