PNBLAECE 1-1

PNBLAECE Wireless CarPlay Adapter User Manual

Model: 1-1

PRODUCT OVERVIEW

The PNBLAECE Wireless CarPlay Adapter converts your car's existing wired CarPlay system into a wireless one, allowing for a seamless and convenient connection to your iPhone. This adapter maintains all original CarPlay functionalities, including navigation, music playback, Siri assistant, and phone calls, utilizing your car's built-in controls such as touch screen, OEM knob, and steering wheel controls.

Image: The compact PNBLAECE Wireless CarPlay Adapter with its USB-A connector.

Key features include:

- **Wireless CarPlay Functionality:** Eliminates the need for wired connections, providing a clutter-free experience.
- **Automatic Connection:** Once initially paired, the adapter automatically connects to your iPhone when the car starts.
- **Original Control Method Support:** Compatible with touch screen, OEM knob, and steering wheel controls.

- **Compact Design:** Sleek and small, designed for discreet placement in your vehicle.
- **Plug and Play:** Simple setup process for quick use.

SETUP GUIDE

Follow these simple steps to connect your PNBLAECE Wireless CarPlay Adapter:

Step 1: Insert the Adapter

Insert the Wireless CarPlay Adapter into your car's USB-C or standard USB port. The indicator light on the adapter will illuminate upon successful power connection.

Before

Every time you use carplay you need to use the data cable, and the data cable in the cab will be messy

After

Through Bluetooth & WIFI, realize the use of wireless Apple Carplay. No need to download any apps.

Image: Illustration showing the adapter being plugged into a car's USB port, with the indicator light on.

Step 2: Enable Wi-Fi and Bluetooth on Your iPhone

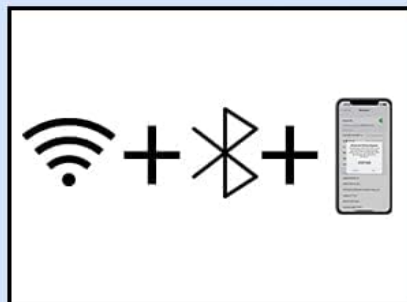

On your iPhone, ensure both Wi-Fi and Bluetooth are turned on. Verify that these functions are not currently occupied by other devices. You do not need to pair Wi-Fi or enter a Wi-Fi password; only Bluetooth pairing is required.

How to Use

1.Plug

2.Turn on WIFI & Bluetooth
Pair Bluetooth

3.Use CarPlay

Image: Screenshots illustrating how to enable Wi-Fi and Bluetooth in iPhone settings, and the Bluetooth pairing process.

Step 3: Pair Bluetooth and Use CarPlay

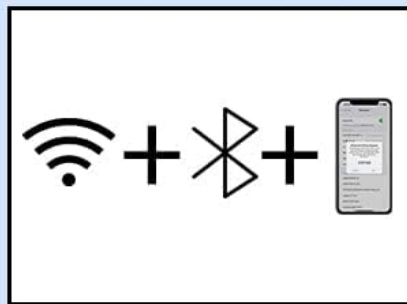

After enabling Wi-Fi and Bluetooth, pair your iPhone with the adapter via Bluetooth. Look for a device named "smartDongle-XXXX" (where XXXX is a unique identifier). Once paired, wait a few seconds for a prompt to appear on your car's display asking to "Use CarPlay." Click this prompt to initiate the wireless CarPlay connection.

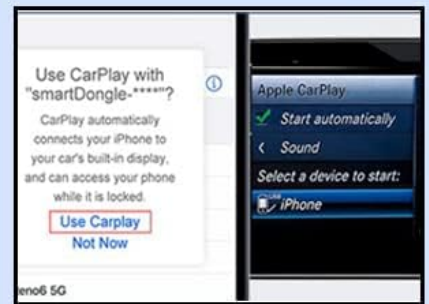

How to Use

1.Plug

2.Turn on WIFI & Bluetooth
Pair Bluetooth

3.Use CarPlay

MAINTENANCE

The PNBLAECE Wireless CarPlay Adapter requires minimal maintenance. To ensure optimal performance and longevity:

- Keep the adapter clean and free from dust and debris. Use a soft, dry cloth for cleaning.
- Avoid exposing the adapter to extreme temperatures, direct sunlight, or moisture.
- Do not attempt to disassemble or repair the adapter yourself. This may void the warranty and cause damage.

TROUBLESHOOTING

If you encounter issues with your Wireless CarPlay Adapter, refer to the following common problems and solutions:

Cannot Find Wi-Fi & Bluetooth

- Ensure the adapter is powered on and its indicator light is illuminated.
- Try testing with another iPhone if available.
- If the issue is specific to one iPhone, reset its network and Bluetooth settings, then restart the device.
- If the problem persists across multiple iPhones, the device may be defective. Contact customer support.

Wi-Fi Connection Notes

- Wi-Fi only needs to be turned on; no pairing or password entry is required for the adapter's operation.

Persistent Disconnection

- Disconnections are often caused by Wi-Fi interference. Check for other Wi-Fi devices in your car (e.g., Wi-Fi enabled car cameras). If present, try ignoring other Wi-Fi networks while using the adapter.

- Reset your mobile Wi-Fi network settings.
- Consider updating the adapter's firmware. Contact customer support with your car model for assistance with firmware updates.

Cannot Connect Automatically

- On some cars, you may need to select "Auto-connect" in your iPhone's CarPlay settings.
- Ensure your phone's Bluetooth and Wi-Fi are on and not occupied by other devices when entering the car.
- Clear existing pairing records, restart your phone, and re-pair the adapter.
- Upgrade the adapter's firmware if available.

Black Screen Issue

- Verify that your iPhone's Bluetooth and Wi-Fi are turned on and not in use by other devices.
- Confirm that CarPlay is enabled in your iPhone settings (Settings > General > CarPlay).
- If the problem persists, provide your car model to customer support for potential firmware updates.

Pre-purchase and Compatibility Notes

This adapter is only compatible with cars that have built-in wired CarPlay. If you experience issues or compatibility problems, please contact support for firmware updates or solutions.

SPECIFICATIONS

Feature	Detail
Brand	PNBLAECE
Model Number	1-1
