Bellemave bed-frames

Bellemave L-Shaped Twin House Bed Frame with Roof - Assembly and Care Manual

Model: bed-frames

Brand: Bellemave

1. Product Overview

The Bellemave L-Shaped Twin House Bed Frame with Roof is designed to provide a unique and functional sleeping solution for children. This innovative bed frame features two twin-sized beds arranged in an L-shape, complete with a decorative roof and window panel, creating an engaging house-like structure. Constructed from solid pine wood and MDF, it offers a sturdy and stable foundation for a comfortable sleep environment. Its low-to-the-ground design ensures easy access for children.

2. Safety Information

- **Weight Capacity:** Each twin bed has a maximum weight capacity of 250 lbs. Do not exceed this limit.
- **Assembly:** Ensure proper assembly according to the instructions. Incorrect assembly can compromise the bed's stability.
- **Pinch Points:** Be cautious during assembly and when moving the bed to avoid pinch points, especially near the slats and joints.
- **Ventilation:** If a new product has a slight odor, ensure adequate ventilation in the room to dissipate it.
- **Supervision:** Always supervise young children when they are using the bed, especially during play.

3. Parts List

Before beginning assembly, verify that all components are present and undamaged. This product typically ships in two separate boxes, which may arrive at different times. Please wait for both packages before starting assembly.

Refer to the detailed assembly instruction guide included with your product for a complete list of parts and hardware. General components include:

- Bed frame panels (headboards, footboards, side rails)
- Roof frame components
- Window panel
- Bed slats
- Hardware (screws, bolts, nuts, washers, dowels)
- Assembly tools (e.g., Allen wrench)

4. Setup and Assembly Instructions

Assembly of the Bellemave L-Shaped Twin House Bed Frame requires two people for optimal ease and safety. All necessary tools are provided. Follow the step-by-step instructions in the included guide carefully.

Video 4.1: An animated assembly guide demonstrating the step-by-step construction of the L-shaped house bed frame.

General Assembly Steps:

1. **Unpack and Organize:** Lay out all parts and hardware on a clean, soft surface to prevent scratches. Group similar components.
2. **Assemble Bed Sections:** Begin by assembling the individual twin bed frames. Attach side rails to headboards and footboards using the provided hardware.
3. **Install Slats:** Securely attach the wooden slats to the bed frames. Ensure even spacing and firm attachment for mattress support.
4. **Connect L-Shape:** Join the two assembled twin bed sections to form the L-shape configuration, following the specific connection points in your manual.
5. **Construct Roof and Window:** Assemble the roof frame and attach the window panel to the designated section.
6. **Attach Roof Structure:** Secure the completed roof structure to the bed frame.
7. **Final Tightening:** Once all components are in place, carefully tighten all bolts and screws. Do not overtighten.

Important Note: Some users have reported that pre-drilled holes may occasionally require clearing for bolts to sit flush. If you encounter this, a screw can be used to gently clear any obstruction.

Image 4.2: A side view of the bed frame during assembly, highlighting the structural components.

5. Usage Guidelines

- **Mattress Compatibility:** This bed frame is designed for standard twin-size mattresses. Mattresses are not included.
- **No Box Spring Needed:** The slatted frame provides adequate support, eliminating the need for a box spring.
- **Child-Friendly Design:** The low height of the bed allows children to easily get in and out independently.
- **Versatile Configuration:** One bed features a full fence, suitable for younger children, while the other can serve as a sofa bed or guest bed.

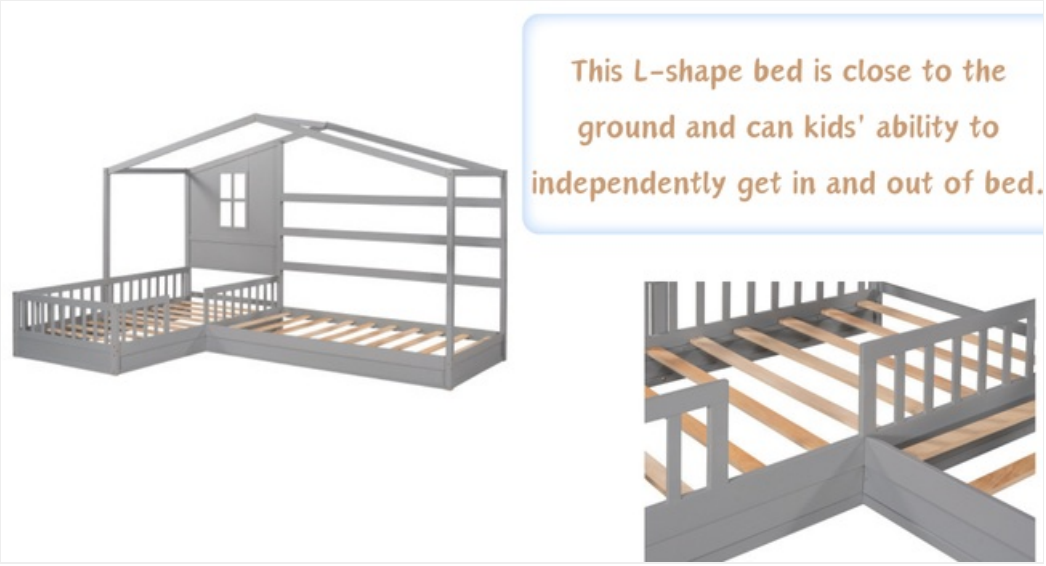

Image 5.1: The low-to-the-ground design facilitates independent access for children.

6. Maintenance

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that could damage the finish.
- **Hardware Check:** Periodically check all bolts and screws to ensure they remain tight. Retighten as necessary to maintain stability.
- **Avoid Excessive Moisture:** Protect the wood from prolonged exposure to moisture or direct sunlight to prevent warping or fading.

7. Troubleshooting

- **Bed Feels Unsturdy/Wobbly:**
  Solution: Ensure all bolts and screws are fully tightened. Re-check each connection point according to the assembly manual. Uneven floor surfaces can also contribute to wobbling; consider placing shims under the bed legs if needed.
- **Parts Not Lining Up During Assembly:**
  Solution: Double-check that you are using the correct parts for each step. Sometimes, pre-drilled holes may have residual wood; gently clear them with a screw or a small tool if necessary. Do not force parts together.
- **Chemical Odor:**
  Solution: New furniture can sometimes have a temporary odor. Ensure the room is well-ventilated by opening windows and doors. The odor should dissipate over a few days.
- **Missing or Damaged Parts:**
  Solution: Refer to the warranty and support section to contact customer service for assistance with replacement parts.

8. Specifications

Feature	Detail
Size	Twin

Feature	Detail
Product Dimensions	118.1"L x 76.6"W x 75.1"H
Color	White
Material	Engineered Wood, Pine Wood
