## 2. SETUP AND ASSEMBLY

Before beginning assembly, ensure all parts are present and undamaged. Refer to the included assembly diagrams for detailed step-by-step instructions. A small chewing gum is included in the package; please discard or consume it before assembly.

### 2.1 Unpacking and Part Identification

1. Carefully open the packaging and remove all runners (plastic frames with parts).
2. Identify each runner by its letter designation (e.g., A, B, C) and cross-reference with the parts list in the manual.
3. Use a hobby knife or nippers to carefully detach parts from the runners. Avoid twisting or pulling, which can damage the parts.

### 2.2 Assembly Steps

Follow the numerical sequence provided in the included assembly manual. Pay close attention to part orientation

and connection points. Some parts may require gentle force to snap into place. If a part does not fit, do not force it; re-check the diagram and part orientation.

## 4. MAINTENANCE

Proper maintenance will ensure the longevity and appearance of your model kit.

- **Cleaning:** Use a soft, dry cloth or a soft brush to gently remove dust. Avoid using harsh chemicals or abrasive materials, which can damage the plastic.

- **Storage:** Store the model in a cool, dry place away from direct sunlight and extreme temperatures. Prolonged exposure to sunlight can cause discoloration.
- **Handling:** Handle the model with care, especially during transformations or posing, to prevent stress on joints and delicate parts.

## 5. TROUBLESHOOTING

If you encounter any issues during assembly or operation, consider the following:

- **Parts Not Fitting:** Double-check the assembly diagrams to ensure correct part orientation. Some parts may have very specific alignment requirements. Do not force parts together, as this can cause breakage.
- **Loose Joints:** If joints become loose over time, a small amount of clear nail polish or hobby-grade joint tightener can be applied to the ball joint or peg, allowed to dry, and then reassembled.
- **Missing or Damaged Parts:** If you find any parts missing or damaged upon opening the kit, please contact BANDAI customer support with your proof of purchase and a description of the issue.
