## SETUP INSTRUCTIONS

---

1. **Unpack the Charger:** Carefully remove the charger from its packaging. Inspect it for any visible damage.
2. **Identify the Charging Port:** Locate the charging port on your compatible Bissell cordless vacuum. This is typically a two-hole port.
3. **Connect the Charger:** Insert the two-prong connector of the PUROSUR charger firmly into the charging port of your vacuum. Ensure a snug fit.
4. **Plug into Power Outlet:** Insert the AC plug of the charger into a standard 100-240V wall outlet.
5. **Verify Connection:** Some vacuum models may have an indicator light that illuminates when charging. Refer to your vacuum's manual for specific charging indicators.

## OPERATING INSTRUCTIONS

---

Once the charger is properly connected to your vacuum and a power outlet, the charging process will begin automatically. The charger is designed to provide a stable and safe power supply for your vacuum's lithium-ion battery.

- **Charging Time:** Charging time will vary depending on the battery level of your vacuum. Refer to your vacuum's original user manual for estimated charging times.
- **Overcharge Protection:** The charger includes built-in overcharge protection to prevent damage to your vacuum's battery. It is safe to leave the vacuum connected to the charger once fully charged, though it is generally recommended to disconnect it once charging is complete.
- **Temperature Considerations:** For optimal charging, use the charger in a well-ventilated area at room temperature. Avoid charging in extremely hot or cold environments.

## MAINTENANCE

- **Cleaning:** Disconnect the charger from the power outlet and the vacuum before cleaning. Wipe the charger with a dry, soft cloth. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the charger in a cool, dry place, away from direct sunlight and moisture. Avoid wrapping the cord too tightly around the charger.
- **Inspection:** Periodically inspect the charger cord and plug for any signs of damage, such as fraying, cuts, or bent prongs. If damage is observed, discontinue use immediately and replace the charger.
